

Milan, January 20, 2022

Moby SpA and its subsidiary CIN SpA (the “Companies”), on January 19, 2022, filed with the Court of Milan a new continuity Plan which provides recovery percentages for creditors significantly higher in respect to the previous Plan filed by Moby SpA on March 29, 2021.

The new Plan has received the prior consent of the Group's main financial creditors, as the bondholders gathered in the Ad Hoc Group and from all the financial institutions.

The Companies have carried out this further important step towards an ongoing industrial relaunch which follows the significant turnaround that has seen the Company overcome the pandemic difficulties and reposition itself as leader in the markets and on the sea routes of reference.
