EUR 30,000,000,000 Debt Issuance Programme

Under this base prospectus (together with any documents incorporated by reference herein, the "Base Prospectus"), Allianz SE, Allianz Finance II B.V. and Allianz Finance III B.V. (each an "Issuer" and together the "Issuers"), subject to compliance with all relevant laws, regulations and directives, may from time to time issue unsubordinated bearer notes in a minimum denomination of EUR 1,000 per Note (together the "Notes"). The payments of all amounts due in respect of Notes issued by Allianz Finance II B.V. and Allianz Finance III B.V. will be unconditionally and irrevocably guaranteed by Allianz SE (the "Guarantor"). The aggregate principal amount of Notes issued under the Debt Issuance Programme described in this Base Prospectus (the "Programme") outstanding will not at any time exceed EUR 30,000,000,000 (or the equivalent in other currencies).

The principal amount of the Notes, the issue currency, the interest payable in respect of the Notes, the issue prices and maturities of the Notes and all other terms and conditions which are applicable to a particular Tranche of Notes (each term as defined below, see "*General description of the Programme*") will be set out in the document containing the final terms (each "Final Terms") within the meaning of Art. 8(4) of the Prospectus Regulation.

This Base Prospectus has been approved by the *Luxembourg Commission de Surveillance du Secteur Financier* (the "CSSF") as competent authority under the Prospectus Regulation. The CSSF only approves this Base Prospectus as meeting the standards of completeness, comprehensibility and consistency imposed by the Prospectus Regulation and gives no undertakings as to the economic and financial soundness of the transaction or the quality or solvency of the Issuers or the Guarantor (if any) in line with the provisions of article 6(4) of the Luxembourg act relating to prospectuses for securities (*loi relative aux prospectus pour valeurs mobilières*) dated 16 July 2019 (the "Luxembourg Prospectus Law"). Such approval should not be considered as an endorsement of the Issuers or of the quality of the Notes that are the subject of this Base Prospectus. Investors should make their own assessment as to the suitability of investing in the Notes.

Each Issuer may request the CSSF to provide competent authorities in host member states within the European Economic Area with a certificate of approval attesting that this Base Prospectus has been drawn up in accordance with the Prospectus Regulation.

Application has also been made to the Luxembourg Stock Exchange for Notes issued under the Programme to be listed on the official list of the Luxembourg Stock Exchange (the "Official List") and to be admitted to trading on the Luxembourg Stock Exchange's regulated market "*Bourse de Luxembourg*". The Luxembourg Stock Exchange's regulated market is a regulated market for the purposes of the Markets in Financial Instruments Directive 2014/65/EU (as amended, "MiFID II"). However, Notes may be listed on any other stock exchange or may be unlisted as specified in the relevant Final Terms.

This Base Prospectus and any supplement to this Base Prospectus will be published in electronic form together with all documents incorporated by reference on the website of the Luxembourg Stock Exchange ("www.bourse.lu"). This Base Prospectus is valid for a period of twelve months after its approval. The validity ends upon expiration of 14 April 2022. The obligation to supplement this Base Prospectus in the event of significant new factors, material mistakes or material inaccuracies does not apply when this Base Prospectus is no longer valid.

This Base Prospectus does not constitute an offer to sell, or the solicitation of an offer to buy, the Notes in any jurisdiction where such offer or solicitation is unlawful.

Neither this Base Prospectus nor any supplement(s) thereto nor any Final Terms constitute an offer or an invitation to subscribe for or purchase any Notes and should not be considered as a recommendation by the Issuers or any Dealer that any recipient of this Base Prospectus or any Final Terms should subscribe for or purchase any Notes. Each recipient of this Base Prospectus or any Final Terms shall be taken to have made its own investigation and appraisal of the condition (financial or otherwise) of the Issuers.

MIFID II PRODUCT GOVERNANCE / TARGET MARKET

The Final Terms in respect of any Notes may include a legend entitled "MiFID II Product Governance" which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any person subsequently offering, selling or recommending the Notes (a "distributor") should take into consideration the target market assessment; however, a distributor subject to Directive

2014/65/EU (as amended, "MiFID II") is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the MiFID Product Governance rules under EU Delegated Directive 2017/593 (the "MiFID Product Governance Rules"), any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the MiFID Product Governance Rules.

UK MIFIR PRODUCT GOVERNANCE / TARGET MARKET

The Final Terms in respect of any Notes may include a legend entitled "UK MiFIR Product Governance" which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any person subsequently offering, selling or recommending the Notes (a "distributor") should take into consideration the target market assessment; however, a distributor subject to the FCA Handbook Product Intervention and Product Governance Sourcebook (the "UK MiFIR Product Governance Rules") is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the UK MiFIR Product Governance Rules, any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the UK MIFIR Product Governance Rules.

PRIIPS REGULATION / EEA RETAIL INVESTORS

If the Final Terms in respect of any Notes include a legend entitled "Prohibition of Sales to EEA Retail Investors", the Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area ("EEA"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of MiFID II; (ii) a customer within the meaning of Directive 2016/97/EU as amended (the "Insurance Distribution Directive"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in the Prospectus Regulation. Where such a Prohibition of Sales to EEA Retail Investors is included in the Final Terms, no key information document required by Regulation (EU) No 1286/2014 (as amended, the "PRIIPs Regulation") for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling such Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

UK PRIIPS REGULATION / UK RETAIL INVESTORS

If the Final Terms in respect of any Notes include a legend entitled "Prohibition of Sales to UK Retail Investors", the Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the United Kingdom ("UK"). For the purposes of this provision the expression "retail investor" means a person who is one (or more) of the following: (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 ("EUWA"); or (ii) a customer within the meaning of the provisions of the Financial Services and Markets Act 2000 (the "FSMA") and any rules or regulations made under the FSMA to implement Directive (EU) 2016/97, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA; or (iii) not a qualified investor as defined in Article 2 of the Prospectus Regulation as it forms part of domestic law by virtue of the EUWA. Where such a Prohibition of Sales to UK Retail Investors is included in the Final Terms, no key information document required by Regulation (EU) No 1286/2014 as it forms part of domestic law by virtue of the EUWA (the "UK PRIIPs Regulation") for offering or selling the Notes or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

NOTIFICATION UNDER SECTION 309B(1) OF THE SECURITIES AND FUTURES ACT (CHAPTER 289) OF SINGAPORE (THE "SFA")

Unless otherwise stated in the Final Terms in respect of any Notes, all Notes issued or to be issued under the Programme shall be prescribed capital markets products (as defined in the Securities and Futures (Capital Markets Products) Regulations 2018) and Excluded Investment Products (as defined in the Monetary Authority of Singapore (the "MAS") Notice SFA 04-N12: Notice on the Sale of Investment Products and MAS Notice FAA-N16: Notice on Recommendations on Investment Products).

BENCHMARK REGULATION / STATEMENT IN RELATION TO ADMINISTRATOR'S REGISTRATION

Interest amounts payable under floating rate notes issued under this Programme are calculated by reference to EURIBOR (Euro Interbank Offered Rate) which is provided by the European Money Markets Institute (EMMI). As at the date of this Base Prospectus, EMMI appears on the register of administrators and benchmarks established and maintained by the European Securities and Markets Authority (ESMA) pursuant to

Article 36 of the Regulation (EU) 2016/1011 of the European Parliament and of the Council of 8 June 2016, as amended ("Benchmark Regulation").

STABILIZATION

In connection with the issue of any Tranche of Notes under the Programme, the Dealer or Dealers (if any) named as stabilizing manager(s) in the applicable Final Terms (or persons acting on behalf of a stabilizing manager) may over-allot Notes or effect transactions with a view to supporting the price of the Notes at a level higher than that which might otherwise prevail. However, stabilization may not necessarily occur. Any stabilization action may begin on or after the date on which adequate public disclosure of the terms of the offer of the relevant Tranche of Notes is made and, if begun, may cease at any time, but it must end no later than the earlier of 30 days after the Issue Date of the relevant Tranche of Notes and 60 days after the date of the allotment of the relevant Tranche of Notes. Any stabilization action or over-allotment must be conducted by the relevant stabilizing manager(s) (or person(s) acting on behalf of any stabilizing manager(s)) in accordance with all applicable laws and rules.

FORWARD-LOOKING STATEMENTS

This Base Prospectus contains certain forward-looking statements. A forward-looking statement is a statement that does not relate to historical facts and events. They are based on analyses or forecasts of future results and estimates of amounts not yet determinable or foreseeable. These forward-looking statements are identified by the use of terms and phrases such as "anticipate", "believe", "could", "estimate", "expect", "intend", "may", "plan", "predict", "project", "will" and similar terms and phrases, including references and assumptions. This applies, in particular, to statements in this Base Prospectus containing information on future earning capacity, plans and expectations regarding Allianz Group's business and management, its growth and profitability, and general economic and regulatory conditions and other factors that affect it.

Forward-looking statements in this Base Prospectus are based on current estimates and assumptions that the Issuers make to the best of their present knowledge. These forward-looking statements are subject to risks, uncertainties and other factors which could cause actual results, including Allianz Group's financial condition and results of operations, to differ materially from and be worse than results that have expressly or implicitly been assumed or described in these forward-looking statements. Allianz Group's business is also subject to a number of risks and uncertainties that could cause a forward-looking statement, estimate or prediction in this Base Prospectus to become inaccurate. Accordingly, investors are strongly advised to read the following sections of this Base Prospectus: "*Risk Factors*" and "*Description of Allianz SE and Allianz Group*". These sections include more detailed descriptions of factors that might have an impact on Allianz Group's business and the markets in which it operates.

In light of these risks, uncertainties and assumptions, future events described in this Base Prospectus may not occur. In addition, neither the Issuers nor the Dealers assume any obligation, except as required by law, to update any forward-looking statement or to conform these forward-looking statements to actual events or developments.

ALTERNATIVE PERFORMANCE MEASURES

Certain financial measures presented in this Base Prospectus and in the documents incorporated by reference are not recognized financial measures under International Financial Reporting Standards as adopted by the European Union ("IFRS") ("Alternative Performance Measures") and may therefore not be considered as an alternative to the financial measures defined in the accounting standards in accordance with generally accepted accounting principles. The Alternative Performance Measures are intended to supplement investors' understanding of the Issuers' financial information by providing measures which investors, financial analysts and management use to help evaluate the Issuers' financial leverage and operating performance. Special items which the Issuer does not believe to be indicative of on-going business performance are excluded from these calculations so that investors can better evaluate and analyze historical and future business trends on a consistent basis. Definitions of these Alternative Performance Measures may not be comparable to similar definitions used by other companies and are not a substitute for similar measures according to IFRS. For more information, see the section "*Alternative Performance Measures*" below.

GENERAL DESCRIPTION OF THE PROGRAMME

GENERAL

Under the Programme, Allianz SE, Allianz Finance II B.V. and Allianz Finance III B.V., subject to compliance with all relevant laws, regulations and directives, may from time to time issue notes (the "Notes") to one or more Dealers. Each of the Issuers and Guarantor (as applicable) may from time to time appoint any institution as a Dealer in relation to a single Tranche. References in this Base Prospectus to "Dealer(s)" means, in relation to any Tranche, each person who is appointed as a Dealer under the Programme Agreement.

Commerzbank Aktiengesellschaft acts as arranger in respect of the Programme (the "Arranger").

Deutsche Bank Aktiengesellschaft will act as fiscal agent (the "Fiscal Agent") and paying agent (the "Paying Agent").

Deutsche Bank Luxembourg S.A. will act as Luxembourg listing agent (the "Luxembourg Listing Agent").

The aggregate principal amount of the Notes outstanding at any one time under the Programme will not exceed EUR 30,000,000,000 (or its equivalent in any other currency) (the "Programme Limit"). The Issuers may increase the Programme Limit in accordance with the terms of the Programme Agreement (as defined herein) from time to time.

PROSPECTUS

Notes issued under the Programme may be issued either: (1) pursuant to this Base Prospectus and associated Final Terms; or (2) pursuant to a Specific Prospectus (as defined below); or (3) in relation to Notes not publicly offered in, and not admitted to trading on a regulated market of, any member state of the European Economic Area, in such form as agreed between the relevant Issuer, the relevant Dealer(s) and, if relevant for the Fiscal Agent, the Fiscal Agent.

"Specific Prospectus" means any prospectus prepared by an Issuer in relation to Notes issued under the Programme and having terms not contemplated by the Base Prospectus as Option I or Option II, which may incorporate by reference certain parts of the Base Prospectus and which constitutes a prospectus for the purposes of Article 6(3) of the Prospectus Regulation, including any documents which are from time to time incorporated by reference in the Specific Prospectus, as such Specific Prospectus is amended, supplemented or replaced from time to time.

ISSUES OF NOTES

Notes may be issued on a continuing basis to one or more of the Dealers.

The Notes issued under this Base Prospectus will be issued as fixed rate notes (the "Fixed Rate Notes"), non-interest bearing notes (the "non-interest bearing Notes") or euro-denominated floating rate notes (the "Floating Rate Notes").

The Notes issued by Allianz Finance II B.V. and Allianz Finance III B.V. will have the benefit of a guarantee, dated 14 April 2021, given by the Guarantor (the "Guarantee"). The Guarantee constitutes an irrevocable, unsecured and unsubordinated obligation of the Guarantor ranking *pari passu* with all other unsecured and unsubordinated obligations of the Guarantor. The Guarantee will be governed by German law.

Notes will be issued in series (each a "Series") having one or more issue dates and on terms otherwise identical (or identical other than in respect of the first payment of interest), the Notes of each Series being intended to be interchangeable with all other Notes of that Series. Each Series may be issued in tranches (each a "Tranche") on the same or different issue dates. The specific terms of each Tranche (which will be completed, where necessary, with the relevant Terms and Conditions and, save in respect of the issue date, issue price, first payment of interest and nominal amount of the Tranche, will be identical to the terms of other Tranches of the same Series) will be completed in the final terms.

Notes of any Tranche may be issued at a price (the "Issue Price") equal to their principal amount or at a discount or premium to their principal amount. The Issue Price for the Notes of any Tranche issued on a syndicated basis will be determined at the time of pricing on the basis of a yield which will be determined on the basis of the orders of the investors which are received by the Dealers during the placement of such Notes. Orders will specify a minimum yield and may only be confirmed at or above such yield. The resulting yield will be used to determine the Issue Price.

Notes will be issued in such denominations as may be agreed between the relevant Issuer and the relevant Dealer(s) and as indicated in the applicable Final Terms save that the minimum denomination of the Notes will be, if in euro, EUR 1,000, and, if in any currency other than euro, an amount in such other currency at least equivalent to EUR 1,000 at the time of the issue of Notes. Subject to any applicable legal or regulatory restrictions, and requirements of relevant central banks, Notes may be issued in euro or any other currency.

Notes will be issued with such maturities as may be agreed between the relevant Issuer and the relevant Dealer(s), subject to such minimum or maximum maturities as may be allowed or required from time to time by any laws, regulations and directives applicable to the relevant Issuer or the relevant currency.

The principal amount of the Notes, the currency, the interest payable in respect of the Notes, if any, the Issue Price and maturities of the Notes which are applicable to a particular Tranche will be set out in the relevant Final Terms.

The yield for Notes with fixed interest rates will be calculated by the use of the International Capital Market Association ("ICMA") method, which determines the effective interest rate of notes taking into account accrued interest on a daily basis.

Each Tranche of Notes will be represented, on issue, either

- (i) initially by a temporary global note which will be exchangeable, in whole or in part, for interest in a permanent global Note on or after the date 40 days after the later of the commencement of the offering and the relevant issue date (the "Exchange Date"), upon certification as to non-U.S. beneficial ownership, or
- (ii) by a permanent global note.

The Notes will be freely transferable in accordance with the rules and regulations of the relevant Clearing System.

DISTRIBUTION OF NOTES

Notes may be distributed by way of public offer or private placements and, in each case, on a syndicated or non-syndicated basis. The method of distribution of each Tranche will be stated in the relevant Final Terms. The Notes may be offered to qualified and non-qualified investors.

The Issuers may request the CSSF to provide competent authorities in host member states within the European Economic Area with a certificate of approval attesting that this Base Prospectus has been drawn up in accordance with the Prospectus Regulation. The Notes may be offered to the public in Luxembourg and, following notification, in any such other additional host member state.

The offer and distribution of any Notes of any Tranche will be subject to selling restrictions, including those for the United States, the European Economic Area and the United Kingdom. See "*Subscription and Sale*" below.

The Final Terms in respect of any Notes may include a legend entitled "*MiFID II Product Governance*" and/or "*UK MiFIR Product Governance*" which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any person subsequently offering, selling or recommending the Notes (a "distributor") should take into consideration the target market assessment; however, a distributor subject to MiFID II and/or the FCA Handbook Product Intervention and Product Governance Sourcebook is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

LISTING OF NOTES

Application has also been made to the Luxembourg Stock Exchange for Notes issued pursuant to this Base Prospectus to be listed on the official list of the Luxembourg Stock Exchange (the "Official List") and to be admitted to trading on the Luxembourg Stock Exchange's regulated market "Bourse de Luxembourg", appearing on the list of regulated markets issued by the European Commission. The Luxembourg Stock Exchange's regulated market is a regulated market included on the list of regulated markets published by ESMA for the purposes of MiFID II. However, Notes may be listed on any other stock exchange, subject to the notification of the Base Prospectus in accordance with Art. 25 of the Prospectus Regulation, or may be unlisted as specified in the relevant Final Terms.

RISK FACTORS

Allianz SE and the Allianz Group are exposed to a variety of risks through its core insurance and asset management activities, including market, credit, underwriting, business, operational, strategic, liquidity, and reputational risks. The following is a description of the material risk factors in relation to Allianz SE as Issuer and the Allianz Group in relation to the Notes. The realization of any of the risks described below may affect the ability of Allianz SE to fulfill its obligations as Issuer or (as the case may be) as Guarantor and/or may adversely affect the market price of Notes and can lead to losses for the holders of the Notes (the "Noteholders"). As a result, investors are exposed to the risk of losing their investment in whole or in part. Additional risks not included in the risk factors below, e.g., because they are now immaterial or not currently known to Allianz SE or Allianz Group, may result in material risks in the future. This is in particular true for risks related to the crisis resulting from the outbreak of SARS-CoV-2 and its associated disease ("Covid-19") which, although to some extent explicitly mentioned as a risk factor or implicitly reflected in the weighting (high / medium / low) of the relevant other risk factors discussed in the following sections, are considered based on currently available information and are subject to a constantly changing and very volatile environment. Investors should be aware that the Allianz SE as the ultimate parent of the Allianz Group may face the same risks as the Allianz Group.

Words and expressions defined in the Terms and Conditions shall have the same meanings in this section.

Risk factors relating to Allianz SE / Allianz Group

I. MARKET RISKS

The market risks of the Allianz Group include credit spread risk, equity risk, interest rate risk, real estate risk, currency risk and inflation risk. In our assessment, the credit spread and the equity risk are the most material risks for the Allianz Group in the category of market risks.

THE ALLIANZ GROUP IS EXPOSED TO CREDIT SPREAD RISK.

The Allianz Group holds a significant portfolio of fixed-income assets such as bonds. The value of this portfolio changes in case of moving credit spreads. It may lose value if credit spreads widen. This may happen in case the perception of risk in the market changes, i.e., investors demand higher compensation for taking on risks, which can happen for several reasons, for example, following a political crisis, an economic recession or changed monetary policy.

We consider this risk to be high.

THE ALLIANZ GROUP IS EXPOSED TO EQUITY RISK.

The Allianz Group holds a significant equity portfolio. This portfolio is subject to volatility in equity markets affecting the market value and liquidity of these holdings. Investments are reviewed regularly for impairment, with write-downs to fair value charged to income if there is objective evidence that the cost may not be recovered. The Allianz Group holds interests in a number of financial institutions as part of its portfolios, which are particularly exposed to uncertain market conditions affecting the financial services sector generally.

In prior years the Allianz Group has incurred significant impairments on the value of the securities and other financial assets that it holds and there is the risk that the Allianz Group will also recognize significant impairments in the future, which may have an adverse effect on the Allianz Group's earnings and on the Allianz Group's business and its financial condition.

We consider this risk to be high.

THE ALLIANZ GROUP IS EXPOSED TO INTEREST RATE RISK.

Changes in prevailing interest rates (including changes in the difference between the levels of prevailing short- and long-term rates, or enduring negative rates) may adversely affect the Allianz Group's insurance, asset management, corporate and other results.

An increase in interest rates could substantially decrease the value of the Allianz Group's fixed-income portfolio, and any unexpected change in interest rates could materially adversely affect the Allianz Group's bond and interest rate derivative positions.

Assets and liabilities from an Allianz Group perspective are not necessarily matched in terms of interest rate sensitivities and therefore any significant change in interest rates could materially adversely affect the Allianz Group's bond and interest rate derivative positions and the fair value of liabilities. A change in prevailing interest rates may accordingly have a negative impact on the capitalization of the Allianz Group.

Results of the Allianz Group's asset management business may also be affected by movements in interest rates, as management fees are generally based on the value of assets under management, which fluctuate with changes in the level of interest rates.

Changes in interest rates will impact the Allianz Group's Life/Health business to the extent they result in changes to current interest income, impact the value of the Allianz Group's fixed-income portfolio and the fair value of the liabilities and affect the levels of new product sales or surrenders of business in force. Reductions in the effective investment income below the rates prevailing at the issue date of the policy, or below the long-term guarantees in countries such as Germany and Switzerland, would reduce the profit margins or lead to losses on the Life/Health insurance business written by the Allianz Group's Life/Health subsidiaries to the extent the maturity composition of the assets does not match the maturity composition of the insurance obligations they are backing. In particular, if low interest rates persist, the effective investment income will decrease over time due to reducing reinvestment yields. Similarly, reductions in the effective investment income of the fixed income trust assets backing the Allianz Group's pension reserves may lead to deficits of the internal pension plans, and these deficits would have to be covered by the Allianz Group. Interest rate volatility risk could substantially impact the economic capitalization in a low interest rate environment, as long term guarantees in Life/Health business increase in value.

The interest rate risks described above may have an adverse effect on the Allianz Group's business, financial condition and results of operations. In particular, a decrease in the Allianz Group's profitability as a result of sustained low or negative interest rates may adversely affect our Solvency II capitalization and solvency capital ratio.

We consider this risk to be medium to high.

THE ALLIANZ GROUP IS EXPOSED TO REAL ESTATE AND OTHER ALTERNATIVE INVESTMENT RISK.

The Allianz Group holds a significant alternative investments portfolio. Alternative investments include real estate, private equity, renewable energy and infrastructure investments. These investments are subject to volatility in real estate, equity and alternative investment markets affecting the market value and liquidity of these holdings and are generally covered by either the real estate or the equity risk capital modelling depending on their characteristics. Investments are reviewed regularly for impairment, with write-downs to fair value charged to income if there is objective evidence that the cost may not be recovered.

In prior years the Allianz Group has incurred significant impairments on the value of the securities and other financial assets that it holds and there is the risk that the Allianz Group will also recognize significant impairments in the future, which may have an adverse effect on the Allianz Group's earnings, the Allianz Group's business and its financial condition.

We consider this risk to be low.

THE ALLIANZ GROUP IS EXPOSED TO CURRENCY RISK.

The Allianz Group prepares its consolidated financial statements in Euro. However, a significant portion of the revenues and expenses from the Allianz Group companies outside the Euro zone, originates in currencies other than the Euro. As a result, although the Allianz Group's non-Euro zone subsidiaries generally record their revenues and expenses in the same currency, changes in the exchange rates used to translate foreign currencies into Euro may adversely affect the Allianz Group's results of operations and the net asset value of subsidiaries from an Allianz Group perspective.

We consider this risk to be low.

THE ALLIANZ GROUP IS EXPOSED TO INFLATION RISK.

Allianz Group is exposed to changing inflation rates, predominantly due to the Non-Life insurance obligations but also due to inflation-indexed internal pension obligations. Unexpected inflation increases both future claims and expenses, leading to greater liabilities and payments to policyholders.

We consider this risk to be low.

II. CREDIT RISKS

The Allianz Group companies are subject to a potential economic loss in the value of their portfolio that would result from either changes in the credit quality of counterparties ("migration risk") or the inability or unwillingness of a counterparty to fulfill contractual obligations ("default risk"). Allianz Group's credit risk profile is derived from three sources:

- Investment portfolio: Credit risk results from Allianz Group's investments in fixed-income bonds, loans, derivatives, cash positions, and receivables whose value may decrease depending on the credit quality of the obligor. As a result, defaults by one or more of these parties on their obligations to the Allianz Group companies due to bankruptcy, lack of liquidity, downturns in the economy or real estate values, operational failure or other reasons, or even rumors about potential defaults by one or more of these parties or regarding the financial services industry generally, could lead to losses or defaults by the Allianz Group companies or by other institutions. In addition, with respect to secured transactions, the Allianz Group companies' credit risk may be exacerbated when the collateral held by them cannot be realized or is liquidated at prices not sufficient to recover the full amount of the loan or derivative exposure. The Allianz Group companies also have exposure to a number of financial institutions in the form of unsecured debt instruments, derivative transactions and equity investments. Losses on or impairments to the carrying value of these assets may materially and adversely affect the Allianz Group's business or results of operations. In

our assessment, the credit risk related to the investment portfolio of the Allianz Group is the most material risk in the category of credit risk. We consider this risk to be medium.

- Credit insurance: Credit risk arises from potential claim payments on limits granted by Euler Hermes to its policyholders. Euler Hermes insures its policyholders from credit risk associated with short-term trade credits advanced to clients of the policyholder. If the client of the policyholder is unable to meet its payment obligations, Euler Hermes indemnifies the loss to the policyholder. We consider this risk to be low.
- Reinsurance: The Allianz Group transfers exposure to certain risks in the Property-Casualty and Life/Health insurance businesses to others through reinsurance arrangements. Under these arrangements, other insurers assume a portion of the Allianz Group's losses and expenses associated with reported and unreported losses in exchange for a portion of policy premiums. Credit risk arises from potential losses from non-recoverability of reinsurance receivables or due to default on benefits under in-force reinsurance treaties. We consider this risk to be low.

If any of the above-mentioned risks materialize, this may materially and adversely affect the Allianz Group's business or results of operations. In prior years the Allianz Group has incurred significant impairments on the value of the securities and other financial assets that it holds and there is the risk that the Allianz Group will recognize significant impairments in the future again, which may have an adverse effect on the Allianz Group's earnings and on the Allianz Group's business and its financial condition.

III. UNDERWRITING RISK OF THE ALLIANZ GROUP

Underwriting risk consists of premium and reserve risks in the Property-Casualty business segment as well as biometric risks in the Life/Health business segment.

UNDERWRITING RISK RELATED TO PROPERTY-CASUALTY BUSINESS

Our Property-Casualty insurance businesses are exposed to premium risk-related adverse developments in the current year's new and renewed business as well as to reserve risks related to the business in force. Premium risk represents the risk that actual claims for the business in the current year develop adversely relative to the expected ratio of claims costs relative to premiums earned. Reserve risk represents the risk of adverse developments in best-estimate reserves over a one-year time horizon, resulting from fluctuations in the timing and/or amount of claims settlement.

Reserve risk in the property-casualty business

Loss reserves for the Allianz Group's Property-Casualty insurance and reinsurance policies are based on estimates as to claims liabilities. Adverse developments relating to claims could lead to further reserve additions and materially adversely impact the Allianz Group's results of operations.

In accordance with industry practice, accounting and regulatory requirements, the Allianz Group establishes reserves for losses and loss adjustment expenses related to its Property-Casualty insurance and reinsurance businesses, including Property-Casualty business in run-off.

Reserves are based on estimates of future payments that will be made in respect of claims, including expenses relating to such claims. Such estimates are made both on a case-by-case basis as well as in respect of losses that have been incurred but not reported ("IBNR") to the Allianz Group. These reserves represent the estimated ultimate cost necessary to bring all pending reported and IBNR claims to final settlement.

Reserves are subject to change due to a number of variables that affect the ultimate cost of claims, such as exchange rates, changes in the legal environment and results of litigation as well as effects closely related to (super-imposed) inflation that may adversely affect costs of repairs and medical costs. The Allianz Group's reserves for asbestos and environmental and other latent claims are particularly subject to such variables.

Established loss reserves estimates are periodically adjusted in the ordinary course of settlement, using the most current information available to management, and any adjustments resulting from changes in reserve estimates are reflected in current results of operations.

To the extent that the Allianz Group's actual claims experience is less favorable than the underlying assumptions used in setting the prices for products and establishing reserves, the Allianz Group may be required to increase its reserves, which may materially adversely affect its results of operations.

On a quarterly basis, Allianz Group monitors reserve levels, movements and trends. This monitoring is conducted on the basis of quarterly data submitted by the subsidiaries as well as through frequent dialogue with local actuaries. However, ultimate losses may materially exceed the established reserves and have a material adverse effect on the Allianz Group's results of operations.

Premium risk in the Property-Casualty business

Allianz Group is exposed to various sources of premium risk such as natural catastrophes, terror events and non-catastrophic events including man-made losses.

Allianz Group's Property-Casualty insurance covers to a large extent losses from major unpredictable events like natural catastrophes (e.g., hurricanes, earthquakes, floods) and man-made events (e.g., fires, industrial explosions) but also acts of terror. The likelihood of such events can change due to natural climate cycles, changes in the portfolios, but also through a changing market or geopolitical environment. Consequently, geopolitical tensions may increase the risk of terror losses significantly in some regions. Also increasing urbanization and increasing concentration

of industrial facilities in natural catastrophe prone regions has increased losses over the past years, a trend that is expected to continue and even to accelerate in the long-term driven by developing climate changes. In addition, increasing digitalization introduces new risks in regard to Cybercrime, i.e. manipulation of software or loss of sensitive data. However, the incidence and severity of all these catastrophes in any given period are inherently unpredictable. All risk models are subject to uncertainty arising from both scientific and management assumptions as well as underlying data.

The Allianz Group monitors its overall exposure to catastrophes and other unpredictable events in each geographic region and each of the Allianz Group's subsidiaries within the Allianz Group's limit framework. In addition, local entities have implemented their own underwriting limits related to insurance coverage for losses from catastrophic events. However, a series of unlikely catastrophes in a year may result in unusually high levels of losses with a material adverse effect on the Allianz Group's financial position or results of operations.

Furthermore, the occurrence of extreme large scale natural catastrophes, pandemics and man-made disasters (e.g., terror events) can have a negative impact on local or even global economy in general, and capital markets in particular, and thus also on the Allianz Group's financial position and results of operations.

We consider the underwriting risk related to Property-Casualty business to be medium.

UNDERWRITING RISK RELATED TO LIFE-HEALTH BUSINESS

Underwriting risks in our Life/Health operations (biometric risks) include mortality, disability, morbidity, and longevity risks. Mortality, disability, and morbidity risks are associated with the unexpected increase in the occurrence of death, disability, or medical claims. Longevity risk is the risk that the reserves covering life annuities and group pension products might not be sufficient due to longer life expectancies of the insured. Life/Health underwriting risk arises from profitability being lower than expected. As profitability calculations are based on several parameters – such as historical loss information and assumptions on inflation, mortality, or morbidity – realized parameters may differ from the ones used for underwriting. For example, higher-than-expected inflation may lead to higher medical claims in the future.

The assumptions the Allianz Group makes in assessing its Life/Health insurance reserves may differ from what the Allianz Group may experience in the future. The Allianz Group derives its Life/Health insurance reserves using "best estimate" actuarial practices and assumptions. These assumptions include the assessment of the long-term development of interest rates, investment returns, the allocation of investments between equity, fixed-income and other categories, policyholder bonus rates (some of which are guaranteed), mortality and morbidity rates, policyholder lapses and future expense levels. The Allianz Group monitors its actual experience of these assumptions, and to the extent that it considers that this experience will continue in the longer term it refines its long-term assumptions. Similarly, estimates of the Allianz Group's own pension obligations necessarily depend on assumptions concerning future actuarial, demographic, macroeconomic and financial markets developments. Changes in any such assumptions may lead to changes in the estimates of Life/Health insurance reserves or pension obligations.

The Allianz Group companies have a significant portfolio of contracts with guaranteed investment returns, including endowment and annuity products for the German market as well as certain guaranteed contracts in other markets. The amounts payable by the Allianz Group companies at maturity of an endowment policy in Germany and in certain other markets include a "guaranteed benefit", an amount that, in practice, is equal to a legally mandated minimum rate of return on actuarial reserves. If interest rates further decline or remain at historically low levels for a long period, the Allianz Group could be required to provide additional funds to the Allianz Group's Life/Health subsidiaries to support their obligations in respect of products with higher guaranteed returns or their pension obligations, or increase reserves in respect of such products, which could in turn have a material adverse effect on the Allianz Group's results of operations.

In the United States, in particular in the variable and fixed-indexed annuity products, and to a lesser extent in Europe and Asia, the Allianz Group has a portfolio of contracts where policyholder crediting is contractually tied to equity market performance. The hedging arrangements (if any) may not cover the returns due to policyholders, which could in turn have a material adverse effect on the Allianz Group's results of operations.

We consider this risk to be low.

IV. BUSINESS RISKS

Business risks include cost risks and policyholder behavior risks, and are mostly driven by the Life/Health business and to a lesser extent by the Property-Casualty business. Cost risks are associated with the risk that expenses incurred in administering policies are higher than expected or that new business volume decreases to a level that does not allow Allianz to absorb its fixed costs. Policyholder behavior risks are risks related to the unpredictable, adverse behavior of policyholders in exercising their contractual options, including for example the early termination of contracts, surrenders, partial withdrawals, renewals, and annuity take-up options.

ALLIANZ GROUP IS EXPOSED TO BUSINESS RISKS WHICH INCLUDE COST RISKS AND POLICYHOLDER BEHAVIOR RISKS.

Allianz Group is exposed to business risks attributable primarily to the Life/Health business segment. Business risk is measured relative to baseline plans. Assumptions on policyholder behavior are set in line with accepted actuarial methods and are based on own historical and industry-wide data or expert judgment. A risk for Allianz may arise when underlying business risk assumptions deviate from their development in reality.

We consider this risk to be low.

GERMAN LIFE INSURANCE UNDERTAKINGS OF THE ALLIANZ GROUP MAY HAVE INCREASED OBLIGATIONS UNDER THE GERMAN POLICY HOLDER PROTECTION SCHEME FOR LIFE INSURERS (PROTEKTOR).

German life insurance undertakings of the Allianz Group are members of the German policy holder protection scheme for life insurers ("Protektor"). In case of an adverse development of the situation of German life insurance companies outside Allianz Group, German life insurance undertakings of the Allianz Group may be required, in line with German regulation and the contract between these undertakings and Protektor, to make substantial contributions to Protektor that are considerably higher than at the current moment.

We consider this risk to be low.

IF THE ALLIANZ GROUP'S ASSET MANAGEMENT BUSINESS UNDERPERFORMS, IT MAY EXPERIENCE A DECLINE IN ASSETS UNDER MANAGEMENT, RELATED FEE INCOME AND A REDUCTION OF PERFORMANCE FEES.

While the assets under management in the Allianz Group's Asset Management segment include a significant amount of funds related to the Allianz Group's insurance operations, third-party assets under management ("AUM") represent the majority.

Results of the Allianz Group's asset management activities are driven by variations in management and performance fees. Background for such variations may be AUM-movements which are induced by valuation changes resulting from market movements. In addition, AUM may fluctuate due to net flows which can be attributed to the relative performance of Allianz Group's investment activities compared to competitors and benchmarks. Moreover, the result of Allianz Group's asset management business can potentially be impacted by adverse credit or operational loss events, if any.

We consider this risk to be low.

V. LEGAL AND REGULATORY RISK

CHANGES IN EXISTING, OR NEW, LAWS AND REGULATIONS, OR ENFORCEMENT INITIATIVES IN RESPECT THEREOF, IN THE COUNTRIES IN WHICH THE ALLIANZ GROUP COMPANIES OPERATE MAY MATERIALLY IMPACT THE ALLIANZ GROUP AND COULD ADVERSELY AFFECT THE ALLIANZ GROUP'S BUSINESS.

The Allianz Group's insurance, asset management and banking businesses as well as the financial steering activities of Allianz SE are subject to detailed, comprehensive laws and regulations as well as supervision in all the countries in which the Allianz Group companies do business.

Regulatory authorities have broad administrative power over many aspects of the financial services business, which include liquidity, capital adequacy and permitted investments, governance, conduct rules, money laundering, "know your customer" rules, prohibited transactions with countries and individuals that are subject to sanctions or otherwise blacklisted, privacy and data protection, record keeping, and marketing and distribution practices. Failure to comply with any laws and regulations could lead to disciplinary action, the imposition of fines and/or revocation of a license, permission or authorization necessary for the conduct of our business or civil or criminal liability, all or any of which could have a materially adverse effect on our business, revenues, results and financial condition.

In addition, insurance, banking and other financial services laws, regulations and policies currently governing Allianz SE and its subsidiaries may change at any time in ways which have an adverse effect on the Allianz Group's business.

Changes in existing laws and regulations, or in their interpretation by the authorities, may affect Allianz Group's tax burden, its capital requirements, the way in which the Allianz Group companies conduct their business and the products they may offer. Governments, regulatory authorities and others have made and continue to make proposals to reform the regulatory framework for the financial services industry to enhance its resilience against future crises and to enhance consumer protection. Proposals include, among others, requests for more stringent regulatory capital and liquidity standards, regulation of specific types of business perceived as inherently risky and expansion of the resolution powers of regulators. It is possible that the future regulatory framework for the financial industry may change. This can result out of the current EIOPA Solvency II review, which may impact Allianz' capitalization, but can also be due to the fact that the Allianz Group has been designated as a "Global Systemically Important Insurer" by the Financial Stability Board and will be subject to the respective policy measures which may apply to such groups. In addition, it is unclear how the Common Framework for the Supervision of Internationally Active Insurance Groups ("Comframe") of the International Association of Insurance Supervisors ("IAIS") will finally be implemented. Effects of the regulatory changes on the Allianz Group may range from additional administrative cost to implement and comply with new rules to increased cost of capital and a materially adverse effect on the Allianz Group's business, results of operation and prospects. Finally, the potential for a multiplicity of different regulatory regimes, capital standards and reporting requirements will increase operational complexity and costs.

Regulators are increasingly focused on promoting the protection of customer/client information and the integrity of information technology systems of regulated firms, utilizing data protection regulations such as the EU General Data Protection Regulation (Regulation (EU) 2016/679) (the "EU GDPR") and the cyber laws of individual states of the United States that have been adopted based in part on the Insurance Data Security Model Law developed by the National Association of Insurance Commissioners ("NAIC"). These initiatives increase the risk of potential liability

and could lead to more conservative approaches to the sharing of data, which in turn could impact assessments of risks. Increased regulatory activity may also include greater scrutiny of personal data processing within the insurance sector, which may give rise to regulatory intervention and reputational harm. Failure to comply with applicable regulations may expose us to significant regulatory fines (for example, the maximum fine for non-compliance with certain EU GDPR requirements would be up to EUR 20 million or 4% of our global turnover (whichever is greater)), damages claims and reputational damage.

The Allianz Group is further subject to antitrust regulation in the European Union and other jurisdictions and is therefore exposed to risks regarding related enforcement actions and damage claims. A finding of an infringement of antitrust regulations could adversely affect the Allianz Group in a variety of ways, including significant fines (based, among other factors, on the value of the relevant sales); private enforcement claims by third parties, such as customers and/or competitors; changes in business practices that may result in reduced revenues and/or margins; and reputational damage.

Governments in jurisdictions in which the Allianz Group does business may consider changes to tax laws which may adversely affect the attractiveness of certain of the Allianz Group's products; if enacted, such changes could result in a significant reduction in the sale of such products.

We consider this risk to be medium.

THE ALLIANZ GROUP'S BUSINESS MAY BE NEGATIVELY AFFECTED BY ADVERSE PUBLICITY, REGULATORY ACTIONS OR LITIGATION WITH RESPECT TO THE ALLIANZ GROUP, OTHER WELL-KNOWN COMPANIES AND THE FINANCIAL SERVICES INDUSTRY GENERALLY.

Adverse publicity and damage to the Allianz Group's reputation might arise from financial reporting irregularities or compliance irregularities, data protection irregularities, involving Allianz Group or other large and well-known companies, increasing regulatory and law enforcement scrutiny of "know your customer", anti-money laundering, anti-corruption and anti-terrorist-financing procedures and their effectiveness, and regulatory investigations of the asset management, banking and insurance industries. Any of the above could also lead to increased regulatory supervision, affect the Allianz Group's ability to attract and retain customers, impair access to the capital markets or have other adverse effects on the Allianz Group in ways that are not predictable.

The Allianz Group companies are involved in legal, regulatory, and arbitration proceedings in Germany and a number of foreign jurisdictions, including the United States. Such proceedings arise in the ordinary course of our business, including, among others, our activities as an insurance, banking and asset management company, employer, investor and taxpayer. While it is not feasible to predict or determine the ultimate outcome of such proceedings, they may result in substantial damages or other payments or penalties or result in adverse publicity and damage to the Allianz Group's reputation. As a result, such proceedings could have an adverse effect on the Allianz Group's business, financial condition and results of operations. For more information on the Allianz Group's legal proceedings, see "*Description of Allianz SE and Allianz Group – Legal and Arbitration Proceedings*".

We consider this risk to be low.

REGULATORY ACTIONS IN CASE OF A BREACH OF REGULATORY CAPITAL REQUIREMENTS.

In the event of a failure by Allianz SE or Allianz Group to meet regulatory capital requirements, regulators have broad authority to take various regulatory actions including limiting or prohibiting the writing of new business, prohibiting payment of dividends or coupon payments and suspend repayments of debt. A breach of regulatory capital requirements or a reduction of solvency ratios by subsidiaries may result in Allianz SE injecting new capital into its subsidiaries which could in turn adversely affect Allianz SE's capital and financial position. Regulatory restrictions can reduce Allianz SE's ability to move capital within Allianz Group which in turn can adversely affect the liquidity and financial position of Allianz SE and Allianz Group. Under the Solvency II regime, the powers of intervention of supervisory authorities with respect to reinsurers like Allianz SE are extensive and, in particular, allow for a restriction on all payments (in particular, payments under the Notes or the Guarantee, if any) at an earlier stage of a potential crisis.

We consider this risk to be low.

VI. INTERNAL CONTROL RISK AND OTHER OPERATIONAL RISK

The Allianz Group has an internal risk and control system for verifying and monitoring its operating activities and business processes, in particular financial reporting, as well as compliance with regulatory requirements. There can be no assurance that this internal risk and control system fully protects the Allianz Group against material misstatements in its public reporting and other disclosure (including, but not limited to, as a result of the operational risks described below), that it is adequate to prevent, discover and remediate breaches of laws or that it will be adequate for an enterprise of the Group's scale and complexity. Any failure to effectively prevent, identify or address violations of our legal obligations as a result of inadequate internal controls, procedures, compliance systems and risk management systems could result in penalties and other sanctions, liabilities, the assertion of damages claims by third parties, and reputational damage, each of which could materially and adversely affect our financial condition and results of operations.

The Allianz Group is exposed to operational risks resulting from inadequate or failed internal processes, human errors, system failures, and external events that can stem from a wide variety of sources such as:

- Potential losses due to a failure to meet a professional obligation or from the design of a product. Examples include mis-selling and other illegal or unethical sales practices, non-compliance with internal or external requirements related to products, employee fraud and other misconduct, antitrust behavior, data protection, sanctions and embargoes, etc. These losses tend to be of a lower frequency but with a potentially high financial impact.
- Potential losses arising from transaction or process management failures. Examples include interest and penalties from non-payment or underpayment of taxes or losses associated with broker and agent distribution processes. These losses tend to be of a relatively higher frequency but with little financial impact (although single large loss events can occur).
- Other operational risks, including, for example, internal or external fraud, financial misstatement risk, a breach of cyber security incident causing business disruption or fines, a potential failure at Allianz Group's outsourcing partners causing a disruption to its working environment. For example, the Allianz Group relies on complex IT systems and could suffer financial losses, a disruption of its businesses, liabilities to clients, regulatory interventions or reputational damage in case of events such as operational errors, software and hardware errors, power blackouts, damage, computer viruses, terrorist or other acts of sabotage as well as other internal or external threats. Operational risks also include legal and compliance risks.

We consider this risk to be low.

VII. OTHER RISKS

Other risks include the SARS-COV-2 Pandemic as well as strategic, liquidity, and reputational risk. In our assessment, the risk related to the SARS-COV-2 Pandemic is the most material risk in this category.

RISKS RELATED TO THE SARS-COV-2 PANDEMIC

Pandemics, epidemics, outbreaks of infectious diseases or any other serious public health concerns, such as the outbreak of SARS-CoV-2 first identified in December 2019 and its associated disease, Covid-19, together with any measures aimed at mitigating a further expansion thereof, such as restrictions on travel, imposition of quarantines, prolonged closures of businesses, or curfews or other social distancing measures, may have a material adverse effect on the global economy and international financial markets in general and on the markets in which the Allianz Group operates in particular. The implications of such outbreaks depend on a number of factors, such as the duration and spread of the respective outbreak as well as the timing, suitability and effectiveness of measures imposed by authorities, the availability of resources, including human, material, infrastructure and financial (e.g., governmental stimulus packages and/or measures introduced by central banks) required to implement effective responses to the respective situation at the international, national and regional level as well as the level of civil compliance with such measures. In addition, there is still an uncertainty associated with the sufficient supply of appropriate vaccines, their production, distribution and correct administration as well as the willingness of the majority of the population to get vaccinated. There is no guarantee that such measures, or a combination thereof, are effective means to combat such an outbreak and the implications resulting therefrom, which may result in an increase of financial, underwriting, liquidity and operational risks for the Allianz Group and, ultimately, may have material adverse effects on the operating results of the Allianz Group and its business and financial situation.

The evolving Covid-19 global pandemic has caused significant disruption to the economy and financial markets globally, and the full extent of the potential impacts of Covid-19 are not yet known. The results of operations, financial condition, and liquidity and capital resources of the Allianz Group have been adversely impacted by the Covid-19 pandemic, and the future impact of the pandemic is difficult to predict. A number of factors that are important for the Allianz Group to successfully conduct its business could continue to be materially affected by the spread of Covid-19. The social distancing measures implemented in the first half of 2020 by countries around the world and with rising incident cases started to get re-imposed in Europe and other regions around the globe at the end of 2020 and at the beginning of 2021 in order to slow the spread of Covid-19 has resulted in a severe global recession and financial crisis. As economic activity is drastically reduced potentially for an extended period of time, many businesses have been and could be forced to close, leading to a dramatic increase in unemployment. As businesses and unemployed workers no longer have the income to pay their outstanding debts, the number of defaults could significantly increase. Such developments have had and continue to have a number of effects on the Allianz Group's business and risk profile, including the following:

- Property and Casualty business: In 2020, Covid-19 had an impact on the operating profit of the Property-Casualty business of EUR (1.1) billion, which was partly due to a significant deterioration of the underwriting result. Global business lines offered by some subsidiaries are expected to continue to be impacted by the crisis, such as travel insurance (Allianz Partners), credit insurance (Euler Hermes) and to some extent business interruption lines of business (e.g. UK, France). In credit insurance, a potential increase in defaults may lead to higher expected losses. Additional uncertainty may arise on both insurance and reinsurance due to legislative and regulatory responses such as, for example, premium deferrals, customer friendly interpretation of policy cover and retroactive extension of insurance coverage, as described in more detail below.
- Life and Health business: In 2020, Covid-19 had an impact on the operating profit of the Life and Health business of EUR (0.2) billion. The Covid-19 pandemic could increase frequency of claims and medical costs in health insurance. Further potential impact could occur in life insurance for example in relation to term life products, which however, are predominantly bought by younger generations.

- Asset management: Potential adverse market developments, including significant market volatility, or investor behavior triggered by the development of the pandemic or measures taken by governments or regulators may decrease assets under management, with associated negative earnings impact.
- Market and Credit risk: The Covid-19 pandemic continues to have an impact on all market risks of the Allianz Group as it has the potential to cause significant price movements on the financial market especially for equities and credit spreads, despite the significant relief of the global financial markets following the promising news of effective vaccines being developed by a number of companies and the accelerating vaccination process in many countries. Allianz also expects continued impact of the crisis on the credit risk, in particular associated with loans granted, investments in fixed-income securities and reinsurance. Further implications are expected as well on the credit side, especially in case the number of bankruptcies is increasing with the associated impact on the banking sector if the state and state orchestrated aids prove to be not sufficiently effective. Depending on the further development of the Covid-19 pandemic, the pandemic may also have adverse impacts on the valuation of the real estate investments of the Allianz Group in the event, for example, there is a sustained and significant decrease in rental income from such properties.
- Liquidity risk: In the current market environment, caused by the Covid-19 pandemic, the liquidity situation of Allianz Group is influenced especially from the economic and solvency situation of its subsidiaries, as well as the political and regulatory requirements regarding corporate capital management activities, such as the general ability to pay dividends. Potential risks may continue to arise in relation to the occurrence of disturbances in the financial market as well as recapitalization needs of related undertakings.
- Operational risk: Allianz Group's operational risks associated with the Covid-19 pandemic could result in particular from operational delays due to public measures to restrict social contacts, employee health problems, costs of implementing business continuity plans and delays or failures in external services. Despite the fact that shifting the workforce to "Work from Home"-mode was implemented without major challenges and all business processes continued without interruptions, as an increasing percentage of employees continue to work remotely, the Allianz Group may face increased resiliency risks. The increasing reliance on digital technologies has been greatly accelerated by the COVID-19 pandemic. As noted, the pandemic has urged Allianz to widely move into a working from home mode for its employees to ensure business continuity and enhance efficiency and competitiveness. Remote working is expected to constitute a key part of the future working model at Allianz which increases the risk of technology obsolescence, cyber-attacks, data breaches, system failures as well as the risk of non-compliance with increasing regulation covering IT-related business processes.
- Modelling risk: Emerging events, such as the Covid-19 pandemic, are analyzed and taken into account as part of the specific analyses or model reviews carried out by Allianz Group's experts. Allianz Group utilizes assumptions, estimates and models to evaluate the potential impact on its business, results of operations and financial condition as a result of the Covid-19 pandemic and the response thereto. If actual events differ materially from those assumptions, estimates or models, the potential estimated losses could be materially higher than those reflected in Allianz Group's capital plans, and its business, financial condition, and results of operations could be materially adversely affected.

In addition to the above risks, holders of business interruption and event cancellation insurance policies have been seeking coverage for losses caused by Covid-19 and related stay-in-place measures. Holders of business interruption insurance policies have already filed lawsuits in different courts in countries in which the Allianz Group operates, including Germany, the United States, France and the United Kingdom, seeking coverage under such policies for closures relating to Covid-19 and resulting government action. In certain of these cases, defendant insurers, including, in certain instances, Allianz Group entities, have expressed that such losses caused by a pandemic such as Covid-19 are not covered. However, policyholders nonetheless have and may continue to assert novel theories of coverage, and insurers, including the Allianz Group, nonetheless may incur significant expense due to the pendency of a large number of individual suits. Furthermore, adverse court rulings in such cases may result in higher claims expenses than currently reflected in Allianz Group's claims reserves.

Furthermore, the Allianz Group may be subject to government and/or regulatory action that would require us to cover losses related to the impact of Covid-19 even if the insurance policies offered by the Allianz Group were not designed, drafted or priced to cover such losses. In some jurisdictions, including in multiple U.S. states, current legislative proposals could require insurers operating in such jurisdictions, including the Allianz Group, to cover certain business interruption claims due to Covid-19, even if such losses are not currently covered under the terms of the relevant policy. There is no assurance that, if such laws are enacted, insurers would be compensated for such payments, and such policies could have a negative impact on the business and financial condition of the Allianz Group. U.S. federal legislative proposals are also under consideration that would establish a U.S. federal program for covering business interruption losses resulting from a public health emergency. Due to such legislative proposals, our insurance contracts may ultimately be interpreted to provide broader coverage for business interruption losses than the Allianz Group anticipated or intended.

As a result of the above risks, the Covid-19 pandemic and the response thereto, including current and future judicial, legislative or regulatory actions, could materially and adversely impact our business, results of operation, financial condition and applicable capital ratios under Solvency II. Moreover, such impact would be greater if the various risks took effect simultaneously. While the Covid-19 pandemic negatively impacted our results of operations in 2020, the extent to which this, and the related global economic crisis, will continue to affect our business, results of operation and financial condition, as well as our capital and liquidity over time, will depend on future developments that are highly uncertain and cannot be predicted, including the scope and duration of the pandemic and any economic recovery period, the future actions of governments, court decisions, international institutions, central banks and other third parties in response to the pandemic, and the effects on our clients, counterparties, employees and third-party providers.

In 2020, our Solvency II capitalization ratio (excluding transitionals) declined from 212% to 207%, predominantly driven by negative market developments from the Covid-19 pandemic. Any continued impact of the Covid-19 pandemic may adversely affect our Solvency II capitalization and solvency capital ratio. Moreover, the effects of the Covid-19 pandemic and response thereto will heighten the other risks described in this section.

We consider this risk to be high.

REPUTATIONAL RISK

Allianz Group's reputation as a well-respected and socially aware provider of financial services is influenced by its behavior in a range of areas such as product quality, corporate governance, financial performance, customer service, employee relations, intellectual capital, and corporate responsibility. Any misbehavior can lead to adverse publicity and damage the Allianz Group's reputation and trigger increased regulatory supervision, affect the Allianz Group's ability to attract and retain customers, impair access to the capital markets or have other adverse effects on the Allianz Group in ways that are not predictable. Reputational risk is the risk of an unexpected drop in the value of the Allianz SE share price, the value of the in-force business, or the value of future business caused by a decline in the reputation in external stakeholders' judgement.

We consider this risk to be medium.

STRATEGIC RISK

Strategic risk is the risk of a decrease in Allianz Group's value arising from adverse management decisions on business strategies and their implementation. Strategic risks are identified and evaluated as part of the Allianz Group's Top Risk Assessment process, and discussed in various Board of Management-level committees (e.g., Group Finance and Risk Committee). Allianz Group also monitors market and competitive conditions, capital market requirements and regulatory conditions, to decide if strategic adjustments are necessary.

Strategic risk includes, in particular, risks associated with the fact that the markets in which the Allianz Group operates are generally quite competitive. This basically applies to all of the Allianz Group's primary business areas, i.e. insurance, asset management and banking businesses. Key factors affecting competition in these areas include price, product features, commission structures, financial strength, claims-paying ability, ratings, administrative performance, support services and name recognition.

In particular, the Allianz Group's more mature insurance markets (e.g., Germany, France, Italy and the United States) are highly competitive. In recent years, the Allianz Group has also experienced increasing competition in emerging markets, as large insurance companies and other financial services providers have also entered these markets to participate in their high growth potential. In addition, local institutions have become more experienced and have established strategic relationships, alliances or mergers also with the Allianz Group's competitors. Furthermore, new competitors from the technology segment may increase their market share or sustainably shape the way how the insurance sector operates. Downturns in the economies of these markets might even increase the competitive pressure, potentially resulting in lower margins or business volumes for the Allianz Group.

If the Allianz Group fails to offer attractive products and services suitable to changing consumer demands, technological trends and regulation, revenues could be materially adversely affected and the Allianz Group may lose market shares in important areas of the Allianz Group's business, which might also have a material adverse impact on the Allianz Group. In addition, ongoing pricing pressure in certain highly competitive markets may negatively impact the Allianz Group's profitability.

Strategic risk also includes the risk that acquisitions by the Allianz Group can have adverse effects on its financial position and results of operations. A variety of factors, which vary with the nature of the underlying transaction, that are partially or entirely beyond the Allianz Group's control could cause actual business results of the acquired undertakings being materially different from what was initially expected, and any synergies due to the acquisition, therefore, could, as a result, be materially smaller or realized at a later stage than initially expected.

We consider this risk to be low.

LIQUIDITY RISK

Liquidity risk is the risk that current or future payment obligations cannot be met or can only be met on the basis of adversely altered conditions. Liquidity risk can arise primarily if there are mismatches in the timing of cash in- and out-flows.

Allianz Group's operating entities manage liquidity risk locally, using asset/liability management systems designed to ensure that assets and liabilities are adequately matched. The major sources of liquidity for operational activities are primary and reinsurance premiums received, reinsurance receivables collected, investment income, and proceeds generated from the maturity or sale of investments. These funds are mainly used to pay claims arising from the Property-Casualty insurance business and related expenses, life policy benefits, surrenders and cancellations, acquisition costs, and operating costs.

The main sources of liquidity available for Allianz SE are dividends received from subsidiaries and funding provided by capital markets. Liquidity resources are readily available assets – specifically cash, money market investments, and highly liquid government bonds. Allianz SE's funds are primarily used for principal and interest payments on debt funding, operating costs, internal and external growth investments, and distributions

to shareholders. Allianz SE's access to external funds depends on various factors such as capital market conditions, access to credit facilities, credit ratings, and credit capacity as well as the possibility that customers or lenders could develop a negative perception of the Allianz Group's long- or short-term financial prospects or negative actions by regulators or rating agencies. The financing of the Allianz Group's activities includes, among other means, funding through commercial paper facilities and medium- and long-term debt issuances. A break-down of such markets such as in the last global financial crisis could have a materially adverse impact on the availability and cost of funding as well as on the refinancing structure of the Allianz Group.

The overall liquidity of Allianz Group's insurance operations depends on capital market developments, interest rate levels, and the ability to realize the market value of the investment portfolio to meet insurance claims and policyholder benefits. Other factors affecting the liquidity of the Property-Casualty insurance operations include the timing, frequency, and severity of losses underlying the policies and policy renewal rates. In Life operations, liquidity needs are generally influenced by trends in actual mortality rates compared to the assumptions underlying the life insurance reserves. Market returns, crediting rates, and the behavior of life insurance clients – for example, regarding the level of surrenders and withdrawals – can also have significant impacts.

Major contingent liquidity requirements include market risk scenarios for Allianz SE and its subsidiaries, non-availability of external capital markets, and reinsurance risk scenarios for Allianz SE.

We consider this risk to be low.

RATING DOWNGRADE RISK

Claims paying ability as expressed by the insurance financial strength ratings is a factor in establishing the competitive position of insurers. Allianz SE's financial strength rating has a significant impact on the individual ratings of key subsidiaries. If a rating of certain subsidiaries falls below a certain threshold, the respective operating business may be significantly impacted. A ratings downgrade, or the potential for such a downgrade, of the Allianz Group or any of its insurance subsidiaries could, among other things, adversely affect relationships with agents, brokers and other distributors of the Allianz Group's products and services, thereby negatively impacting new sales, adversely affect the Allianz Group's ability to compete in the respective markets and increase the cost of borrowing. In particular, in those countries where primary distribution of the Allianz Group's products is done through independent agents, future ratings downgrades could adversely impact sales of the life insurance and annuity products. Any future ratings downgrades could also materially adversely affect the cost of raising capital and could, in addition, give rise to additional financial obligations or accelerate existing financial obligations which are dependent on maintaining specified rating levels. For some lines of business, a downgrade might also have impact on current business in case agreements provide for cancellation clauses which allow policyholders to cancel the agreements in case a certain downgrade occurs. This would trigger a repayment of (parts) of the received premium.

Rating agencies can be expected to continue to monitor the Allianz Group's financial strength and claims paying ability. Future ratings downgrades may occur at any time, whether due to changes in the Allianz Group's performance, its regulatory capital position, changes in the rating agencies' industry views or ratings methodologies, or a combination of these and other factors.

We consider this risk to be low.

MARKET AND OTHER FACTORS COULD ADVERSELY AFFECT GOODWILL, DEFERRED POLICY ACQUISITION COSTS AND DEFERRED TAX ASSETS; THE ALLIANZ GROUP'S DEFERRED TAX ASSETS ARE ALSO POTENTIALLY IMPACTED BY CHANGES IN TAX LEGISLATION.

Business and market conditions may impact the amount of goodwill the Allianz Group carries in its consolidated financial statements. As the value of certain parts of the Allianz Group's businesses, including in particular the Allianz Group's asset management business, are significantly impacted by such factors as the state of financial markets and ongoing operating performance, significant declines in financial markets or operating performance could also result in impairment of other goodwill carried by the Allianz Group companies and result in significant write-downs, which could be material.

The assumptions the Allianz Group made with respect to recoverability of deferred policy acquisition costs ("DAC") are also affected by such factors as operating performance and market conditions. DAC is incurred in connection with the production of new and renewal insurance business and is deferred and amortized generally in proportion to profits or to premium income expected to be generated over the life of the underlying policies, depending on the classification of the product. If the assumptions on which expected profits are based prove to be incorrect, it may be necessary to accelerate amortization of DAC, even to the extent of writing down DAC, which could materially adversely affect results of operations.

Allianz Group carries in its consolidated financial statements deferred tax assets and deferred tax liabilities. The calculation of the respective tax assets and liabilities is based on current tax laws and IFRS and depends on applicable valuation parameters as well as on the performance of Allianz SE and of certain business units in particular.

Changes in German or other tax legislation or regulations or an operating performance below currently anticipated levels or any circumstances which result in an expiration of tax losses may lead to an impairment or revaluation of deferred tax assets, in which case the Allianz Group could be obligated to write-down certain tax assets. Tax assets may also need to be written down if certain assumptions of profitability prove to be

incorrect, as losses incurred for longer than expected could make the usability of tax assets more unlikely. Any such development may have a material adverse impact on the Allianz Group's net income.

We consider this risk to be low.

EMERGING RISKS

Certain ongoing systemic changes may affect the future financial performance, capitalization and liquidity of Allianz Group. These developments are by their nature difficult to predict and depend generally on factors beyond our control. Examples of such risks that may affect Allianz Group include:

- Environmental Matters: Climate change may lead to natural catastrophes, political instability, emerging diseases or changed social behavior that differ from historical experience and may thus be difficult to predict using traditional models. Consequently, climate change and its related impact has the potential to affect the quality of our underwriting, pricing and retrocession processes and may adversely affect our financial condition and results of operations.
- Regulatory Reform: Judicial or legislative changes to retroactively expand policy coverage may expose us in the future to higher than expected losses which would require additional reserve strengthening and higher loss payments. Such retroactive changes to the provision of business interruption insurance have already begun to occur during the Covid-19 crisis.
- Technological Developments: Insurance companies are required to adapt to multiple emerging technologies that are changing customer behavior, affecting how business is conducted, and potentially creating new sources of risks. Allianz Group may be adversely affected if we are unable to adapt to the impact of such technologies on our operations and unable to adequately anticipate and model such risks. Such potential emerging risks related to technological change include cybersecurity, as well as new risks relating to new technologies such as autonomous cars and nanotechnologies.

We consider this risk to be low to medium.

RISK FACTORS RELATING TO ALLIANZ FINANCE II B.V.

Allianz Finance II B.V. is a funding vehicle for the Allianz Group. As such, it, *inter alia*, raises funds and on-lends monies to group companies within the Allianz Group by way of intra-group loans. In the event that a group company fails to make a payment under an intra-group loan, the Issuer may not be able to meet its payment obligations under the Notes.

We consider this risk to be low.

RISK FACTORS RELATING TO ALLIANZ FINANCE III B.V.

Allianz Finance III B.V. is a funding vehicle for the Allianz Group. As such, it, *inter alia*, raises funds and on-lends monies to group companies within the Allianz Group by way of intra-group loans. In the event that a group company fails to make a payment under an intra-group loan, the Issuer may not be able to meet its payment obligations under the Notes.

We consider this risk to be low.

RISK FACTORS RELATING TO THE NOTES

VIII. RISKS RELATED TO THE NATURE OF THE NOTES

NOTEHOLDERS ARE SUBJECT TO THE RISK OF A PARTIAL OR TOTAL FAILURE OF THE RELEVANT ISSUER OR, IF APPLICABLE, THE GUARANTOR TO MAKE INTEREST AND/OR REDEMPTION PAYMENTS.

Any person who purchases the Notes is relying on the creditworthiness of the relevant Issuer and, if applicable, the Guarantor, and has no rights against any other person. Noteholders are subject to the risk of a partial or total failure of the relevant Issuer or, if applicable, the Guarantor to make interest and/or redemption payments that such Issuer or, if applicable, the Guarantor is obliged to make under the Notes or the Guarantee. The worse the creditworthiness of the relevant Issuer or, if applicable, the Guarantor, the higher the risk of loss (see also "*Risk Factors relating to Allianz SE/Allianz Group*", "*Risk Factors relating to Allianz Finance II B.V.*" and "*Risk Factors relating to Allianz Finance III B.V.*" above). A materialization of the credit risk may result in partial or total failure of the relevant Issuer or, if applicable, the Guarantor to make interest and/or redemption payments under the Notes or the Guarantee.

In addition, even if the likelihood that the relevant Issuer or, if applicable, the Guarantor, will be in a position to fully perform all obligations under the Notes or the Guarantee when they fall due actually has not decreased, market participants could nevertheless be of that opinion. Market participants may in particular be of such opinion if market participants' assessment of the creditworthiness of corporate debtors in general or debtors operating in the insurance sector adversely change. If any of these risks materializes, third parties would only be willing to purchase the Notes for a lower price than before and the market value of the Notes may therefore decrease.

THE NOTES WILL BE EFFECTIVELY SUBORDINATED TO ALLIANZ GROUP'S DEBT TO THE EXTENT SUCH DEBT IS SECURED BY ASSETS THAT ARE NOT ALSO SECURING THE NOTES.

Although the Terms and Conditions restrict the relevant Issuer's and, if applicable, the Guarantor's ability to provide asset security for the benefit of other debt and require the relevant Issuer and, if applicable, the Guarantor to secure the Notes equally if they provide security for the benefit of Capital Markets Indebtedness (as defined in the Terms and Conditions), the requirement to provide equal security to the Notes is subject to a number of significant exceptions and carve-outs. To the extent the relevant Issuer or, if applicable, the Guarantor provide asset security for the benefit of other debt without also securing the Notes, the Notes will be effectively junior to such debt to the extent of such assets.

As a result of the foregoing, holders of any secured debt of Allianz Group may recover disproportionately more on their claims than the Noteholders in bankruptcy, administration, reorganization, insolvency, receivership or similar proceedings. The relevant Issuer or, if applicable, the Guarantor may not have sufficient assets remaining to make payments on the Notes.

THE NOTES ARE STRUCTURALLY SUBORDINATED TO CREDITORS OF THE RELEVANT ISSUER'S OR THE GUARANTOR'S SUBSIDIARIES

The Notes will not be guaranteed by any of the subsidiaries of the relevant Issuer or, if applicable, of the Guarantor. Generally, claims of creditors of a subsidiary, including trade creditors, secured creditors, and creditors holding indebtedness and guarantees issued by the subsidiary, will have priority with respect to the assets and earnings of the subsidiary over the claims of creditors of its parent company. In the event of a liquidation, winding-up or dissolution or a bankruptcy, administration, reorganization, insolvency, receivership or similar proceeding of any subsidiary of the relevant Issuer or the Guarantor, such subsidiary will pay the holders of its own debt (including holders of third-party debt which such subsidiaries have guaranteed) before they would be able to distribute any of their assets to the relevant Issuer or the Guarantor. As a result, the relevant Issuer or the Guarantor may not have sufficient assets to make payments on the Notes.

MARKET PRICE RISK

The development of market prices of the Notes depends on various factors, such as changes of market interest rate levels, the policies of central banks, overall economic developments, inflation rates, or the lack of or excess demand for the relevant type of Note. The Noteholders are therefore exposed to the risk of an unfavorable development of market prices of their Notes, which materializes if the Noteholders sell the Notes prior to the final maturity of such Notes. If a Noteholder decides to hold the Notes until final maturity, the Notes will be redeemed at the amount set out in the relevant Final Terms.

INTEREST RATE RISKS FOR FIXED RATE NOTES OR NON-INTEREST BEARING NOTES

Investment in Fixed Rate Notes or in non-interest bearing Notes involves the risk that subsequent changes in market interest rates may adversely affect the value of the Notes. While the nominal interest rate (i.e. the coupon) of the Notes is fixed, the market yield typically changes on a daily basis. As the market yield changes, the price of the Notes changes in the opposite direction. If the market yield increases, the price of the Notes falls. If the market yield falls, the price of the Notes increases.

Noteholders should also be aware that the market yield has two components, namely the risk free rate and the credit spread. The credit spread is reflective of the yield that investors require in addition to the yield on a risk free investment of equal tenor as a compensation for the risks inherent in the Notes. The credit spread changes over time and can decrease as well as increase for many reasons. The market yield of the Notes can change due to changes of the credit spread, the risk free rate, or both.

In addition, Noteholders are exposed to reinvestment risk with respect to proceeds from coupon payments or early redemptions by the Issuer. If the market yield (or market spread respectively) declines, and if Noteholders want to invest such proceeds in comparable transactions, Noteholders will only be able to reinvest such proceeds in comparable transactions at the then prevailing lower market yields (or market spreads respectively).

INTEREST RATE RISKS FOR FLOATING RATE NOTES

A key difference between Floating Rate Notes on the one hand and Fixed Rate Notes or non-interest bearing Notes on the other hand is that interest income on Floating Rate Notes cannot be anticipated. Due to varying interest income, investors are not able to determine a definite yield of Floating Rate Notes at the time they purchase them, so that their return on investment cannot be compared with that of investments having a longer term with fixed or no interest.

Since the Margin, if any, is fixed at issuance of the Floating Rate Notes, Noteholders are subject to the risk that the Margin does not reflect the spread that investors require in addition to the relevant reference interest rate as a compensation for the risks inherent in the Notes ("market spread"). The market spread typically changes on a daily basis. As the market spread changes, the price of the Note changes in the opposite direction. A decrease of the market spread has a positive impact on the price of the Note, an increase of the market spread has a negative impact on the price of the Note. However, the price of the Notes is subject to changes in the market spread, changes in the reference interest rate or both. Noteholders should be aware that movements of the market spread can adversely affect the price of the Notes and can lead to losses for the Noteholders.

In addition, Noteholders are exposed to reinvestment risk with respect to proceeds from interest payments or any early redemptions by the Issuer. If the market yield (or market spread respectively) declines, and if Noteholders want to invest such proceeds in comparable transactions, Noteholders will only be able to reinvest such proceeds in comparable transactions at the then prevailing lower market yields (or market spreads respectively).

LIQUIDITY RISK

Application has been made to the Luxembourg Stock Exchange for Notes issued under this Base Prospectus to be admitted to trading on the regulated market and to be listed on the official list of the Luxembourg Stock Exchange. However, Series of Notes issued under the Programme can also be listed on other stock exchanges or may not be listed at all, as specified in the relevant Final Terms.

Regardless of whether Series of Notes are admitted to trading on a regulated market or not, there is a risk that no liquid secondary market for such Notes will develop or, if it does develop, that it will not continue. The fact that Notes may be admitted to trading on a regulated market (or some other market) does not necessarily lead to better liquidity as compared to unlisted Notes. If Notes are not listed on any exchange, pricing information for such Notes may, however, be more difficult to obtain which may affect the liquidity of the Notes adversely.

The liquidity of a Series of Notes may also be subject to fluctuations during the term of such Notes and may deteriorate, in particular as a result of repurchases by the Issuer or its affiliates (in case of issuance by Allianz SE).

In an illiquid market, an investor is subject to the risk that he will not be able to sell his Notes at any time at fair market prices.

AMENDMENTS TO THE TERMS AND CONDITIONS BY RESOLUTION OF THE NOTEHOLDERS AND APPOINTMENT OF A JOINT REPRESENTATIVE

Since the Terms and Conditions for a Series of Notes may be amended by the relevant Issuer with consent of the relevant Noteholders by way of a majority resolution in a Noteholders' Meeting or by a vote not requiring a physical meeting (*Abstimmung ohne Versammlung*) as described in Sections 5 et seq. of the German Act on Issues of Debt Securities (*Gesetz über Schuldverschreibungen aus Gesamtemissionen*, "SchVG"), the relevant Issuer may subsequently amend the Terms and Conditions with the consent of the majority of Noteholders as described in § 14 of the Terms and Conditions, which amendment will be binding on all Noteholders of the relevant Series of Notes, even on those who voted against the change. As the relevant majority for Noteholders' resolutions is generally based on votes cast, rather than on the aggregate principal amount of the relevant Series of Notes outstanding, any such resolution may technically be passed with the consent of less than a majority of the aggregate principal amount of the relevant Series of Notes outstanding.

Therefore, a Noteholder is subject to the risk of being outvoted by a majority resolution of the Noteholders. As such majority resolution is binding on all Noteholders of a particular Series of Notes, certain rights of such Noteholder against the relevant Issuer under the Terms and Conditions may be amended or reduced or cancelled, even for Noteholders who have declared their claims arising from the Notes due and payable but who have not received payment from the relevant Issuer prior to the amendment taking effect, which may have significant negative effects on the value of the Notes and the return from the Notes.

The Noteholders may by majority resolution provide for the appointment or dismissal of a joint representative. If a joint representative is appointed a Noteholder may be deprived of its individual right to pursue and enforce a part or all of its rights under the Terms and Conditions against the relevant Issuer, such right passing to the Noteholders' joint representative who is then exclusively responsible to claim and enforce the rights of all the Noteholders.

IX. RISKS RELATED TO THE SPECIFIC CONDITIONS OF THE NOTES

RISK OF EARLY REDEMPTION

At the Issuer's option, the Notes may be redeemed prior to the Maturity Date at par plus accrued interest if, as a result of a future change of applicable laws, the Issuer or the Guarantor (as applicable) will be obliged to pay Additional Amounts.

If provided for in any Final Terms for a particular Series of Notes, the Notes may be redeemed prior to the Maturity Date in one or more of the following cases: (i) if, as a result of a future change of applicable laws, interest payable by the Issuer in respect of the Notes or any payment to be made by the Guarantor under the Guarantee (as applicable) is no longer fully deductible by the Issuer or the Guarantor (as applicable) for income tax purposes, or (ii) at the option of the Issuer on any Call Redemption Date, or (iii) in case the nominal amount outstanding is equal to or lower than 25 per cent. of the aggregate principal amount of the Notes of the Series previously issued or (iv) following a Benchmark Event.

If the Notes of any Series are redeemed earlier than expected by a Noteholder, a Noteholder is exposed to the risk that due to the early redemption his investment will have a lower than expected yield. In addition, the Noteholder is exposed to the risk that arises from having to reinvest the cash proceeds of such early redemption earlier than expected. The redemption amount may be lower than the market price prevailing immediately prior to the publication of the call notice by the Issuer. The redemption amount may also be lower than the purchase price for the Notes paid by the Noteholder for the Notes so that the Noteholder in such case would incur a loss.

RISK RELATED TO THE REFORM OF INTEREST RATE "BENCHMARKS" AND POSSIBLE REPLACEMENT OF A BENCHMARK

The interest rates of Floating Rate Notes are linked to the Euro Interbank Offered Rate (EURIBOR). "Benchmarks" such as the EURIBOR (each a "Benchmark" and together, the "Benchmarks") have, in recent years, been the subject of political and regulatory scrutiny as to how they are created and operated. This has resulted in regulatory reform and changes to existing Benchmarks, with further changes anticipated.

International proposals for reform of Benchmarks include in particular the European Council's regulation (EU) 2016/1011 of 8 June 2016 on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds and amending Directives 2008/48/EC and 2014/17/EU and Regulation (EU) No 596/2014 (the "Benchmark Regulation") which is fully applicable since 1 January 2018.

Following the implementation of such reforms, the manner of administration of Benchmarks may change, with the result that they perform differently than in the past, or Benchmarks could be eliminated entirely, or there could be consequences which cannot be predicted. Any changes to a Benchmark as a result of the Benchmark Regulation or other initiatives could have a material adverse effect on the costs of obtaining a Benchmark or the costs and risks of administering or otherwise participating in the setting of a Benchmark and complying with any such regulations or requirements. Such factors may have the effect of discouraging market participants from continuing to administer or participate in certain Benchmarks, trigger changes in the rules or methodologies used in certain Benchmarks or lead to the disappearance of certain Benchmarks.

Investors should be aware that, if a Benchmark were discontinued or otherwise unavailable, the rate of interest on Floating Rate Notes which are linked to or which reference such Benchmark will be determined for the relevant interest period by the fallback provisions applicable to such Notes.

BENCHMARK FALLBACK PROVISIONS

Under the Terms and Conditions of Floating Rate Notes certain benchmark replacement provisions will apply in case a Benchmark used as a reference for calculation of amounts payable under the Notes issued under this Programme were to be discontinued or otherwise unavailable (whereby a material alteration of the methodology used by the administrator on the interest commencement date for the determination of the original benchmark rate will be deemed as discontinuation).

If a Benchmark Event occurs, the relevant Issuer shall endeavor to appoint an Independent Adviser, which must be an independent financial institution of international repute or other independent financial adviser experienced in the international capital markets. Such Independent Adviser will be tasked with determining whether an officially recognized successor rate to the discontinued Benchmark exists. If that is not the case, the Independent Adviser will attempt to find an alternative rate which, possibly after application of adjustments or spreads, can replace the discontinued Benchmark. If the Independent Adviser determines a successor rate or alternative rate (the "New Benchmark Rate"), such rate will replace the previous Benchmark for purposes of determining the relevant rate of interest. Such determination will be binding for the relevant Issuer, if applicable, the Guarantor, the Calculation Agent, the Paying Agents and the Noteholders of such Notes. Any amendments pursuant to these fallback provisions will apply with effect from the effective date specified in the Terms and Conditions.

If (i) the relevant Issuer fails to appoint an Independent Adviser or if (ii) the Independent Adviser fails to determine a New Benchmark Rate prior to the relevant interest determination date, then the Issuer may, using reasonable discretion, determine the New Benchmark Rate in those cases where Issuer determination is provided for by the Final Terms. If the Issuer fails to appoint an Independent Adviser, or where (i) the Independent Adviser (in cases where no Issuer determination is provided for by the Final terms) or (ii) neither the Independent Adviser nor the Issuer (in cases where Issuer determination is provided for by the Final terms) determine a New Benchmark Rate the reference rate applicable to the immediately following interest period shall be the reference rate applicable as at the last preceding interest determination date. Any subsequent interest period may be subject to the subsequent operation of the fallback provisions.

The replacement of a Benchmark could have adverse effects on the economic return of the Noteholders of the relevant Notes compared to the applicable original benchmark rate.

If a Benchmark Event occurs, the Terms and Conditions may provide for an option for the relevant Issuer to call and redeem the affected Notes (in whole but not in part) with effect as of the date fixed for redemption in the notice. Please see "*Risk of early redemption*" above for risks related to such an early redemption.

REDENOMINATION RISK

In the case of any Notes for which the redenomination clause (§ 5(b)) is applicable, the Specified Currency of the Series may be redenominated (in whole but not in part) to the New Currency if the relevant member state of the European Monetary Union identified by the Final Terms redenominates its public debt to a currency other than the Euro (the "New Currency"). An investor could become newly exposed to the exchange rate risks and risk of exchange controls resulting from such redenomination.

DUTCH WITHHOLDING TAX ACT 2021

Dutch withholding tax may apply on certain (deemed) interest due and payable to an affiliated (*gelieerde*) entity of a Dutch Issuer if such entity (i) is considered to be resident of a jurisdiction that is listed in the yearly updated Dutch Regulation on low-taxing states and non-cooperative jurisdictions for tax purposes (*Regeling laagbelastende staten en niet-coöperatieve rechtsgebieden voor belastingdoeleinden*), or (ii) has a permanent establishment located in such jurisdiction to which the interest is attributable, or (iii) is entitled to the interest payable for the main purpose or one of the main purposes to avoid taxation of another person, or (iv) is not considered to be the recipient of the interest in its jurisdiction of residence because such jurisdiction treats another (lower-tier) entity as the recipient of the interest (hybrid mismatch), or (v) is not treated as resident anywhere (also a hybrid mismatch), all within the meaning of the Dutch Withholding Tax Act 2021 (*Wet bronbelasting 2021*).

An entity is generally affiliated within the meaning of the Dutch Withholding Tax Act 2021 if it can directly or indirectly – either alone or as part of a cooperating group – control the decisions made by a Dutch Issuer. A general non-exhaustive example of such control includes a situation in which an entity has more than 50% of the voting rights in a Dutch Issuer. An entity is also affiliated if, broadly speaking, a Dutch Issuer can directly or indirectly – either alone or as part of a cooperating group – control the decisions made by that entity. Lastly, an entity is affiliated to a Dutch Issuer if a third party can directly or indirectly – either alone or as part of a cooperating group – control the decisions of both a Dutch Issuer and the other entity. The withholding tax rate will be 25% in 2021.

In case payments made by Allianz Finance II B.V. or Allianz Finance III B.V. in respect of the Notes are subject to withholding tax pursuant to Dutch Withholding Tax Act 2021, Allianz Finance II B.V. or Allianz Finance III B.V. will not be obliged to pay additional amounts as provided or referred to in Condition 6 "Taxation" of Option I for the Fixed Rate Notes and Condition 6 "Taxation" of Option II for the Floating Rate Notes.

ISSUE PROCEDURES

General

The relevant Issuer and the relevant Dealer(s) will agree on the terms and conditions applicable to each particular Tranche of Notes (the "Conditions"). The Conditions will be constituted by the relevant set of Terms and Conditions of the Notes set forth below (the "Terms and Conditions") as further specified by the Final Terms (the "Final Terms") as described below.

Options for sets of Terms and Conditions

A separate set of Terms and Conditions applies to each type of Notes, as set forth below. The Final Terms provide for the relevant Issuer to choose between the following Options:

- Option I - Terms and Conditions for Fixed Rate Notes and non-interest bearing Notes; and
- Option II - Terms and Conditions for Floating Rate Notes.

Documentation of the Conditions

The relevant Issuer may document the Conditions of an individual issue of Notes in either of the following ways:

- The Final Terms shall be completed as set out therein. The Final Terms shall determine which of the Option I or Option II, including certain further options contained therein, respectively, shall be applicable to the individual issue of Notes by replicating the relevant provisions and completing the relevant placeholders of the relevant set of Terms and Conditions as set out in the Base Prospectus in the Final Terms. The replicated and completed provisions of the set of Terms and Conditions alone shall constitute the Conditions, which will be attached to each global note representing the Notes of the relevant Tranche. This type of documentation of the Conditions will be required where the Notes are publicly offered, in whole or in part, or are to be initially distributed, in whole or in part, to non-qualified investors.
- Alternatively, the Final Terms shall determine which of Option I or Option II and of the respective further options contained in each of Option I and Option II are applicable to the individual issue by referring to the relevant provisions of the relevant set of Terms and Conditions as set out in the Base Prospectus only. The Final Terms will specify that the information contained in Part I of the Final Terms and the relevant set of Terms and Conditions as set out in the Base Prospectus, taken together, shall constitute the Conditions. Each global note representing a particular Tranche of Notes will have the information contained in part I of the Final Terms and the relevant set of Terms and Conditions as set out in the Base Prospectus attached.

Determination of Options / Completion of Placeholders

The Final Terms shall determine which of the Option I or Option II shall be applicable to the individual issue of Notes. Each of the sets of Terms and Conditions of Option I and Option II contains also certain further options (characterized by indicating the respective optional provision through instructions and explanatory notes set out either on the left of or in square brackets within the text of the relevant set of Terms and Conditions as set out in the Base Prospectus) as well as placeholders (characterized by square brackets which include the relevant items) which will be determined by the Final Terms as follows:

DETERMINATION OF OPTIONS

The relevant Issuer will determine which options will be applicable to the individual issue either by replicating the relevant provisions in the Final Terms or by reference of the Final Terms to the respective sections of the relevant set of Terms and Conditions as set out in the Base Prospectus. If the Final Terms do not refer to an alternative or optional provision or such alternative or optional provision is not replicated therein it shall be deemed to be deleted from the Conditions.

COMPLETION OF PLACEHOLDERS

The Final Terms will specify the information with which the placeholders in the relevant set of Terms and Conditions will be completed. In the case the provisions of the Final Terms and the relevant set of Terms and Conditions, taken together, shall constitute the Conditions the relevant set of Terms and Conditions shall be deemed to be completed by the information contained in the Final Terms as if such information were inserted in the placeholders of such provisions.

All instructions and explanatory notes and text set out in square brackets in the relevant set of Terms and Conditions and any footnotes and explanatory text in the Final Terms will be deemed to be deleted from the Conditions.

Controlling Language

As to the controlling language of the respective Conditions, the relevant Issuer may elect to draft the Conditions either in the German language with an English translation, with the German being the controlling language, or in the English language only.

English language version

The Programme terms and conditions of the Notes (the "Terms and Conditions") are set forth below for two options:

Option I comprises the set of Terms and Conditions that apply to Tranches of Notes with fixed interest rates or which are non-interest bearing.

Option II comprises the set of Terms and Conditions that apply to Euro denominated Tranches of Notes with floating interest rates.

The set of Terms and Conditions for each of these Options contains certain further options, which are characterized accordingly by indicating the respective optional provision through instructions and explanatory notes set out either on the right of, or in square brackets within, the set of Terms and Conditions.

In the Final Terms, the relevant Issuer will determine whether Option I or Option II including certain further options contained therein, respectively, shall apply with respect to an individual issue of Notes, either by completing, modifying, supplementing or replacing the relevant provisions or by referring to the relevant options.

To the extent that upon the approval of the Base Prospectus neither of the Issuer nor if applicable the Guarantor had knowledge of certain items which are applicable to an individual issue of Notes, this Base Prospectus contains placeholders set out in square brackets which include the relevant items that will be completed by the Final Terms or alternative or selectable provisions to be deleted.

The provisions of these Terms and Conditions apply to the Notes as completed by the terms of the final terms which are attached hereto (the "Final Terms"). Klarstellend sei erwähnt, dass dies nur gilt, soweit sich nicht aus Sinn und Zweck der jeweiligen Bedingung ergibt, dass die Bezugnahme entweder weiterhin nur auf die Allianz SE erfolgen soll, oder dass die Bezugnahme auf die Neue Emittentin und gleichzeitig auch auf die Allianz SE, im Hinblick auf deren jeweilige steuerliche Ansässigkeit und die Verpflichtungen der Allianz SE aus der Garantie gemäß § 10(a)(iii) erfolgen soll.	(b) <i>References.</i> (i) In the event of a substitution pursuant to § 10(a), any reference in these Conditions to the Issuer shall be a reference to the New Issuer. For the avoidance of doubt this shall apply only to the extent that the meaning and purpose of the relevant condition requires that the relevant reference shall continue to be a reference only to Allianz SE, or that the reference shall be to the New Issuer and Allianz SE, in relation to their respective domicile for tax purposes and to Allianz SE's obligations under the guarantee pursuant to § 10(a)(iii), at the same time.

Im Fall der Emission von Schuldverschreibungen durch Allianz Finance II B.V. bzw. Allianz Finance III B.V. gilt Folgendes:

- (ii) In § 8 gilt ein weiterer Kündigungsgrund als aufgenommen, der dann besteht, wenn die Garantie gemäß § 10(a)(iii) mit rechtskräftiger Entscheidung eines zuständigen Gerichts für nicht vollumfänglich wirksam erklärt wird, oder die Garantin einen Mangel der Wirksamkeit behauptet und dieser Mangel nicht innerhalb von zehn Geschäftstagen behoben wird.

Die Emittentin ist jederzeit berechtigt, ohne Zustimmung der Anleihegläubiger, die Garantin oder eine andere Gesellschaft, die direkt oder indirekt von der Garantin kontrolliert wird, als neue Emittentin für alle sich aus oder im Zusammenhang mit den Schuldverschreibungen ergebenden Verpflichtungen mit schuldbefreiender Wirkung für die Emittentin an die Stelle der Emittentin zu setzen (die "Neue Emittentin"), sofern

- (i) die Neue Emittentin sämtliche Verpflichtungen der Emittentin aus oder im Zusammenhang mit den Schuldverschreibungen übernimmt und, sofern eine Zustellung an die Neue Emittentin außerhalb der Bundesrepublik Deutschland erfolgen müsste, einen Zustellungsbevollmächtigten in der Bundesrepublik Deutschland bestellt;
- (ii) die Neue Emittentin in der Lage ist, sämtliche zur Erfüllung aus oder im Zusammenhang mit den Schuldverschreibungen bestehenden Zahlungsverpflichtungen erforderlichen Beträge in der Festgelegten Währung an das Clearingsystem oder den Fiscal Agent zu zahlen, und zwar ohne Abzug oder Einbehalt von Steuern oder sonstigen Abgaben jedweder Art, die von dem Land (oder den Ländern), in dem (in denen) die Neue Emittentin steuerlich ansässig ist, auferlegt, eingezogen, einbehalten, festgesetzt oder erhoben werden;

The Issuer may at any time, without the consent of the Noteholders, substitute for the Issuer either the Guarantor or any other company which is directly or indirectly controlled by the Guarantor as new issuer (the "New Issuer") in respect of all obligations arising under or in connection with the Notes with the effect of releasing the Issuer of all such obligations, if:

- (i) the New Issuer assumes any and all obligations of the Issuer arising under or in connection with the Notes and, if service of process *vis-à-vis* the New Issuer would have to be effected outside the Federal Republic of Germany, appoints a process agent within the Federal Republic of Germany;
- (ii) the New Issuer is in the position to pay to the Clearing System or the Fiscal Agent in the Specified Currency and without deducting or withholding any taxes or other duties of whatever nature imposed, levied, collected, withheld, assessed or charged by the country (or countries) in which the New Issuer has its domicile for tax purposes all amounts required for the performance of the payment obligations arising from or in connection with the Notes;

(b) <i>References.</i> In the event of a substitution pursuant to § 10(a), any reference in these Conditions to the Issuer shall be a reference to the New Issuer.	
	(c) <i>Mitteilung und Wirksamwerden der Ersetzung.</i> Die Ersetzung der Emittentin ist gemäß § 11 mitzuteilen. Mit der Mitteilung der Ersetzung wird die Ersetzung wirksam und die Emittentin und im Fall einer wiederholten Anwendung dieses § 10 jede frühere Neue Emittentin von ihren sämtlichen Verpflichtungen aus den Schuldverschreibungen frei.	(c) <i>Notice and effectiveness of substitution.</i> Notice of any substitution of the Issuer shall be given by notice in accordance with § 11. Der Begriff "Schuldverschreibungen" umfasst im Fall einer solchen weiteren Begebung auch solche zusätzlich begebenen Schuldverschreibungen.

§ 12 Further Issues

The Issuer reserves the right to issue, from time to time, without the consent of the Noteholders, additional notes with identical terms and conditions as the Notes in all respects (or in all respects except for the date of issue [in the case of Fixed Rate Notes insert: the interest commencement date] and/or the issue price) so as to be consolidated and form a single series with such Notes. § 14 Amendments to the Conditions; Joint
Representative [, Amendments to the
Guarantee]

- (a) *Änderung der Bedingungen.* Die Emitten-
tin kann die Bedingungen mit Zustimmung
aufgrund Mehrheitsbeschlusses der Anlei-
hegläubiger nach Maßgabe der §§ 5 ff.
SchVG ändern. Eine Änderung der Bedin-
gungen ohne Zustimmung der Emittentin
scheidet aus.

- (a) *Amendment of the Conditions.* The Issuer
may amend the Conditions with the con-
sent of a majority resolution of the Note-
holders pursuant to §§ 5 et seq. of the
SchVG. There will be no amendment of the
Conditions without the Issuer's consent.

Die Anleihegläubiger können insbesondere einer Änderung wesentlicher Inhalte der Bedingungen, einschließlich der in § 5 Absatz 3 SchVG vorgesehenen Maßnahmen mit den in dem nachstehenden § 14(b) genannten Mehrheiten zustimmen. Ein ordnungsgemäß gefasster Mehrheitsbeschluss ist für alle Anleihegläubiger verbindlich.

(b) *Mehrheitserfordernisse.* Vorbehaltlich des nachstehenden Satzes und der Erreichung der erforderlichen Beschlussfähigkeit, beschließen die Anleihegläubiger mit der einfachen Mehrheit der an der Abstimmung teilnehmenden Stimmrechte. Beschlüsse, durch welche der wesentliche Inhalt der Bedingungen, insbesondere in den Fällen des § 5 Absatz 3 Nummer 1 bis 9 SchVG, geändert wird, bedürfen zu ihrer Wirksamkeit einer Mehrheit von mindestens 75 % der an der Abstimmung teilnehmenden Stimmrechte (eine "Qualifizierte Mehrheit"). Das Stimmrecht ruht, solange die Schuldverschreibungen der Emittentin oder einem mit ihr verbundenen Unternehmen (§ 271 Absatz 2 HGB) zustehen oder für Rechnung der Emittentin oder eines mit ihr verbundenen Unternehmens gehalten werden.

(c) *Beschlüsse.* Beschlüsse der Anleihegläubiger werden entweder in einer Gläubigerversammlung nach § 14(c)(i) oder im Wege der Abstimmung ohne Versammlung nach § 14(c)(ii) getroffen, die von der Emittentin oder einem gemeinsamen Vertreter einberufen wird.

Mit der Einberufung der Gläubigerversammlung werden in der Tagesordnung die Beschlussgegenstände sowie die Vorschläge zur Beschlussfassung den Anleihegläubigern bekannt gegeben.

In particular, the Noteholders may consent to amendments which materially change the substance of the Conditions, including such measures as provided for under § 5(3) of the SchVG by resolutions passed by such majority of the votes of the Noteholders as stated under § 14(b) below. A duly passed majority resolution will be binding upon all Noteholders.

(b) *Majority requirements.* Except as provided by the following sentence and provided that the quorum requirements are being met, the Noteholders may pass resolutions by simple majority of the voting rights participating in the vote. Resolutions which materially change the substance of the Conditions, in particular in the cases of § 5(3) numbers 1 through 9 of the SchVG, may only be passed by a majority of at least 75 per cent. of the voting rights participating in the vote (a "Qualified Majority"). The voting right is suspended as long as any Notes are attributable to the Issuer or any of its affiliates (within the meaning of § 271(2) of the German Commercial Code (*Handelsgesetzbuch*)) or are being held for the account of the Issuer or any of its affiliates.

(c) *Resolutions.* Resolutions of the Noteholders will be made either in a Noteholders' meeting in accordance with § 14(c)(i) or by means of a vote without a meeting (*Abstimmung ohne Versammlung*) in accordance with § 14(c)(ii), in either case convened by the Issuer or a joint representative, if any.

(i) Resolutions of the Noteholders in a Noteholders' meeting will be made in accordance with § 9 et seq. of the SchVG. The convening notice of a Noteholders' meeting will provide the further details relating to the resolutions and the voting procedure. The subject matter of the vote as well as the proposed resolutions will be notified to Noteholders in the agenda of the meeting.

(ii) Resolutions of the Noteholders by means of a vote not requiring a physical meeting (*Abstimmung ohne Versammlung*) will be made in accordance § 18 of the SchVG. The request for voting as submitted

- (d) *Zweite Versammlung.* Wird die Beschlussfähigkeit bei der Gläubigerversammlung gemäß § 14(c)(i) oder der Abstimmung ohne Versammlung gemäß § 14(c)(ii) nicht festgestellt, kann der Abstimmungsleiter eine zweite Versammlung im Sinne des § 15(3) Satz 3 SchVG einberufen.

- (d) *Second meeting.* If it is ascertained that no quorum exists for the Noteholders' meeting pursuant to § 14(c)(i) or the vote without a meeting pursuant to § 14(c)(ii), the chairman (*Abstimmungsleiter*) may convene a second meeting within the meaning of § 15(3) sentence 3 of the SchVG.

- (e) *Anmeldung.* Die Stimmrechtsausübung ist von einer vorherigen Anmeldung der Anleihegläubiger abhängig. Die Anmeldung muss bis zum dritten Tag vor der Gläubigerversammlung im Falle einer Gläubigerversammlung (wie in § 14(c)(i) oder § 14(d) beschrieben) bzw. vor dem Beginn des Abstimmungszeitraums im Falle einer Abstimmung ohne Versammlung (wie in § 14(c)(ii) beschrieben) unter der in der Aufforderung zur Stimmabgabe angegebenen Anschrift zugehen. Zusammen mit der Anmeldung müssen Anleihegläubiger den Nachweis ihrer Berechtigung zur Teilnahme an der Abstimmung durch eine besondere Bescheinigung ihrer jeweiligen Depotbank in Textform und die Vorlage eines Sperrvermerks der Depotbank erbringen, aus dem hervorgeht, dass die relevanten Schuldverschreibungen für den Zeitraum vom Tag der Absendung der Anmeldung (einschließlich) bis zu dem angegebenen Ende der Versammlung (einschließlich) bzw. dem Ende des Abstimmungszeitraums (einschließlich) nicht übertragen werden können.

- (e) *Registration.* The exercise of voting rights is subject to the registration of the Noteholders. The registration must be received at the address stated in the request for voting no later than the third day prior to the meeting in the case of a Noteholders' meeting (as described in § 14(c)(i) or § 14(d)) or the beginning of the voting period in the case of voting not requiring a physical meeting (as described in § 14(c)(ii)), as the case may be. As part of the registration, Noteholders must demonstrate their eligibility to participate in the vote by means of a special confirmation of their respective depository bank hereof in text form and by submission of a blocking instruction by the depository bank stating that the relevant Notes are not transferable from and including the day such registration has been sent until and including the stated end of the meeting or day the voting period ends, as the case may be.

- (f) *Gemeinsamer Vertreter.* Die Anleihegläubiger können durch Mehrheitsbeschluss die Bestellung und Abberufung eines gemeinsamen Vertreters, die Aufgaben und Befugnisse des gemeinsamen Vertreters und die Übertragung von Rechten der Anleihegläubiger auf den gemeinsamen Vertreter bestimmen. Die Bestellung eines gemeinsamen Vertreters bedarf einer qualifizierten Mehrheit, wenn er ermächtigt wird, wesentlichen Änderungen der Bedingungen gemäß § 14(a) zuzustimmen.

- (f) *Joint representative.* The Noteholders may by majority resolution provide for the appointment or dismissal of a joint representative, the duties and responsibilities and the powers of such joint representative and the transfer of the rights of the Noteholders to the joint representative. Appointment of a joint representative may only be passed by a Qualified Majority if such joint representative is to be authorized to consent to a material change in the substance of the Conditions in accordance with § 14(a) hereof.

	Der gemeinsame Vertreter hat die Aufgaben und Befugnisse, welche ihm durch Gesetz oder von den Anleihegläubigern durch Mehrheitsbeschluss eingeräumt wurden. Er hat die Weisungen der Anleihegläubiger zu befolgen. Soweit er zur Geltendmachung von Rechten der Anleihegläubiger ermächtigt ist, sind die einzelnen Anleihegläubiger zur selbständigen Geltendmachung dieser Rechte nicht befugt, es sei denn der Mehrheitsbeschluss sieht dies ausdrücklich vor. Über seine Tätigkeit hat der gemeinsame Vertreter den Anleihegläubigern zu berichten. Für die Abberufung und die sonstigen Rechte und Pflichten des gemeinsamen Vertreters gelten die Vorschriften des SchVG. Die Haftung des gemeinsamen Vertreters ist auf das Zehnfache seiner jährlichen Vergütung beschränkt, es sei denn, dem gemeinsamen Vertreter fällt Vorsatz oder grobe Fahrlässigkeit zur Last.	The joint representative shall have the duties and powers provided by law or granted by majority resolutions of the Noteholders. The joint representative shall comply with the instructions of the Noteholders. To the extent that the joint representative has been authorized to assert certain rights of the Noteholders, the Noteholders shall not be entitled to assert such rights themselves, unless explicitly provided for in the relevant majority resolution. The joint representative shall provide reports to the Noteholders on its activities. The regulations of the SchVG apply with regard to the recall and the other rights and obligations of the joint representative. Unless the joint representative is liable for willful misconduct (<i>Vorsatz</i>) or gross negligence (<i>grobe Fahrlässigkeit</i>), the joint representative's liability shall be limited to ten times the amount of its annual remuneration.

(c) *Feststellung des Referenzsatzes.*

Die Berechnungsstelle bestimmt an jedem Zinsfestsetzungstag den betreffenden Referenzsatz nach Maßgabe dieses § 3(c).

Der "Referenzsatz" für jede Zinsperiode wird wie folgt bestimmt:

- (i) Für jede Zinsperiode, die vor dem Eintritt des jeweiligen Stichtags (wie in § 3(d)(vii) definiert) beginnt, entspricht der Referenzsatz dem Ursprünglichen Benchmarksatz an dem betreffenden Zinsfestsetzungstag.

Falls der Ursprüngliche Benchmarksatz zu dem betreffenden Zeitpunkt an dem betreffenden Zinsfestsetzungstag nicht auf der Bildschirmseite angezeigt wird, entspricht der Referenzsatz dem Referenzbankensatz an diesem betreffenden Zinsfestsetzungstag.

Falls der Referenzbankensatz nicht gemäß der Definition dieses Begriffs festgestellt werden kann, entspricht der Referenzsatz dem Ursprünglichen Benchmarksatz auf der Bildschirmseite an dem letzten Tag vor dem Zinsfestsetzungstag, an dem dieser Ursprüngliche Benchmarksatz angezeigt wurde.

- (ii) Für die Zinsperiode, die unmittelbar nach dem jeweiligen Stichtag beginnt, und alle folgenden Zinsperioden wird der Referenzsatz gemäß § 3(d) bestimmt.

(c) *Determination of the Reference Rate.*

The Calculation Agent will determine the relevant Reference Rate in accordance with this § 3(c) on each Interest Determination Date.

The "Reference Rate" for each Interest Period will be determined as follows:

- (i) For each Interest Period beginning prior to the occurrence of the relevant Effective Date (as defined in § 3(d)(vii)), the Reference Rate will be equal to the Original Benchmark Rate on the relevant Interest Determination Date.

If the Original Benchmark Rate does not appear on the Screen Page as at such time on the relevant Interest Determination Date, the Reference Rate will be equal to the Reference Bank Rate on that Interest Determination Date.

If the Reference Bank Rate cannot be determined in accordance with the definition of such term, the Reference Rate shall be equal to the Original Benchmark Rate on the Screen Page on the last day preceding the Interest Determination Date on which such Original Benchmark Rate was displayed.

- (ii) For the Interest Period commencing immediately after the relevant Effective Date and all following Interest Periods, the Reference Rate will be determined in accordance with § 3(d).

"Original Benchmark Rate" on any day means (subject to § 3(d)) the [1 / 3 / 6 / 12]-month Euro Interbank Offered Rate (expressed as a percentage rate *per annum*) fixed at, and appearing on the Screen Page as of, 11:00 a.m. (Brussels time) on such day.

"Referenzbankensatz" bezeichnet den (als Prozentsatz *per annum* ausgedrückten) Satz für Einlagen in EUR für die betreffende Zinsperiode und über einen Repräsentativen Betrag (auf Grundlage des Actual/360 Zinstagequotienten), den die Referenzbanken (wie nachstehend definiert) gegenüber führenden Banken im Interbankenmarkt der Euro-Zone um ca. 11:00 Uhr (Brüsseler Ortszeit) an dem betreffenden Zinsfestsetzungstag nennen, und der wie folgt bestimmt wird: Die Emittentin wird jede Referenzbank bitten, der Berechnungsstelle ihren Angebotssatz mitzuteilen. Falls zwei oder mehr Referenzbanken der Berechnungsstelle solche Angebotssätze nennen, ist der Referenzbankensatz für die betreffende Zinsperiode das arithmetische Mittel (falls erforderlich, auf- oder abgerundet auf das nächste tausendstel Prozent, wobei 0,0005 aufgerundet wird) dieser Angebotssätze, wobei alle Feststellungen durch die Berechnungsstelle erfolgen.

Falls an dem betreffenden Zinsfestsetzungstag nur eine oder keine der Referenzbanken der Berechnungsstelle die im vorstehenden Absatz beschriebenen Angebotssätze nennt, ist der Referenzbankensatz für die betreffende Zinsperiode der Satz *per annum*, den die Berechnungsstelle als das arithmetische Mittel (falls erforderlich, auf- oder abgerundet auf das nächste tausendstel Prozent, wobei 0,0005 aufgerundet wird) der Sätze ermittelt, die von der Emittentin ausgewählte Großbanken im Interbankenmarkt der Euro-Zone um ca. 11:00 Uhr (Brüsseler Ortszeit) der Berechnungsstelle auf Bitte der Emittentin als den jeweiligen Satz nennen, zu dem sie an dem betreffenden Zinsfestsetzungstag Darlehen in EUR für die betreffende Zinsperiode und über einen Repräsentativen Betrag gegenüber führenden europäischen Banken anbieten.

If two or more of the Reference Banks provide the Calculation Agent with such offered quotations, the Reference Bank Rate for such Interest Period shall be the arithmetic mean (rounded, if necessary, to the nearest one thousandth of a percentage point, with 0.0005 being rounded upwards) of such offered quotations, all as determined by the Calculation Agent.

If on the relevant Interest Determination Date only one or none of the Reference Banks provides the Calculation Agent with such offered quotations as provided in the preceding paragraph, the Reference Bank Rate for the relevant Interest Period shall be the rate *per annum* which the Calculation Agent determines as being the arithmetic mean (rounded, if necessary, to the nearest one thousandth of a percentage point, with 0.0005 being rounded upwards) of the rates, as communicated at approximately 11:00 a.m. (Brussels time) at the request of the Issuer to the Calculation Agent by major banks in the Euro-Zone interbank market, selected by the Issuer, at which such banks offer, on the relevant Interest Determination Date, loans in EUR for the relevant Interest Period and in a Representative Amount to leading European banks.

Falls ein kurzer oder langer erster Kupon vorliegt und Interpolation anzuwenden ist, gilt Folgendes

Für die erste Zinsperiode legt die Berechnungsstelle den Referenzsatz am Zinsfestsetzungstag in kaufmännisch vernünftiger Weise durch lineare Interpolation zwischen zwei Referenzsätzen fest, von denen (i) der eine Referenzsatz für einen Zeitraum zu bestimmen ist, für den es einen dem Referenzsatz vergleichbaren Referenzsatz gibt und der der Länge der anwendbaren Zinsperiode am nächsten kommt, aber kürzer als diese ist und (ii) der andere Referenzsatz für einen Zeitraum zu bestimmen ist, für den es einen dem Referenzsatz vergleichbaren Referenzsatz gibt und der der Länge der anwendbaren Zinsperiode am nächsten kommt, aber länger als diese ist.

In respect of the first Interest Period, the Reference Rate shall be determined by the Calculation Agent on the Interest Determination Date in a commercially reasonable manner using the straight-line interpolation by reference to two reference rates, (i) one of which shall be determined for a term for which a reference rate similar to the Reference Rate is available and which is next closest to but shorter than the applicable Interest Period and (ii) the other of which shall be determined for a term for which a reference rate similar to the Reference Rate is available and which is next closest to but longer than the applicable Interest Period.

If a short/long first coupon is applicable and interpolation is applicable, the following applies

(ii) <i>Fallback rate</i>. If, prior to the 10th Business Day prior to the relevant <i>Interest Determination Date</i>, (A) the Issuer has not appointed an Independent Adviser; or (B) the Independent Adviser appointed by it has not determined a New Benchmark Rate, has not determined the Adjustment Spread and/or has not determined any Benchmark Amendments (if required) in accordance with this § 3(d), then the Reference Rate applicable to the immediately following Interest Period shall be the Reference Rate determined on the last Interest Determination Date immediately preceding the relevant Effective Date. Each Interest Amount and Interest Payment Date so notified may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) without notice in the event of an extension or shortening of the Interest Period. [PROHIBITION OF SALES TO EEA RETAIL INVESTORS – The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area ("EEA"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive

¹ Include for Notes that are not ESMA complex (in the UK context, as reflected in COBS).

² This list may not be necessary, especially for Notes that are not ESMA complex (in the UK context, as reflected in COBS) where all channels of distribution may be appropriate. It reflects the list used in the examples in the ESMA Guidelines.

³ Include for Notes that are ESMA complex (in the UK context, as reflected in COBS). This list may need to be amended, for example, if advised sales are deemed necessary. If there are advised sales, a determination of suitability will be necessary. In addition, if the Notes constitute "complex" products, pure execution services to retail clients are not permitted without the need to make the determination of appropriateness.

⁴ If the Notes constitute "complex" products, pure execution services are not permitted to retail clients without the need to make the determination of appropriateness. If there are advised sales, a determination of suitability will be necessary.

⁵ Include legend in case UK MiFIR target market assessment in respect of the Notes is "Retail Investor Target Market". The legend may not be necessary if the Dealers in relation to the Notes are also not subject to UK MiFIR and therefore there are no UK MiFIR manufacturers. Depending on the location of the manufacturers, there may be situations where either the MiFID II product governance legend or the UK MiFIR product governance legend or both are included.

⁶ Einfügen für Schuldverschreibungen, die nicht ESMA komplex sind (im britischen Kontext, wie im COBS reflektiert).

⁷ Diese Liste ist möglicherweise nicht notwendig, insbesondere im Fall von Schuldverschreibungen, die nicht ESMA komplex sind (im britischen Kontext, wie im COBS reflektiert), wenn alle Vertriebskanäle angemessen sein können. Sie spiegelt die Liste wider, die in den Beispielen der ESMA-Leitlinien verwendet wird.

⁸ Einfügen im Fall von Schuldverschreibungen, die ESMA komplex sind (im UK Kontext, wie im COBS reflektiert). Diese Liste muss gegebenenfalls angepasst werden, z.B. wenn Anlageberatung für erforderlich gehalten wird. Im Fall der Anlageberatung ist die Bestimmung der Geeignetheit notwendig. Wenn die Schuldverschreibungen "komplexe" Produkte sind, ist außerdem die bloße Ausführung von Kundenaufträgen von Privatanlegern ohne Bestimmung der Angemessenheit nicht zulässig.

⁹ Wenn die Schuldverschreibungen "komplexe" Produkte sind, ist außerdem die bloße Ausführung von Kundenaufträgen von Privatanlegern ohne Bestimmung der Angemessenheit nicht zulässig. Im Fall von Beratungsverkäufen ist eine Geeignetheitsprüfung erforderlich.

¹⁰ Legende einsetzen, wenn UK MiFIR Zielmarktbestimmung im Hinblick auf die Schuldverschreibungen ergeben hat "Zielmarkt Kleinanleger". Die Legende ist möglicherweise nicht erforderlich, wenn die Händler in Bezug auf die Schuldverschreibungen ebenfalls nicht der UK MiFIR unterliegen und es daher keine UK MiFIR-Konzepture gibt. Je nach Standort der Konzepture, kann es Situationen geben, in denen entweder die MiFID II Product Governance Legende oder die UK MiFIR Product Governance Legende oder beide enthalten sind.

Consequently, no key information document required by Regulation (EU) No 1286/2014 (as amended or superseded, the "PRIIPs Regulation") for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.]¹

*[VERBOT DES VERKAUFS AN KLEINANLEGER IM EUROPÄISCHEN WIRTSCHAFTSRAUM – Die Schuldverschreibungen sind nicht zum Angebot, zum Verkauf oder zur sonstigen Zurverfügungstellung an Kleinanleger im Europäischen Wirtschaftsraum ("EWR") bestimmt und sollten Kleinanlegern im EWR nicht angeboten, nicht an diese verkauft und diesen auch nicht in sonstiger Weise zur Verfügung gestellt werden. Für die Zwecke dieser Bestimmung bezeichnet der Begriff Kleinanleger eine Person, die eines (oder mehrere) der folgenden Kriterien erfüllt: (i) sie ist ein Kleinanleger im Sinne von Artikel 4 Abs. 1 Nr. 11 der Richtlinie 2014/65/EU (in ihrer jeweils gültigen Fassung, "MiFID II"); (ii) sie ist ein Kunde im Sinne der Richtlinie 2016/97/EU (in ihrer jeweils gültigen Fassung, die "Versicherungsvertriebsrichtlinie"), soweit dieser Kunde nicht als professioneller Kunde im Sinne von Artikel 4 Abs. 1 Nr. 10 MiFID II gilt; oder (iii) sie ist kein qualifizierter Anleger im Sinne der Verordnung (EU) 2017/1129 des Europäischen Parlaments und des Rates vom 14. Juni 2017 (wie von Zeit zu Zeit ergänzt, die "Prospektverordnung"). Entsprechend wurde kein nach der Verordnung (EU) Nr. 1286/2014 (in ihrer jeweils gültigen oder ersetzten Fassung, die "PRIIPs-Verordnung") erforderliches Basisinformationsblatt für das Angebot oder den Verkauf oder die sonstige Zurverfügungstellung der Schuldverschreibungen an Kleinanleger im EWR erstellt; daher kann das Angebot oder der Verkauf oder die sonstige Zurverfügungstellung der Schuldverschreibungen an Kleinanleger im EWR nach der PRIIPs-Verordnung rechtswidrig sein.]*²

*[PROHIBITION OF SALES TO UK RETAIL INVESTORS – The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the United Kingdom ("UK"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 ("EUWA"); (ii) a customer within the meaning of the provisions of the FSMA and any rules or regulations made under the FSMA to implement Directive (EU) 2016/97, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA; or (iii) not a qualified investor as defined in Article 2 of Regulation (EU) 2017/1129 as it forms part of domestic law by virtue of the EUWA. Consequently no key information document required by Regulation (EU) No 1286/2014 as it forms part of domestic law by virtue of the EUWA (the "UK PRIIPs Regulation") for offering or selling the Notes or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.]*³

*[VERBOT DES VERKAUFS AN KLEINANLEGER IM VEREINIGTEN KÖNIGREICH – Die Schuldverschreibungen sind nicht zum Angebot, zum Verkauf oder zur sonstigen Zurverfügungstellung an Kleinanleger im Vereinigten Königreich ("GB") bestimmt und sollten Kleinanlegern in GB nicht angeboten, nicht an diese verkauft und diesen auch nicht in sonstiger Weise zur Verfügung gestellt werden. Für die Zwecke dieser Bestimmung bezeichnet der Begriff Kleinanleger eine Person, die eines (oder mehrere) der folgenden Kriterien erfüllt: (i) ein Kleinanleger im Sinne von Artikel 2 Punkt (8) der Verordnung (EU) Nr. 2017/565, wie sie aufgrund des European Union (Withdrawal) Act 2018 ("EUWA") Teil des nationalen Rechts ist; oder (ii) ein Kunde im Sinne der Bestimmungen des Financial Services and Markets Act 2000 (der "FSMA") und jeglicher Vorschriften oder Verordnungen, die im Rahmen des FSMA zur Umsetzung der Richtlinie (EU) 2016/97 erlassen wurden, wenn dieser Kunde nicht als professioneller Kunde im Sinne von Artikel 2 Absatz 1 Punkt (8) der Verordnung (EU) Nr. 600/2014, wie sie durch das EUWA Teil des nationalen Rechts ist, qualifiziert wäre; oder (iii) kein qualifizierter Anleger im Sinne von Artikel 2 der Prospektverordnung ist, wie sie aufgrund des EUWA Teil des nationalen Rechts ist. Entsprechend wurde kein nach der Verordnung (EU) Nr. 1286/2014, wie sie aufgrund des EUWA Teil des nationalen Rechts ist (die "UK PRIIPs-Verordnung"), erforderliches Basisinformationsblatt für das Angebot oder den Verkauf oder die sonstige Zurverfügungstellung der Schuldverschreibungen an Kleinanleger in GB erstellt; daher kann das Angebot oder der Verkauf oder die sonstige Zurverfügungstellung der Schuldverschreibungen an Kleinanleger in GB nach der UK PRIIPs-Verordnung rechtswidrig sein.]*⁴

¹ Include legend unless the Final Terms specify "Prohibition of Sales to Retail Investors in the European Economic Area" as "Not Applicable".

² *Legende einzufügen, sofern nicht die Endgültigen Bedingungen das "Verkaufsverbot an Kleinanleger im Europäischen Wirtschaftsraum" für "Nicht anwendbar" erklären.*

³ Include legend unless the Final Terms specify "Prohibition of Sales to Retail Investors in the United Kingdom" as "Not Applicable". The assumption is that if there are potentially sales in the European Economic Area it is likely that there will also potentially be sales in the United Kingdom and vice versa such that the United Kingdom Prohibition and European Economic Area Prohibition would both be included unless turned off.

⁴ *Legende einzufügen, sofern nicht die Endgültigen Bedingungen das "Verkaufsverbot an Kleinanleger im Vereinigten Königreich" für "Nicht anwendbar" erklären. Es wird davon ausgegangen, dass, wenn es potenziell Verkäufe im Europäischen Wirtschaftsraum gibt, es potenziell auch Verkäufe im Vereinigten Königreich gibt und umgekehrt, sodass sowohl das Verkaufsverbot im Vereinigten Königreich als auch das Verkaufsverbot im Europäischen Wirtschaftsraum einzufügen wären, sofern sie nicht unangewendet bleiben.*

[In Verbindung mit Section 309B des Securities and Futures Act (Chapter 289) von Singapur (der "SFA") und den Securities and Futures (Capital Markets Products) Regulations 2018 von Singapur (die "CMP Regulations 2018"), hat die Emittentin festgestellt und benachrichtigt hiermit alle relevanten Personen (wie in Section 309A(1) des SFA definiert), dass es sich bei den Schuldverschreibungen um prescribed capital markets products (wie in den CMP Regulations 2018 definiert) und um Excluded Investment Products (wie in der MAS-Mitteilung SFA 04-N12: Notice on the Sale of Investment Products und der MAS Notice FAA-N16: Notice on Recommendation on Investment Products definiert) handelt.]

CALL FOR REDEMPTION OF SUBORDINATED BONDS

On 18 January 2020, Allianz called for redemption effective 26 March 2021 the USD 1,000,000,000 5.5% Undated Subordinated Notes issued by Allianz SE in 2012 (ISIN: XS0857872500, WKN: A1R0S6, Common Code: 085787250) and effective 3 March 2021 the EUR 800,000,000 5.375% Undated Subordinated Fixed Rate Callable Bonds issued by Allianz Finance II B.V. in 2006 (ISIN: DE000A0GNPZ3, WKN: A0GNPZ, Common Code: 024513742), guaranteed on a subordinated basis by Allianz SE.

ADJUSTMENT OF STRUCTURE OF GERMAN BUSINESS

On 15 March 2021, Allianz announced its intention to adjust its structure in German business in order to leverage the role of the German business lines divisional companies in internationalization and to foster a joint market presence.

In this context, it is intended to strengthen the lines of business by transferring functions and employees from the current German holding company, Allianz Deutschland AG, primarily to the three main insurance companies – Allianz Versicherungs-AG (property and casualty insurance), Allianz Lebensversicherungs-AG (life insurance) and Allianz Private Krankenversicherungs-AG (health insurance) – or to Allianz Beratungs- und Vertriebs-AG (distribution unit), but also to Allianz SE or one of its subsidiaries. To ensure a consistent market presence and customer oversight for the German market, a new market unit will be established. Under the new structure, all employees will remain at Allianz. The contents of their employment contracts and their current place of work will remain unchanged.

The plans are subject to the outcome of the discussions to be held with the relevant employee representative bodies.

RATINGS⁽¹⁾

As of the date of this prospectus, Allianz SE had the following ratings:

	S&P ⁽²⁾	Moody's ⁽³⁾	A.M. Best ⁽⁴⁾
Insurer financial strength	AA	Aa3	A+
Outlook	Stable	Stable	Stable
Counterparty credit	AA	Not rated	aa ⁽⁵⁾
Outlook	Stable		Stable
Senior unsecured debt	AA	Aa3	aa
Outlook	Stable	Stable	Stable

⁽¹⁾ Includes ratings for securities issued by Allianz Finance II B.V. and Allianz Finance III B.V.

⁽²⁾ S&P rating scale for Insurer Financial Strength Ratings consists of the following categories: "AAA", "AA", "A", "BBB", "BB", "B", "CCC", "CC" (in descending order). In addition, a "R" rating is assigned to issuers being under regulatory supervision. Ratings from "AA" to "CCC" may be modified by the addition of a plus (+) or minus (-) sign to show relative standing within the major rating categories.

S&P defines the issued ratings as follows:

"An insurer rated 'AA' has very strong financial security characteristics, differing only slightly from those rated higher."

"An obligor rated 'AA' has very strong capacity to meet its financial commitments. It differs from the highest-rated obligors only to a small degree."

"An obligation rated 'AA' differs from the highest-rated obligations only to a small degree. The obligor's capacity to meet its financial commitment on the obligation is very strong."

"An obligation rated 'A' is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligations in higher-rated categories. However, the obligor's capacity to meet its financial commitment on the obligation is still strong."

"A short-term obligation rated 'A-1' is rated in the highest category by S&P. The obligor's capacity to meet its financial commitment on the obligation is strong. Within this category, certain obligations are designated with a plus sign (+). This indicates that the obligor's capacity to meet its financial commitment on these obligations is extremely strong."

⁽³⁾ Moody's uses nine rating symbols ("Aaa", "Aa", "A", "Baa", "Ba", "B", "Caa", "Ca" and "C"). The symbols range from "Aaa", used to designate least credit risk, to "C", denoting greatest credit risk. In addition Moody's appends numerical modifiers 1, 2 and 3 to each generic rating classification from "Aa" through "Caa". The modifier 1 indicates that the obligation ranks in the higher end of its generic rating category; the modifier 2 indicates a mid-range ranking; and the modifier 3 indicates a ranking in the lower end of that generic rating category.

Moody's defines the issued ratings as follows:

"Insurance companies rated Aa offer excellent financial security. Together with the Aaa group, they constitute what are generally known as high-grade companies. They are rated lower than Aaa companies because long-term risks appear somewhat larger."

"Obligations rated Aa are judged to be of high quality and are subject to very low credit risk."

"Obligations rated A are considered upper-medium grade and are subject to low credit risk."

"Issuers (or supporting institutions) rated Prime-1 have a superior ability to repay short-term debt obligations."

⁽⁴⁾ The rating scale of A.M. Best Financial Strength Rating ranges from "A++", "A+", "A", "A-" to "C-". In addition the scale provides for the ratings "D" (Poor), "E" (Under Regulatory Supervision), "F" (In Liquidation) and "S" (Suspended).

A.M. Best defines the issued ratings as follows:

A+: "Assigned to companies that have, in A.M. Best's opinion, a superior ability to meet their ongoing insurance obligations."

aa: "Assigned to issues where, in A.M. Best's opinion, the issuer has a very strong ability to meet the terms of the obligation."

a: "Assigned to issues where, in A.M. Best's opinion, the issuer has a strong ability to meet the terms of the obligation."

"Ratings from "aa" to "ccc" may be enhanced with "+" (plus) or "-" (minus) to indicate whether credit quality is near the top or bottom of a category."

⁽⁵⁾ Issuer credit rating.

Notes to be issued under the Programme may be rated or unrated. Where an issue of Notes is rated a security rating is not a recommendation to buy, sell or hold securities and may be revised or withdrawn by the rating agency at any time. Any negative change in the credit rating of the Issuer could adversely affect the trading price of the Notes. Investors should consider each rating individually and obtain additional and more detailed understanding of the significance of the respective credit rating information provided by the respective rating agency.

Credit ratings included or referred to in this Base Prospectus have been issued by A.M. Best (EU) Rating Services B.V. ("A.M. Business Overview

PRINCIPAL ACTIVITIES OF THE ALLIANZ GROUP

Allianz SE and its subsidiaries (the Allianz Group) offer property-casualty insurance, life/health insurance, and asset management products and services in over 70 countries, with the largest of its operations located in Europe. The Allianz Group serves more than 100 million private and corporate customers. Allianz SE, the parent company of the Allianz Group, has its headquarters in Munich, Germany.

The Allianz Group's structure reflects both its business segments and geographical regions. Business activities are organized by product and type of service, based on how these are strategically managed: insurance activities, asset management activities, and corporate and other activities. Due to differences in the nature of products, risks, and capital allocation, insurance activities are further divided into two categories property-casualty and life/health. In accordance with the Board of Management's responsibilities, each of the insurance categories is grouped into regional reportable segments. In 2020, the Allianz Group had 11 reportable segments.

Simplified Overview of the Allianz Group Structure

This overview is simplified. It focuses on major operating entities and does not contain all entities of the Allianz Group. Also, it does not show whether a shareholding is direct or indirect. This overview shows the status as of 31 December 2020.

INSURANCE OPERATIONS

Allianz Group offers a wide range of property-casualty and life/health insurance products to both retail and corporate customers. For the Property-Casualty business segment, these include motor, accident, property, general liability, travel insurance and assistance services. The Life/Health business segment offers savings and investment-oriented products in addition to life and health insurance. Allianz Group's key markets (in terms of premiums) are Germany, France, Italy, and the United States.¹

Most of Allianz Group's insurance markets are served by local Allianz companies. However, some business lines – such as Allianz Global Corporate & Specialty (AGCS), Allianz Partners (AP) and Euler Hermes – are run globally.

ASSET MANAGEMENT

Allianz Group's two major investment management entities, PIMCO and AllianzGI, operate under the governance of Allianz Asset Management (AAM). Its offerings cover a wide range of equity, fixed income, cash, and multi-assets products as well as a strongly growing number of alternative investment products, such as infrastructure debt/equity, real assets, liquid alternatives, and solution business. Its core markets are the United States, Canada, Germany, France, Italy, the United Kingdom, and the Asia-Pacific region. As of October 2020, PIMCO officially assumed oversight of Allianz Real Estate and, as a result, Allianz Real Estate was transferred from the Corporate and Other business segment into the Asset Management business segment. The combined entity forms one of the world's largest and most diversified real estate platforms.

CORPORATE AND OTHER

The Corporate and Other business segment's activities include the management and support of the Allianz Group's businesses through its central Holding functions, Banking and Alternative as well as Digital Investments. The Holding functions manage and support the Group's businesses through its strategy, risk, corporate finance, treasury, financial reporting, controlling, communication, legal, human resources, technology, and other functions. Allianz Group's banking operations, which place a primary focus on retail clients, supports its insurance business and complement the products it offers in Italy, France, and Bulgaria. Digital Investments identifies and invests in digital growth companies and provides digital investment management services and an interface between portfolio companies and the Allianz Group.

MATERIAL ADVERSE CHANGE IN THE PROSPECTS OF ALLIANZ SE

Except as disclosed in the section "*Recent events*" above and the section "*Key figures for historical and other financial information*" below, there has been no material adverse change in the prospects of Allianz SE since 31 December 2020.

SIGNIFICANT CHANGE IN THE FINANCIAL PERFORMANCE OF THE ALLIANZ GROUP

Except as disclosed in the section "*Recent events*" above, there has been no significant change in the financial performance of the Allianz Group since 31 December 2020.

INFORMATION ON KNOWN TRENDS, UNCERTAINTIES, DEMANDS, COMMITMENTS OR EVENTS THAT ARE REASONABLY LIKELY TO HAVE A MATERIAL EFFECT ON THE ISSUER'S PROSPECTS FOR 2021

ECONOMIC OUTLOOK

The progress of the global Covid-19 vaccination campaign will be the decisive factor for the economic recovery from the pandemic. After a lack-luster start into 2021 – due to new Covid-19 restrictions in Europe and other parts of the world – a successful vaccination of vulnerable populations (20–40% of the total) should set the stage for moderate growth in the second half of 2021. Main driver of the rebound will be the return of confidence, helping to restart the service economy, to unleash forced and precautionary savings, and to resume corporate investments. All in all, Allianz Group expects global gross domestic product to expand by 4.6% in 2021, with China setting the pace (+8.4%) and the United States and the Eurozone registering more modest growth of 3.6% and 4.3%, respectively.

The downside risks are sizeable. First and foremost, vaccination hurdles on the demand side (vaccination skepticism) as well as the supply side (production and distribution bottlenecks) could easily derail the recovery; in that respect, the slow start to the vaccination rollout in Europe is not promising. Other risks include an unexpected strong bout of inflation, a premature withdrawal of fiscal and monetary support, a spike in insolvencies and social unrest in response to rising inequalities and poverty in the aftermath of the pandemic.

¹ The statement is based on an internal analysis by the Issuer of the available peer data as per Financial Year 2019.

Allianz Group expects policymakers to step up support to limit long-term scarring to the economy and provide a tailwind to the recovery. On the fiscal side, in Europe, safety net measures look set to be extended while in the United States stimulus spending will be stepped up in 2021. Meanwhile, central banks will continue with their bond purchases to ensure favorable refinancing rates to the public and the private sectors, with the U. S. Federal Reserve and European Central Bank maintaining record-low interest rates for the time being.

At the beginning of 2021, equity markets have already consumed most of the optimism story and high valuations provide very little cushion against unexpected bad news. On the other hand, markets for safe assets, i.e., government bonds, embrace a more cautious stance. Allianz Group's baseline scenario assumes a slight increase in yields due to reflationary expectations as the economic recovery unfolds.

INSURANCE INDUSTRY OUTLOOK

The expected economic recovery and heightened risk awareness after the pandemic should give insurance markets some tailwinds in 2021. Premiums are likely to increase in some lines of business. One of the legacies of the pandemic that will shape 2021 (and the following years) is accelerated digitalization: digital processes and distribution channels will continue to become more relevant. Another legacy, less pleasant, are low or even negative interest rates, which have become even more entrenched. Thus, falling investment returns will impact industry profitability in 2021 and beyond.

In the **non-life sector**, premium growth is expected to return to pre-crisis levels, with emerging markets – and particularly China – outperforming advanced markets by a wide margin. Besides the recovery, another supportive factor is the ongoing hard market in commercial lines. On the other hand, investment income will remain under pressure, and in some business lines, claims from Covid-19 are likely to drag on. Social inflation and impacts from natural catastrophes are other factors that could drive claims higher and thus require thorough claims management to preserve underwriting profitability.

In the **life sector**, premium income should largely rebound in 2021. This optimism is based on two observations: the pandemic should have raised the awareness of the need for risk cover, especially for healthcare and life insurance, and the lockdowns have swollen the amount of excess savings, parts of which might be used to bolster old-age provisions. But there are also reasons to be cautious: first and foremost, ultra-low interest rates, which will not only impact profitability but also continue to weigh on the demand for savings-type insurance products.

ASSET MANAGEMENT INDUSTRY OUTLOOK

Monetary easing by central banks across the globe as well as fiscal support by many governments in the context of the Covid-19 pandemic, massively helped capital markets. Market volatility, on the other hand, is very likely to persist and investors are expected to stay alert. Allianz Group therefore expects a volatile and overall moderate capital market contribution to assets under management growth.

The asset management industry benefits from the strong market performance, but nevertheless industry profitability remains under pressure, due to continuous flows into passive products, new pricing models and rising distribution costs. Allianz Group also expects the trend towards industry consolidation to persist, accompanied by a growing cost awareness. Both developments lead to respective restructuring activities within the industry. At the same time, digital channels such as robo-advisory platforms are likely to continue gaining traction. The strengthening of regulatory oversight and reporting could also affect profitability in the asset management sector. Opportunities in the area of active asset management will continue to exist, particularly in alternative and solutions-oriented strategies, but also in the area of ESG (Environment, Social, Governance) investing. Allianz Group expects the Covid-19 pandemic to accelerate the already existing trends within the industry. In order to continue growing, it will remain vital for asset managers to keep sufficient business volumes, ensure efficient operations, and maintain a strong investment performance.

OUTLOOK FOR THE ALLIANZ GROUP

Allianz Group assumes no significant deviations from the following assumptions:

- Expected global economic recovery,
- Interest rates to remain at the current level,
- No major disruptions in the capital markets,
- No disruptive fiscal or regulatory interference,
- Level of claims from natural catastrophes at expected average levels,
- An average U.S. Dollar to Euro exchange rate of 1.17.

In 2020, our total revenues were EUR 140.5 billion, a 1.3 % decrease on a nominal basis, compared to 2019. For 2021, Allianz Group envisages moderate growth, with strong growth in Property-Casualty, moderate growth in Asset Management and Life/Health revenues remaining rather stable.

In its Property-Casualty insurance business, Allianz Group expects its revenues to increase by up to 6 % in 2021 (2020: 0.4 %), assuming a fast recovery from the Covid-19 pandemic, of which 1 % will come from its acquisition in Spain. Organic growth will be supported by favorable price and volume effects. Allianz Group expects revenue growth at Allianz Partners where Allianz Group has pooled its B2B2C activities. Allianz Group expects growth to pick up here in the second half of the year, depending on further developments of the Covid-19 pandemic. Further growth is

likely to happen in Germany and Ireland as well as in Asian markets such as China. Allianz Group believes that the overall rise in prices that it saw in a number of markets in the past year will continue in 2021. Nevertheless, Allianz Group will adhere to its strict underwriting discipline, as it has in previous years, and Allianz Group will be prepared to accept a lower top line if it fails to achieve target margins. As the low-interest-rate environment is likely to stay, investment income will remain under pressure due to the rather short investment spans in our Property-Casualty business segment. Going forward, Allianz Group will continue to actively adapt its investment strategy to changing market conditions.

In its Life/Health insurance business, Allianz Group continuously works to make its business model more resilient to market volatility, for instance, by adjusting its products to market needs while keeping in line with our strategy. Going forward, Allianz Group will continue to improve its capital-efficient products – always with a particular focus on the customer – while exploring new market opportunities and building on its strong track record of product innovation. In addition, Allianz Group will continue to actively manage both its new and its in-force business through continuous price reviews, expense management, asset/liability management, crediting strategies and reinsurance solutions. As in the past years, this should allow Allianz Group to mitigate the impacts of difficult market conditions, in particular negative interest rates.

In the Asset Management segment, Allianz Group envisages for 2021 overall moderate third-party net inflows and market returns at both PIMCO and AllianzGI, with relatively stable margins and stable performance fees, resulting in modest growth in operating revenues. Allianz Group also assumes the U.S. Dollar to remain relatively stable compared to 2020.

Allianz Group's Corporate and Other segment is also affected by the development of the capital markets due to a lower expected investment result.

Except as disclosed in the sections "*Risk Factors*" and "*Recent events*" above and in this section "*Outlook for 2021*", Allianz Group has no information on trends, uncertainties, demands, commitments or events that are reasonably likely to have a material effect on the prospects of Allianz Group for the current financial year. The Covid-19 pandemic continues to have a significant impact on individuals, society, business and the wider economy across the globe.

The net income attributable to shareholders is adjusted for net financial charges related to undated subordinated bonds classified as shareholders' equity. From the average shareholders' equity undated subordinated bonds classified as shareholders' equity and unrealized gains/losses on bonds net of shadow accounting are excluded.

SOLVENCY AND REGULATORY CAPITAL

REGULATORY BACKGROUND

The Solvency II framework imposes prudential requirements at the Allianz Group level as well on the individual European Economic Area (EEA) based insurance and reinsurance companies in the Allianz Group. Insurance supervision is exercised by national supervisors on the individual insurance and reinsurance companies of the Allianz Group and by the Allianz Group supervisor, which is BaFin, at the Allianz Group level. The Solvency II rules that came into force on January 1, 2016 introduced economic, risk-based capital requirements for insurance and reinsurance companies in all EEA member states, as well as for groups with insurance and/or reinsurance activities in the EEA. While the previous solvency directives concentrated mainly on the liabilities side (i.e., insurance risks) and included a relatively simple solvency formula based on technical provisions and insurance premiums, Solvency II introduced more comprehensive solvency requirements, taking the asset-side risks into account more extensively, but also provides more detailed rules regarding governance, risk management, risk assessment and risks associated with the

other entities within the Allianz Group. Solvency II is a holistic regulatory framework where the insurers' material risks and their interactions are considered.

In particular, the Solvency II framework is structured along three pillars. Pillar 1 comprises quantitative requirements (including rules regarding the valuation of assets and liabilities such as technical provisions, risk capital requirements and own fund requirements). Pillar 2 requirements include governance and risk management requirements. Pillar 3 consists of disclosure and supervisory reporting requirements, including the annual publication of a Solvency and Financial Condition Report (SFCR). Portions of the Allianz Group's 2019 SFCR Report are incorporated by reference into this Prospectus. These three pillars should not only be considered in isolation, but also in terms of how they interact with one another. More complex risks, for instance, require a stronger risk management and governance structure and may lead to higher capital requirements. In addition to these requirements, which apply to individual EEA insurers and reinsurers, the Solvency II framework is complemented by requirements that apply at group level (group supervision). This means that a number of requirements from the Solvency II framework that apply to the individual EEA insurance and reinsurance undertakings apply, with necessary modifications, at group level.

PILLAR 1 REQUIREMENTS

Solvency II requires EEA insurance and reinsurance companies to determine technical provisions at a value that corresponds with the present exit value of their insurance and reinsurance obligations towards policyholders and other beneficiaries of insurance and reinsurance contracts. The calculation of technical provisions should be based on market consistent information to the extent to which that information is available.

The value of the technical provisions is equal to the sum of a best estimate of the value of the insurance contracts and a risk margin which is reflective of the cost of capital a third-party buyer would expect to earn if it wanted to acquire the portfolio upon an exit by us. The discount rate at which technical provisions are calculated is an important element in order to determine the technical provisions. This and other parameters to determine the technical provisions may have an important effect on the amount and volatility of the own funds that insurance and reinsurance undertakings are required to maintain. The Solvency II framework contains several measures (in particular the volatility adjustment and matching adjustment) that should reduce the volatility of the own funds that is due solely to credit spread movements.

Insurers and reinsurers are required to hold a sufficient amount of "eligible own funds" to cover losses in an adverse scenario. The amount of eligible own funds that insurance and reinsurance companies are required to hold is the Solvency Capital Requirement (SCR) which is calibrated to a confidence level of 99.5% (reflecting the ability of insurance or reinsurance companies to withstand a 1-in-200-year event) and a "holding period" of one year. Insurance and reinsurance companies are allowed to: (a) use a standard formula to calculate their SCR (the rules for which are set out in detail in the Solvency II rules and guidelines); (b) use an internal model (for which the approval of the supervisory authorities is required); or (c) use a partial internal model (which is a combination of the standard formula being applied to some group entities, and an internal model to other group entities). An internal model has been developed by Allianz Group to better reflect the actual risk profile than the standard formula. The Allianz Group had determined its regulatory capital requirements on the basis of a partial internal model since January 1, 2016.¹

In addition to the SCR, insurance and reinsurance companies should also calculate a Minimum Capital Requirement (MCR). This represents a lower level of financial security than the SCR, below which the level of eligible own funds held by the insurance or reinsurance company is not allowed to drop. An irreparable or prolonged breach of the MCR would lead to a withdrawal of an insurance or reinsurance company's license. Insurance and reinsurance companies are required to hold eligible own funds against the SCR and the MCR.

For purposes of the Group, the Group SCR substantially consists of the sum of capital requirements (including diversification effects where applicable) from (a) entities applying either internal or standard models in accordance with Solvency II, (b) entities regulated under insurance regulation regimes that are deemed equivalent to Solvency II (to the extent they are not included in the Group based on an internal or the standard model), and (c) entities regulated otherwise (including banks, asset managers, and IORPs). Immaterial non-EEA (re)insurance entities are considered via book value deduction (Art. 229 Directive 2009/138/EC) and neither contribute to the Group SCR nor to Group own funds. The Group SCR is also often referred to as the Group's Solvency II capital requirement in the external communication of Allianz Group.

The Group MCR represents the minimum consolidated group solvency capital requirement applicable to the Allianz Group, which is calculated as the sum of the Solo MCR of all entities in the group included via an internal or standard model. The scope of the Group for purposes of the Group MCR is limited to entities applying either internal or standard models in accordance with Solvency II. Group entities that are (a) regulated under insurance regulation regimes that are deemed equivalent to Solvency II, and (b) financial institutions regulated otherwise (including banks, asset managers, and IORPs) are outside the scope of the Group MCR Ratio (no contribution to the Group MCR, no contribution to own fund items eligible to cover the Group MCR). See footnote 4 regarding the table of historical solvency ratios of Allianz SE and Allianz Group in the section "Description of Allianz SE and Allianz Group—Solvency and Regulatory Capital—Application of transitional measures on technical provisions in the calculation of Solvency and Minimum Capital Requirement ratios of Allianz SE and the Allianz Group" below.

¹ From a formal perspective, the German Supervisory Authority deems Allianz Group's model to be partial because it does not cover all of Allianz Group's operations: some of Allianz Group's smaller operations report under the standard model and others under the deduction and aggregation method.

Own funds capital is derived from the market value balance sheet ("MVBS") in line with the provisions of Solvency II, and is divided into three tiers in accordance with the quality of the own funds. Tier 1 capital, such as common equity and retained earnings (which are represented as one of the components of the so-called "reconciliation reserve" in the MVBS), is the highest quality of capital and must be able to absorb losses on a day-to-day, 'going-concern' basis. Tier 1 capital may be restricted (i.e., subject to a regulatory maximum limit) or unrestricted (i.e., not subject to a regulatory maximum limit). Tier 2 capital is of a lower quality and is available to absorb losses on insolvency. Tier 3 capital is the lowest quality of capital permitted and has only limited loss-absorbing capacity.

The Allianz Group's and Allianz SE's tiers of own funds comprise:

- Unrestricted Tier 1 ("UT1") capital: UT1 capital consists primarily of share capital and the share premium account, surplus funds as well as the reconciliation reserve, minus related deductions. The reconciliation reserve represents the excess of assets over liabilities derived from the MVBS, reduced by mainly share capital, share premium account, surplus funds, net deferred tax assets, and deductions for own shares as well as foreseeable dividends and distributions.
- Restricted Tier 1 ("RT1") capital: RT1 capital corresponds to perpetual subordinated liabilities issued by the Allianz Group that meet certain requirements or that benefit from grandfathered treatment under Solvency II. The Issuer expects the Notes to qualify as RT1 capital eligible to cover the regulatory capital requirements applicable to the Issuer and the Allianz Group.
- Tier 2 ("T2") capital: T2 capital corresponds to subordinated liabilities of the Allianz Group that meet certain requirements but do not qualify as RT1.
- Tier 3 ("T3") capital: T3 capital relates mainly to the available part of net deferred tax assets.

For compliance with the Group SCR and Solo SCR rules, the following quantitative limits apply: (a) the eligible amount of Tier 1 items must be at least one half of the SCR; (b) the eligible amount of RT1 is limited to 20% of Tier 1 capital; (c) the eligible amount of Tier 3 items is limited to 15% of the SCR; and (d) the sum of the eligible amounts of Tier 2 and Tier 3 items is limited to 50% of the SCR.

For compliance with the Group MCR and Solo MCR rules, the following quantitative limits apply: (a) the eligible amount of Tier 1 items must be at least 80% of the MCR; (b) the eligible amount of RT1 is limited to 20% of Tier 1 capital; and (c) the eligible amount of Tier 2 items is limited to 20% of the MCR. Tier 3 items are not eligible to cover the MCR.

APPLICATION OF TRANSITIONAL MEASURES ON TECHNICAL PROVISIONS IN THE CALCULATION OF SOLVENCY AND MINIMUM CAPITAL REQUIREMENT RATIOS OF ALLIANZ SE AND THE ALLIANZ GROUP

Solvency II contemplates transitional measures to allow EEA entities to gradually move to a full implementation of Solvency II over a period of time. However, in connection with its ongoing 2020 review of the Solvency II Directive, the European Insurance and Occupational Pensions Authority ("EIOPA") recommended that insurers should only be allowed to start applying such transitional measures to technical provisions in very limited cases. The Issuer had previously treated the ability to apply for such transitional measures as one of its potential recovery tools as part of its recovery plan. Accordingly, in order to avoid losing the ability to avail itself of such transitional measures, the Issuer caused two of its subsidiaries (Allianz Leben and Allianz Private Krankenversicherung) to apply for transitional measures for their technical provisions, and BaFin granted its approval in June 2020.

The application of transitional measures on technical provisions reduces the Solvency II MVBS value of technical provisions. The reduction is, in principle, calculated based on the difference between the value of technical provisions under the prior regulatory regime (known as "Solvency I") and their value under the current Solvency II regime, as per January 1, 2016. The reduction of technical provisions increases the excess of assets over liabilities (MVBS) of Allianz Group, which in turn leads to an increase of the own funds of Allianz Group (net of potential deferred tax). In addition, the Group SCR and Group MCR capital requirements and other items of group own funds can also be impacted. As a result, as of December 31, 2020, the eligible own funds of Allianz Group increased by EUR 13.6 billion due to the application of transitional measures on technical provisions, and the Allianz Group SCR ratio increased by 33 percentage points from 207% to 240%. The Group MCR ratio increased by 40 percentage points from 257% to 296%.

The increase of the excess of assets over liabilities of Allianz Leben and Allianz Private Krankenversicherung also impact the value of Allianz SE's equity participations and thus of total assets in the MVBS of Allianz SE on an individual basis (known as the "Solo MVBS"). As a consequence, the transitional measures on technical provisions applied by its two subsidiaries also increase the excess of assets over liabilities (MVBS) of Allianz SE, which in turn leads to an increase of the solo own funds of Allianz SE (net of potential deferred tax). The higher equity participation values also have a meaningful impact on the Solo SCR and Solo MCR capital requirements of Allianz SE. As a result, as of December 31, 2020, the eligible solo own funds of Allianz SE increased by EUR 13.6 billion due to the application of transitional measures on technical provisions, whereas the Allianz Solo SCR and Solo MCR increased by EUR 4.5 billion and EUR 1.1 billion respectively. The Solo SCR ratio increased by 5 percentage points from 257% to 262%. The Solo MCR increased by 35 percentage points from 948% to 913%.

The effect of the application of transitional measures on technical provisions decreases over time until January 1, 2032, when such measures will cease to have an effect on the MVBS of either the Group or the Issuer (solo). The base amount by which technical provisions can be reduced, and by which the excess of assets over liabilities (MVBS) is increased, is calculated based on a portion of the difference between the value of technical provisions under Solvency I and that under the current Solvency II regime, as per January 1, 2016. The maximum deductible portion of this base

amount decreases linearly from 100% during the year starting from January 1, 2016 to zero on January 1, 2032. The BaFin can request a recalculation of the benefit from transitional measures on technical provisions every 24 months, or more frequently where the risk profile of the relevant undertakings has materially changed. Such a recalculation may result in a faster reduction of the deductible amount, and hence lower solvency ratios, than is the case under the current calculation methodology.

In addition, in connection with its ongoing 2020 review of the Solvency II Directive, EIOPA has also recommended that it should be clarified that benefits from transitional measures on technical provisions are to be assumed at group level as non-available own funds. If this recommendation would be taken up in the further review procedure, the effect of the transitional measures on eligible own funds of the Group for purposes of the Group SCR Ratio and the Group MCR Ratio would be largely reduced or even nil.

The Allianz Group's approach to capital steering will continue to be based on the previous approach, which excludes the application of transitional measures for technical provisions. For example, the 180% (or greater) target for Allianz Group's SCR Ratio refers to the Group SCR ratio excluding the effect of such transitionals. However, all solvency ratios applicable to the Notes (Group SCR Ratio, Group MCR Ratio, Solo SCR Ratio, Solo MCR Ratio), in particular all solvency ratios which are used to determine whether a Trigger Event or a Deterioration Event has occurred, will take into account the effects from applying the transitional measures for technical provisions as approved by BaFin.

The following table illustrates the solvency capitalization ratios and the minimum capital requirement ratios of the Issuer and the Allianz Group, as applicable, both including and excluding the effect of transitionals, as of December 31, 2020. In addition, the table below illustrates the solvency capitalization ratios and the minimum capital requirement ratios of the Issuer and the Allianz Group, as applicable, excluding the effect of transitionals, as of December 31, 2020 and 2019.

	As of December 31,		
	2020	2020	2019
	(including transitio- nals)	(excluding transitio- nals)	(excluding transitio- nals)
Solo SCR Ratio ¹	262%	257%	242%
Group SCR Ratio ²	240%	207%	212%
Solo MCR Ratio ³	948%	913%	869%
Group MCR Ratio ⁴	296%	257%	261%

¹ The Solo SCR ratio is calculated by dividing (i) the amount of own-fund items of the Issuer (i.e., on an individual, not on a consolidated, basis) eligible to cover the Solo SCR by (ii) the Solo SCR. The Solo SCR represents the solvency capital requirement applicable to the Issuer (i.e., on an individual, not on a consolidated, basis). For the purpose of determining the "Solo SCR Ratio" applicable to the Notes, the Solo SCR Ratio will include transitional measures under the Applicable Supervisory Requirements.

² The Group SCR ratio is calculated by dividing (i) the amount of own-fund items of the Allianz Group eligible to cover the Group SCR by (ii) the Group SCR. The Group SCR represents the Solvency II capital requirement of the Group (or Group SCR) substantially consisting of the capital requirements from (a) entities applying either internal or standard models in accordance with Solvency II, (b) entities regulated under insurance regulation regimes that are deemed equivalent to Solvency II (to the extent they are not included in the Group based on an internal or the standard model), and (c) entities regulated otherwise (including banks, asset managers, and IORPs). Immaterial non-EEA (re)insurance entities are considered via book value deduction (Art. 229 Directive 2009/138/EC). For the purposes of determining the "Group SCR Ratio" applicable to the Notes, Group SCR Ratio will include transitional measures under the Applicable Supervisory Requirements.

³ The Solo MCR ratio is calculated by dividing (i) the amount of own-fund items of the Issuer (i.e., on an individual, not on a consolidated, basis) eligible to cover the Solo MCR by (ii) the Solo MCR. The Solo MCR represents the minimum capital requirement applicable to the Issuer (i.e., on an individual, not on a consolidated, basis). For the purpose of determining the "Solo MCR Ratio" applicable to the Notes, the Solo MCR Ratio will include transitional measures under the Applicable Supervisory Requirements.

⁴ The Group MCR ratio is calculated by dividing (i) the amount of own-fund items of the Allianz Group eligible to cover the Group MCR by (ii) the Group MCR. The Group MCR represents the minimum consolidated group solvency capital requirement applicable to the Allianz Group. The scope of the Group for purposes of the Group MCR ratio is limited to entities applying either internal or standard models in accordance with Solvency II. Group entities that are (a) regulated under insurance regulation regimes that are deemed equivalent to Solvency II, and (b) financial institutions regulated otherwise (including banks, asset managers, and IORPs) are outside the scope of the Group MCR ratio (no

contribution to the Group MCR, no contribution to own fund items eligible to cover the Group MCR). For the purpose of determining the "Group MCR Ratio" applicable to the Notes, the Group MCR Ratio will include transitional measures under the Applicable Supervisory Requirements.

LEGAL AND ARBITRATION PROCEEDINGS

Allianz Group companies are involved in legal, regulatory, and arbitration proceedings in Germany and a number of foreign jurisdictions, including the United States. Such proceedings arise in the ordinary course of business, including, amongst others, their activities as insurance, banking and asset management companies, employers, investors and taxpayers. While it is not feasible to predict or determine the ultimate outcome of such proceedings, they may result in substantial damages or other payments or penalties or result in adverse publicity and damage to the Allianz Group's reputation. As a result, such proceedings could have an adverse effect on the Allianz Group's business, financial condition and results of operations. Apart from the proceedings discussed below, Allianz SE is not aware of any threatened or pending legal, regulatory or arbitration proceedings nor were there any such proceedings, during a period covering the twelve months preceding the date of this prospectus, which may have, or have had in the recent past, significant effects on its and/or the Allianz Group's financial position or profitability. Material proceedings in which Allianz Group companies have been involved during the past twelve months are in particular the following:

In September 2015 and in January 2017, two separate putative class action complaints were filed against Allianz Life Insurance Company of North America ("Allianz Life") making allegations similar to those made in prior class actions regarding the sale of Allianz Life's annuity products, including allegations of breach of contract and violation of California unfair competition law. In one matter, the Court denied class certification. The case, which continued as an individual action, was settled between the parties with no effect on Allianz Group's financial position. The ultimate outcome of the remaining case cannot yet be determined.

Since July 2020, multiple complaints have been filed in the U.S. Federal Court for the Southern District of New York (the "S.D.N.Y."), and also in certain U.S. State Courts against Allianz Global Investors U.S. LLC ("AllianzGI U.S. LLC") and in certain complaints, against certain of AllianzGI U.S. LLC's affiliates, including Allianz SE and Allianz Asset Management GmbH ("Affiliate Allianz Defendants"), in connection with losses suffered by investors in AllianzGI U.S. LLC's Structured Alpha funds ("Funds") during the Covid-19 related market downturn. The actions brought to date have included institutional investor plaintiffs and individual plaintiffs with certain plaintiffs asserting claims on behalf of putative classes. An investment consultant has also asserted third-party claims against AllianzGI U.S. LLC. Plaintiffs in the pending actions have alleged losses of several billion dollars. In exchange for a tolling agreement, plaintiffs in the actions filed in the S.D.N.Y. have agreed to voluntarily dismiss claims against the Affiliate Allianz Defendants. In addition to the complaints filed to date, other investors in the Funds, or other third parties, may bring similar actions. Allianz intends to defend vigorously against the allegations contained in the complaints. AllianzGI U.S. LLC has also received information requests from the U.S. Securities and Exchange Commission ("SEC") regarding an SEC investigation of the Funds, and is fully cooperating with the SEC's investigation. The ultimate outcome of the court proceedings as well as the SEC investigation cannot yet be determined.

Alternative Performance Measures

The Allianz Group uses, throughout its financial publications, alternative performance measures (APMs) in addition to the figures which are prepared in accordance with the International Financial Reporting Standards (IFRS), as adopted by the European Union. We believe that these measures provide useful information to investors and enhance the understanding of our results. These financial measures are designed to measure performance, growth, profit generation and capital efficiency.

The APMs should be viewed as complementary to, rather than a substitute for, the figures determined according to IFRS.

The Allianz Group uses the following major alternative performance measures:

- Total revenues
- Operating profit
- Return on equity
- Combined ratio
- New business margin
- Cost-income ratio

Investors should consider that similarly titled APMs reported by other companies may be calculated differently. For that reason, the comparability of APMs across companies might be limited.

In accordance with the guidelines of the European Securities and Markets Authority (ESMA), the following information is given in regards to the above mentioned alternative performance measures:

- Definition of the APMs, their use and limitations on the usefulness: section "*Definitions, use and limitations*" below.
- Reconciliation of the APMs to the most directly reconcilable line item, subtotal or total presented in the financial statements: sections "*Reconciliations as of 31 December 2019 and 31 December 2020 (Audited)*" below.

Definitions, use and limitations

TOTAL REVENUES

DEFINITION AND USEFULNESS

Total revenues are the "top line" figure from which costs and expenses are subtracted to determine operating profit and net income. According to our business segments, total revenues in the Allianz Group comprise total revenues in Property-Casualty, statutory premiums in Life/Health, operating revenues in Asset Management and total revenues in Corporate and Other (Banking).

$$\begin{aligned} \text{Total revenues}_{\text{Allianz Group}} &= \text{Total revenues}_{\text{Property-Casualty}} \\ &+ \text{Statutory premiums}_{\text{Life/Health}} \\ &+ \text{Operating revenues}_{\text{Asset Management}} \\ &+ \text{Total revenues}_{\text{Corporate and Other (Banking)}} \end{aligned}$$

We consider total revenues as a key performance indicator and believe that it is useful and meaningful to our external audience because it is an important financial measure for the performance and growth of the Allianz Group during a specific time period.

LIMITATIONS ON THE USEFULNESS

Total revenues do not provide any information as to the profitability of the Allianz Group. Therefore, total revenues should always be viewed in conjunction with e.g. operating profit or net income.

Furthermore, total revenues are subject to fluctuations which do not derive from the performance of the Allianz Group. These fluctuations result from effects of price changes, foreign currency translation as well as acquisitions, disposals and transfers. Accordingly, in addition to presenting nominal total revenue growth, we also present internal growth, which excludes some of these effects.

OPERATING PROFIT (OP)

DEFINITION AND USEFULNESS

The Allianz Group uses operating profit to evaluate the performance of its reportable segments as well as of the Allianz Group as a whole. Operating profit highlights the portion of income before income taxes that is attributable to the ongoing core operations of the Allianz Group.

The Allianz Group considers the presentation of operating profit to be useful and meaningful to investors because it enhances the understanding of the Allianz Group's underlying operating performance and the comparability of its operating performance over time.

Operating profit is used as one of the decision metrics by Allianz Group's management.

To better understand the ongoing operations of the business, the Allianz Group generally excludes the following non-operating effects:

- income from financial assets and liabilities carried at fair value through income (net),
- realized gains and losses (net) and impairments of investments (net),
- interest expenses from external debt,
- acquisition-related expenses (from business combinations),
- amortization of intangible assets,
- restructuring and integration expenses,
- profit (loss) of substantial subsidiaries classified as held for sale.

The following exceptions apply to this general rule:

- In all reportable segments, income from financial assets and liabilities carried at fair value through income (net) is treated as operating profit if the income relates to operating business.
- For life/health insurance business and property-casualty insurance products with premium refunds, all items listed above are included in operating profit if the profit sources are shared with policyholders. There is one exception from this general rule with regard to policyholder participation in extraordinary tax benefits and expenses. As IFRS require that the consolidated income statements present all tax benefits in the income taxes line item, even when they belong to policyholders, the corresponding expenses for premium refunds are shown as non-operating as well.

Operating profit should be viewed as complementary to, and not as a substitute for, income before income taxes or net income as determined in accordance with IFRS.

LIMITATIONS ON THE USEFULNESS

Operating profit is subject to fluctuations which do not derive from the performance of the Allianz Group such as changes in foreign currency rates or acquisitions, disposals and transfers between reportable segments.

RETURN ON EQUITY (ROE)

DEFINITION AND USEFULNESS

For the Allianz Group, return on equity represents the ratio of net income attributable to shareholders to the average shareholders' equity at the beginning of the period and at the end of the period.

In 2020, the Allianz Group issued undated subordinated bonds which qualify as equity under IFRS. For the RoE calculation, the undated subordinated bonds are treated as subordinated liabilities. To achieve this, the value of these undated subordinated bonds is deducted from shareholders' equity. Net income attributable to shareholders is also adjusted to reflect the net financial charges related to undated subordinated bonds classified as shareholders' equity. These charges are recorded through shareholders' equity under IFRS.

Unrealized gains/losses on bonds net of shadow accounting are excluded from the average shareholders' equity.

$$\text{RoE}_{\text{AZ Group}} = \frac{\text{Net income attributable to shareholders}^1}{(\text{Shareholders' equity}^2 \text{ beginning of period} + \text{Shareholders' equity}^2 \text{ end of period})/2}$$

1_ Net income attributable to shareholders adjusted for net financial charges related to undated subordinated bonds classified as shareholders' equity.

2_ Shareholders' equity excluding undated subordinated bonds classified as shareholders' equity and excluding unrealized gains/losses on bonds net of shadow accounting.

LIMITATIONS ON THE USEFULNESS

The RoE of the Allianz Group or the Life/Health segment include items which are not indicative of management performance. Furthermore, RoE is not available at Line of Business or product level.

The performance indicator RoE is inherently limited by the fact that it represents a ratio and thus does not provide any information as to the absolute amount of net income or shareholders' equity excluding undated subordinated bonds classified as shareholders' equity and excluding unrealized gains/losses on bonds net of shadow accounting.

COMBINED RATIO (CR)

DEFINITION AND USEFULNESS

The Allianz Group uses the combined ratio as a measure of underwriting profitability in the Property-Casualty segment. The combined ratio represents the total of acquisition and administrative expenses (net) and claims and insurance benefits incurred (net) divided by premiums earned (net).

$$\text{CR}_{\text{PC Segment}} = \frac{\text{Acq. and admin. expenses (net)}^1 + \text{Claims and ins. benefits inc. (net)}^1}{\text{Premiums earned (net)}^1}$$

1_ In insurance terminology the term "net" means after reinsurance ceded.

The combined ratio is typically expressed as a percentage. A ratio of below 100% indicates that the underwriting result is profitable, whereas a ratio of above 100% indicates an underwriting loss.

The combined ratio can be further broken down into the loss ratio and the expense ratio. The loss ratio represents claims and insurance benefits incurred (net) divided by premiums earned (net), and thus expresses the percentage of net earned premiums used to settle claims.

$$\text{Loss Ratio}_{\text{PC Segment}} = \frac{\text{Claims and ins. benefits inc. (net)}}{\text{Premiums earned (net)}}$$

The expense ratio represents acquisition and administrative expenses (net) divided by premiums earned (net). It expresses the percentage of net earned premiums used to cover underwriting expenses for the acquisition of new or renewal business and for administrative expenses.

$$\text{Expense Ratio}_{\text{PC Segment}} = \frac{\text{Acq. and admin. expenses (net)}}{\text{Premiums earned (net)}}$$

LIMITATIONS ON THE USEFULNESS

The combined ratio is used to measure underwriting profitability, but it does not capture the profitability of the investment result or the non-operating result. Even in case of a combined ratio of above 100%, the operating profit and/or the net income can still be positive due to a positive investment income and/or a positive non-operating result.

Moreover, the usefulness of the combined ratio is inherently limited by the fact that it is a ratio and thus it does not provide information on the absolute amount of the underwriting result.

NEW BUSINESS MARGIN (NBM)

DEFINITION AND USEFULNESS

The new business margin is a common key performance indicator to measure the profitability of new business in our Life/Health segment. The NBM is calculated as the Value of new business (VNB) divided by the Present value of new business premiums (PVNBP). All three components are shown after non-controlling interests unless otherwise stated.

$$NBM_{LH \text{ Segment}} = \frac{\text{Value of new business (VNB)}}{\text{Present value of new business premium (PVNBP)}}$$

The VNB is the additional value to the shareholder which is created through the activity of writing new business in the current period. It is defined as the present value of future profits (PVFP) after acquisition expenses overrun or underrun, minus the time value of financial options and guarantees (O & G) and minus the risk margin (RM), all determined at the date of issue. Value of new business is calculated at point of sale, interpreted as at beginning of each quarter assumptions. In the case of the USA a more frequent valuation, using updated assumptions, is performed (bi-weekly).

The PVNBP is the present value of projected new regular premiums, discounted with risk-free rates, plus the total amount of single premiums received.

VNB and PVNBP are determined by using an actuarial platform. In the actuarial platform, insurance contracts are projected deterministically using best estimate assumptions for lapse, mortality, disability and expenses until maturity. Contracts are projected no longer than 60 years. Premiums are before reinsurance. To receive a valid and meaningful NBM, the calculation of VNB and PVNBP need to be based on the same assumptions.

LIMITATIONS ON THE USEFULNESS

Limitations come from the best estimate assumptions, including risk-free rate, and the long projection period of up to 60 years. The best estimate assumptions are derived from historical data. That means that a different future customer behavior could lead to variances. The same is applicable for the risk-free rate, which is based on current market data. Furthermore, the long projection period is worthy of discussion, because changes such as regulatory changes or a new currency are not reflected in the projection.

COST-INCOME RATIO (CIR)

DEFINITION AND USEFULNESS

The Allianz Group uses the cost-income ratio as a key performance indicator in the Asset Management segment. The CIR sets operating expenses in relation to operating revenues in a given period.

$$CIR_{AM \text{ Segment}} = \frac{\text{Operating expenses}^1}{\text{Operating revenues}^2}$$

1_ Operating expenses consist of administrative expenses (net), excluding acquisition-related expenses.

2_ Operating revenues are the sum of net fee and commission income, net interest income, income from financial assets and liabilities carried at fair value through income and other income. The term "net" means that the relevant expenses have already been deducted.

The Allianz Group uses CIR in order to measure the efficiency of its activities in the Asset Management segment. Changes in the ratio indicate a change in efficiency.

LIMITATIONS ON THE USEFULNESS

The CIR in a given period of time can be influenced by special items, one-offs or foreign exchange effects on the revenue and/or expense side which lead to a change in CIR without a long-term change of efficiency.

Moreover, the usefulness of the cost-income ratio is inherently limited by the fact that it is a ratio and thus it does not provide information on the absolute amount of the operating revenues and expenses.

1.2 Sinn und Zweck dieser Garantie ist es, sicherzustellen, dass die Anleihegläubiger unter allen tatsächlichen und rechtlichen Umständen und unabhängig von Wirksamkeit und Durchsetzbarkeit der Verpflichtungen der Emittentin und unabhängig von sonstigen Gründen, aufgrund derer die Emittentin ihre Verpflichtungen nicht erfüllt, alle zahlbaren Beträge fristgerecht in Übereinstimmung mit den Bedingungen erhalten.	1.2 The intent and purpose of this Guarantee is to ensure that the Noteholders under any and all circumstances, whether factual or legal, and irrespective of validity or enforceability of the obligations of the Issuer, or any other reasons on the basis of which the Issuer may fail to fulfil its obligations, receive on the respective due date any and all sums payable in accordance with the Conditions.
1.3 Die Garantin kann etwaige von den Anleihegläubigern innerhalb von zwölf Monaten nach Fälligkeit nicht geforderte Beträge an Kapital und Zinsen sowie etwaige sonstige auf die Schuldverschreibungen fällige Beträge bei dem Amtsgericht in Frankfurt am Main hinterlegen. Soweit die Garantin auf das Recht zur Rücknahme der hinterlegten Beträge verzichtet, erlöschen die betreffenden Ansprüche der Anleihegläubiger gegen die Emittentin und die Garantin.	1.3 The Guarantor may deposit with the Lower Court (<i>Amtsgericht</i>) in Frankfurt am Main any principal and interest as well as any other amounts due on the Notes, if any, not claimed by the Noteholders within twelve months after having become due. If the Guarantor waives all rights to withdraw such deposits the respective claims of Noteholders against the Issuer and the Guarantor shall cease.
1.4 Die Verbindlichkeiten der Garantin aus dieser Garantie sind mit allen anderen nicht besicherten und nicht nachrangigen Verbindlichkeiten der Garantin gleichrangig, soweit zwingende gesetzliche Bestimmungen nichts anderes vorschreiben.	1.4 The obligations of the Guarantor under this Guarantee rank <i>pari passu</i> with all other unsecured and unsubordinated obligations of the Guarantor, save for any obligations required to be preferred by law.

1.5	Negativerklärung der Garantin	1.5	Negative Pledge of the Guarantor
(i)	Die Garantin verpflichtet sich hiermit gegenüber den Anleihegläubigern, solange Schuldverschreibungen ausstehen, jedoch nur bis zu dem Zeitpunkt, an dem alle nach den Bedingungen zahlbaren Beträge an das Clearingsystem gezahlt worden sind, für Kapitalmarktverbindlichkeiten, einschließlich dafür übernommener Garantien und sonstiger Gewährleistungen, keine Sicherheiten an ihrem inländischen Grundvermögen zu bestellen, ohne die Schuldverschreibungen zur gleichen Zeit oder vorher und mit gleichem Rang zu sichern.	(i)	The Guarantor hereby undertakes towards the Noteholders, for as long as any Notes shall remain outstanding, but only up to the time at which all amounts payable under the Conditions have been paid to the Clearing System, not to provide any security on its domestic real property for any Capital Market Indebtedness, including any guarantees or other indemnities assumed in respect thereof, without at the same time or prior thereto securing the Notes equally and rateably therewith.
(ii)	Die Verpflichtung nach Ziffer 1.5(i) besteht jedoch nicht für solche Sicherheiten, (x) die gesetzlich vorgeschrieben sind, oder (y) die im Zusammenhang mit staatlichen Genehmigungen verlangt werden. 	"Kapitalmarktverbindlichkeiten" bedeutet hierbei jede gegenwärtige oder zukünftige Verbindlichkeit der Garantin oder eines Dritten in der Form von Schuldverschreibungen oder ähnlichen Instrumenten mit einer ursprünglichen Laufzeit von mehr als einem Jahr, die üblicherweise an einer Börse oder einem anderen Wertpapiermarkt gehandelt werden können.		"Capital Market Indebtedness" means any indebtedness, present or future, of the Guarantor or any third party in the form of Notes or any similar instruments with an original maturity of more than one year, which can ordinarily be traded on any stock exchange or other securities market.
1.6	Im Fall einer Ersetzung der Emittentin durch eine Tochtergesellschaft der Garantin gemäß § 10 der Bedingungen erstreckt sich diese Garantie auf sämtliche von der Neuen Emittentin gemäß den Bedingungen zahlbaren Beträge. Dies gilt auch dann, wenn die Allianz Finance II B.V. die Verpflichtungen aus den Schuldverschreibungen unmittelbar von der Garantin übernommen hat.	1.6	In the event of a substitution of the Issuer by a subsidiary of the Guarantor pursuant to § 10 of the Conditions, this Guarantee shall extend to any and all amounts payable by the New Issuer pursuant to the Conditions. The foregoing shall also apply if Allianz Finance II B.V. shall have assumed the obligations arising under the Notes directly from the Guarantor.
2	Die Garantie stellt einen Vertrag zugunsten der jeweiligen Anleihegläubiger als begünstigte Dritte gemäß § 328 Absatz 1 BGB dar, die jedem Anleihegläubiger das Recht gibt, Erfüllung der hierin übernommenen Verpflichtungen unmittelbar von der Garantin zu verlangen und diese Verpflichtungen unmittelbar gegen die Garantin durchzusetzen.	2	This Guarantee constitutes a contract in favor of the respective Noteholders as third party beneficiaries pursuant to § 328(1) of the German Civil Code (<i>Bürgerliches Gesetzbuch</i>) giving rise to the right of each such Noteholder to require performance of the obligations assumed hereby directly from the Guarantor and to enforce such obligations directly against the Guarantor.

Rückzahlungstag gemäß den Bedingungen.	3	The period of limitation for any claim by a Noteholder under this Guarantee shall be two years calculated from the relevant Interest Payment Date and the relevant redemption date pursuant to the Conditions.

Deutsche Bank Aktiengesellschaft

USE OF PROCEEDS

Unless otherwise specified in the applicable Final Terms, the net proceeds of the issuance of Notes under the Programme will be used for general corporate purposes of the Allianz Group.

TAXATION WARNING

The tax legislation of the state of residence of a prospective purchaser of Notes and the Issuers' country of incorporation may have an impact on the income received from the Notes.

Prospective purchasers of Notes are advised to consult their own tax advisors as to the tax consequences of the purchase, ownership and disposition of the Notes.

SUBSCRIPTION AND SALE

Underwriting

Subject to the terms and conditions contained in a Programme Agreement relating to the Programme dated 14 April 2021 (the "Programme Agreement") between the Issuers, the Guarantor and the Arranger, the Notes will be offered by the Issuers to the relevant Dealer(s). The Notes may be resold at prevailing market prices, or at prices related thereto, at the time of such resale, as determined by the relevant Dealer. The Notes may also be sold by the Issuers through the Dealers, acting as agents of the Issuers, or directly without any Dealer. The Programme Agreement also provides for Notes to be issued in syndicated Tranches that are jointly and severally underwritten by two or more Dealers.

The relevant Issuer will pay each relevant Dealer a commission as agreed between them in respect of Notes subscribed by it. Each of the Issuers and the Guarantor have agreed to reimburse the Arranger for certain of its expenses incurred in connection with the establishment of the Programme and for certain of its activities in connection with the Programme. The commissions in respect of an issue of Notes on a syndicated basis will be stated in the relevant Final Terms if required.

Each of the Issuers and the Guarantor have agreed to indemnify the Dealers against certain liabilities in connection with the offer and sale of the Notes. The Programme Agreement entitles the Dealers to terminate any agreement that they make to subscribe Notes in certain circumstances prior to payment for such Notes being made to the relevant Issuer.

Method for determining the issue price and the process for its disclosure

The price and amount of Notes to be issued under the Programme will be determined by the relevant Issuer and the relevant Dealer(s) at the time of issue in accordance with prevailing market conditions.

Selling Restrictions

GENERAL

These selling restrictions may be modified by the agreement of the relevant Issuer and the Dealers following a change in a relevant law, regulation or directive. Any such modification will be set out in a supplement to this Base Prospectus.

No action has been taken in any jurisdiction that would permit a public offering of any of the Notes, or possession or distribution of the Base Prospectus or any other offering material or any Final Terms, in any country or jurisdiction where action for that purpose is required.

Each Dealer appointed will be required to represent and agree that it will, to the best of its knowledge, comply with all relevant laws, regulations and directives in each jurisdiction in which it purchases, offers, sells or delivers Notes or has in its possession or distributes the Base Prospectus, any other offering material or any Final Terms in all cases at its own expense, and neither any Issuer, the Guarantor, nor any other Dealer shall have responsibility therefore.

UNITED STATES OF AMERICA (THE "UNITED STATES")

The Notes and the Guarantee have not been and will not be registered under the Securities Act, as amended and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons except in certain transactions exempt from the registration requirements of the Securities Act. Terms used in this paragraph have the meanings given to them by Regulation S under the Securities Act.

The Notes are subject to U.S. tax law requirements and may not be offered, sold or delivered within the United States or its possessions or to a United States person, except in certain transactions permitted by U.S. tax regulations. Terms used in this paragraph have the meanings given to them by the Code and regulations thereunder.

Each Dealer has agreed that, except as permitted by the Programme Agreement, it has not offered, sold or delivered and will not offer, sell or deliver the Notes of any identifiable Tranche and the Guarantee (i) as part of their distribution at any time or (ii) otherwise until 40 days after completion of the distribution of such Tranche as determined, and certified to the relevant Issuer, by the Fiscal Agent, or in the case of Notes issued on a syndicated basis, the Lead Manager, within the United States or to, or for the account or benefit of, U.S. persons, and it will have sent to each dealer to which it sells Notes and the Guarantee during the distribution compliance period a confirmation or other notice setting forth the restrictions on offers and sales of the Notes and the Guarantee within the United States or to, or for the account or benefit of, U.S. persons. Terms used in this paragraph have the meanings given to them by Regulation S.

In addition, until 40 days after the commencement of the offering, an offer or sale of Notes and the Guarantee within the United States by any dealer (whether or not participating in the offering) may violate the registration requirements of the Securities Act.

PROHIBITION OF SALES TO EEA AND UK RETAIL INVESTORS

Unless the Final Terms in respect of any Notes specify the "*Prohibition of Sales to EEA Retail Investors*" as "*Not Applicable*", each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not offered, sold or otherwise made available and will not offer, sell or otherwise make available any Notes which are the subject of the offering contemplated by this Base Prospectus as completed by the Final Terms in relation thereto to any retail investor in the European Economic Area. provided that no such offer of Notes referred to in (b) to (d) above shall require the relevant Issuer or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Regulation or supplement a prospectus pursuant to Article 23 of the Prospectus Regulation.

- (d) at any time in any other circumstances falling within section 86 of the FSMA,

provided that no such offer of Notes referred to in (b) to (d) above shall require the relevant Issuer or any Dealer to publish a prospectus pursuant to section 85 of the FSMA or supplement a prospectus pursuant to Article 23 of the UK Prospectus Regulation.

For the purposes of this provision, the expression "offer of Notes to the public" in relation to any Notes means the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe for the Notes and the expression "UK Prospectus Regulation" means Regulation (EU) 2017/1129 as it forms part of domestic law by virtue of the EUWA.
