Jamie Dimon, Chairman and CEO, commented: "My heart goes out to the communities and individuals, including healthcare workers and first responders, most deeply hit by the COVID-19 crisis. Throughout our history, JPMorgan Chase has built its reputation on being there for clients, customers and communities in the most critical times. This unprecedented environment is no different. We will do everything in our power to help the world recover from this global crisis."

Dimon added: "The company entered this crisis in a position of strength, and we remain well capitalized and highly liquid - with a CET1 ratio of 11.5% and total liquidity resources of over \$1 trillion. And JPMorgan Chase performed well in what was a very tough and unique operating environment - growing deposits in every line of business and providing loans as we extended credit and served as a port in the storm for our clients and customers. In the first quarter, the underlying results of the company were extremely good, however given the likelihood of a fairly severe recession, it was necessary to build credit reserves of \$6.8B, resulting in total credit costs of \$8.3B for the quarter."

Dimon commented on the results: "The first quarter delivered some unprecedented challenges and required us to focus on what we as a bank could do - outside of our ordinary course of business - to remain strong, resilient and well-positioned to support all of our stakeholders. In Consumer & Community Banking, we have remained focused on meeting our customers' needs. Approximately three quarters of our 5,000 branches have been open - all with heightened safety procedures and many with drive-through options - and the vast majority of our over 16,000 ATMs remain open. In March alone, we opened half a million new accounts for our card customers and extended over \$6 billion of new and increased credit lines, and we were active in Home Lending and Auto. We lent over \$500 million to small businesses in the month and we're now actively supporting the SBA's Paycheck Protection Program. For the quarter, we continued to see flows into both client investment assets and deposits."

Dimon continued: "We continued to support our wholesale clients throughout this challenging period, as they drew over \$50 billion on their existing lines. We also provided over \$25 billion of new credit extensions in March for companies most impacted by the crisis and helped our clients execute record Investment Grade bond issuances this quarter. In Commercial Banking, we partnered closely with clients on their liquidity needs, increasing loans \$25 billion and deposits \$40 billion in the quarter. The Corporate & Investment Bank turned in another solid quarter with record Markets revenue, as we helped clients navigate extremely tough and volatile market conditions, and we maintained our #1 rank in Global IB fees as clients turned to us for financing and advice. And in Asset & Wealth Management, we saw strong growth in both loans and deposits, we took in \$75 billion in liquidity flows, and more importantly we proactively reached out and helped clients manage their risk. In addition, JPMorgan Chase made a \$50 million commitment to help address the immediate humanitarian crisis, as well as the long-term economic challenges that the most vulnerable people face. And the firm announced a \$150 million loan program to help community partners get capital to underserved small businesses and nonprofits, particularly in the hardest hit communities."

Dimon concluded: "I want to thank our more than 250,000 employees for remaining steadfast in helping our clients, customers, communities and governments and continuing to operate with the highest standards every day. I'm proud of the extraordinary effort by our call center employees, traders, bankers, portfolio managers, technology and operations teams across the globe. I also want to thank Daniel Pinto, Gordon Smith, our Operating Committee and our senior leaders for the exceptional leadership they have shown under the most difficult of circumstances. Finally, the countries and citizens of the global community will get through this unprecedented situation, undoubtedly stronger for it. Together, we will rise to the challenge."

In the discussion below of Firmwide results of JPMorgan Chase & Co. (“JPMorgan Chase” or the “Firm”), information is presented on a managed basis, which is a non-GAAP financial measure, unless otherwise specified. The discussion below of the Firm’s business segments is also presented on a managed basis. For more information about managed basis, and non-GAAP financial measures used by management to evaluate the performance of each line of business, refer to page 6.

Comparisons noted in the sections below are for the first quarter of 2020 versus the prior-year first quarter, unless otherwise specified.

## JPMORGAN CHASE (JPM)

Net revenue on a reported basis was \$28.3 billion, \$28.3 billion, and \$29.1 billion for the first quarter of 2020, fourth quarter of 2019, and first quarter of 2019, respectively.

### Discussion of Results:

Net income was \$2.9 billion, down 69%, predominantly driven by reserve builds across the firm.

Net revenue was \$29.1 billion, down 3%. Net interest income was \$14.5 billion, flat versus the prior-year, with the impact of lower rates offset by balance sheet growth and mix as well as higher net interest income in CIB Markets. Noninterest revenue was \$14.5 billion, down 5%. This reduction in revenue included a \$951 million loss in Credit Adjustments & Other in CIB predominantly driven by funding spread widening on derivatives and \$896 million of markdowns on held-for-sale positions in the bridge book<sup>7</sup>, that were largely offset by higher CIB Markets noninterest revenue.

Noninterest expense was \$16.9 billion, up 3%, driven by higher volume- and revenue-related expense and investments, as well as higher legal expense, partially offset by lower structural expense.

The provision for credit losses was \$8.3 billion, up \$6.8 billion from the prior year driven by reserve builds which reflect deterioration in the macro-economic environment as a result of the impact of COVID-19 and continued pressure on oil prices. The Consumer reserve build was \$4.4 billion, predominantly in Card, and the Wholesale reserve build was \$2.4 billion across multiple sectors, with the largest impacts in the Oil & Gas, Real Estate, and Consumer & Retail industries.

Net income	\$ 191	\$ 4,214	\$ 3,947	\$ (4,023)	(95)%	\$ (3,756)	(95)%

### Discussion of Results<sup>10</sup>:

Net income was \$191 million, down 95%, predominantly driven by reserve builds. Net revenue was \$13.2 billion, down 2%.

Consumer & Business Banking net revenue was \$6.1 billion, down 9%, driven by the impact of deposit margin compression, partially offset by growth in deposit balances. Home Lending net revenue was \$1.2 billion, down 14%, driven by lower net servicing revenue and lower net interest income on lower balances, partially offset by higher net production revenue. Card & Auto net revenue was \$5.9 billion, up 8%, driven by higher Card net interest income on loan growth and margin expansion.

Noninterest expense was \$7.2 billion, up 3%, driven by higher volume- and revenue-related expense and investments, partially offset by lower structural expense.

The provision for credit losses was \$5.8 billion, up \$4.5 billion from the prior year driven by reserve builds, predominantly in Card. Net charge-offs were \$1.3 billion, flat versus the prior year and in-line with expectations for the quarter.

## CORPORATE & INVESTMENT BANK (CIB)

### Discussion of Results<sup>10</sup>:

Net income was \$2.0 billion, down 39%, predominantly driven by reserve builds. Net revenue was \$9.9 billion, down 1%.

Banking revenue was \$2.6 billion, down 24%. Investment Banking revenue was \$886 million, down 49%, predominantly driven by \$820 million of markdowns on held-for-sale positions in the bridge book<sup>7</sup>, partially offset by higher Investment Banking fees, up 3%. Higher debt and equity underwriting fees were largely offset by lower advisory fees. Wholesale Payments revenue was \$1.4 billion, down 4%, driven by a reporting re-classification in Merchant Services. Deposit margin compression was offset by balance and fee growth. Lending revenue was \$350 million, up 36%, predominantly driven by mark-to-market gains on hedges of accrual loans.

Markets & Securities Services revenue was \$7.4 billion, up 11%. Markets revenue was \$7.2 billion, up 32%. Fixed Income Markets revenue was \$5.0 billion, up 34%, driven by strong client activity, particularly in Rates and Currencies & Emerging Markets. Equity Markets revenue was \$2.2 billion, up 28%, predominantly driven by higher revenue in derivatives. Securities Services revenue was \$1.1 billion, up 6%, predominantly driven by balance and fee growth partially offset by deposit margin compression. Credit Adjustments & Other was a loss of \$951 million predominantly driven by funding spread widening on derivatives.

Noninterest expense was \$5.9 billion, up 5%, driven by higher legal expense, as well as higher volume- and revenue-related expense and investments, partially offset by lower structural expense.

The provision for credit losses was \$1.4 billion, predominantly driven by reserve builds from the impact of COVID-19 across multiple sectors and continued pressure on oil prices, with the largest impacts in the Oil & Gas and Consumer & Retail industries.

Net income	\$ 147	\$ 944	\$ 1,060	\$ (797)	(84)%	\$ (913)	(86)%

### Discussion of Results<sup>10</sup>:

Net income was \$147 million, down 86%, predominantly driven by reserve builds.

Net revenue was \$2.2 billion, down 10%, driven by lower deposit margin and markdowns on held-for-sale positions in the bridge book<sup>7</sup>, partially offset by higher deposit balances.

Noninterest expense was \$988 million, up 5%, predominantly driven by investments.

The provision for credit losses was \$1.0 billion, predominantly driven by reserve builds from the impact of COVID-19 across multiple sectors and continued pressure on oil prices, with the largest impacts in the Oil & Gas, Real Estate, and Consumer & Retail industries. Net charge-offs were \$100 million largely driven by Oil & Gas, up \$89 million versus the prior year.

## ASSET & WEALTH MANAGEMENT (AWM)

Results for AWM (\$ millions)	1Q20	4Q19	1Q19	4Q19		1Q19	
				\$ O/(U)	O/(U) %	\$ O/(U)	O/(U) %
Net revenue	\$ 3,606	\$ 3,700	\$ 3,489	\$ (94)	(3)%	\$ 117	3%

Provision for credit losses	94	13	2	81	NM	92	NM
Net income	\$ 664	\$ 785	\$ 661	\$ (121)	(15)%	\$ 3	—

### Discussion of Results:

Net income was \$664 million, flat versus the prior year.

Net revenue was \$3.6 billion, up 3%, largely driven by higher management fees on higher average market levels and net inflows over the past year, as well as increased brokerage activity, largely offset by lower investment valuations.

Noninterest expense was \$2.7 billion, flat versus the prior year, as higher investments and volume- and revenue-related expense were predominantly offset by lower structural expense.

The provision for credit losses was \$94 million, driven by reserve builds from the impact of COVID-19, as well as loan growth.

Assets under management were \$2.2 trillion, up 7%, driven by cumulative net inflows, partially offset by the impact of lower market levels at the end of the quarter.

## CORPORATE

Results for Corporate (\$ millions)	1Q20	4Q19	1Q19	4Q19		1Q19	
				\$ O/(U)	O/(U) %	\$ O/(U)	O/(U) %

Net income/(loss)	\$ (125)	\$ (361)	\$ 251	\$ 236	65 %	\$ (376)	NM

### Discussion of Results:

Net loss was \$125 million, compared with a net income of \$251 million in the prior year.

Net revenue was \$166 million and included \$233 million of net investment securities gains. Net revenue was down \$259 million, driven by lower net interest income on lower rates, partially offset by higher net investment securities gains.

Noninterest expense was \$146 million down \$65 million.

**2. Notes on non-GAAP financial measures:**

- a. The Firm prepares its Consolidated Financial Statements using accounting principles generally accepted in the U.S. (“U.S. GAAP”). That presentation, which is referred to as “reported” basis, provides the reader with an understanding of the Firm’s results that can be tracked consistently from year-to-year and enables a comparison of the Firm’s performance with other companies’ U.S. GAAP financial statements. In addition to analyzing the Firm’s results on a reported basis, management reviews Firmwide results, including the overhead ratio, on a “managed” basis; these Firmwide managed basis results are non-GAAP financial measures. The Firm also reviews the results of the lines of business on a managed basis. The Firm’s definition of managed basis starts, in each case, with the reported U.S. GAAP results and includes certain reclassifications to present total net revenue for the Firm and each of the reportable business segments on a fully taxable-equivalent (“FTE”) basis. Accordingly, revenue from investments that receive tax credits and tax-exempt securities is presented in the managed results on a basis comparable to taxable investments and securities. These financial measures allow management to assess the comparability of revenue arising from both taxable and tax-exempt sources. The corresponding income tax impact related to tax-exempt items is recorded within income tax expense. These adjustments have no impact on net income as reported by the Firm as a whole or by the lines of business. For a reconciliation of the Firm’s results from a reported to managed basis, see page 7 of the Earnings Release Financial Supplement.
- b. Tangible common equity (“TCE”), return on tangible common equity (“ROTCE”) and tangible book value per share (“TBVPS”), are each non-GAAP financial measures. TCE represents the Firm’s common stockholders’ equity (i.e., total stockholders’ equity less preferred stock) less goodwill and identifiable intangible assets (other than mortgage servicing rights), net of related deferred tax liabilities. For a reconciliation from common stockholders’ equity to TCE, see page 9 of the Earnings Release Financial Supplement. ROTCE measures the Firm’s net income applicable to common equity as a percentage of average TCE. TBVPS represents the Firm’s TCE at period-end divided by common shares at period-end. Book value per share was \$75.88, \$75.98 and \$71.78 at March 31, 2020, December 31, 2019, and March 31, 2019, respectively. TCE, ROTCE, and TBVPS are utilized by the Firm, as well as investors and analysts, in assessing the Firm’s use of equity.

**Additional notes:**

3. Estimated. As of March 31, 2020, the capital measures reflect the revised CECL capital transition provisions and the removal of assets purchased pursuant to a non-recourse loan provided under the Money Market Liquidity Facility (“MMLF”), as provided by the U.S. banking agencies. Refer to page 29 of the Earnings Release Financial Supplement for further information on the revised CECL capital transition provisions and Capital Risk Management on pages 85-92 of the Firm’s 2019 Form 10-K for additional information on these capital measures.
4. Last twelve months (“LTM”).
5. Net of stock issued to employees.
6. Excludes Commercial Card.
7. The bridge book consists of certain held-for-sale positions, including unfunded commitments, in CIB and CB.
8. On March 15, 2020, in response to the COVID-19 pandemic, the Firm temporarily suspended share repurchases through the second quarter of 2020.
9. Credit provided to clients represents new and renewed credit, including loans and commitments. Credit provided to small businesses reflects loans and increased lines of credit provided by Consumer & Business Banking; Card & Auto; and Commercial Banking. Credit provided to nonprofit and U.S. and non-U.S. government entities, including U.S. states, municipalities, hospitals and universities, represents credit provided by the Corporate & Investment Bank and Commercial Banking.
10. In the first quarter of 2020, to complete the realignment of the Firm’s wholesale payment businesses the Firm established a Wholesale Payments business unit within CIB. The Wholesale Payments business comprises Treasury Services and Merchant Services across CIB, CCB and CB as well as CIB Trade Finance that was previously reported in Lending in CIB. As a result the assets, liabilities and headcount associated with the Merchant Services business were realigned to CIB from CCB. In conjunction with this realignment the revenue and expenses of the Merchant Services business will be reported across CCB, CIB and CB based primarily on client relationship. Prior periods have been revised to reflect this realignment and revised allocation methodology. Refer to page 30 of the Earnings Release Financial Supplement for further information.

Effective January 1, 2020, the Firm adopted the Financial Instruments – Credit Losses ("CECL") accounting guidance. Refer to page 29 for further information.

- (a) Refer to Reconciliation from Reported to Managed Basis on page 7 for a further discussion of managed basis.  
(b) TBVPS and ROTCE are each non-GAAP financial measures. TBVPS represents tangible common equity ("TCE") divided by common shares at period-end. ROTCE measures the Firm's net income applicable to common equity as a percentage of average TCE. TCE is also a non-GAAP financial measure; refer to page 9 for a reconciliation of common stockholders' equity to TCE. Refer to page 28 for a further discussion of these measures.  
(c) Quarterly ratios are based upon annualized amounts.  
(d) As of March 31, 2020, the capital measures reflect the revised CECL capital transition provisions and the removal of assets purchased pursuant to a non-recourse loan provided under the Money Market Liquidity Facility ("MMLF"), as provided by the U.S. banking agencies. Refer to page 29 for further information on the revised CECL capital transition provisions and Capital Risk Management on pages 85-92 of the Firm's 2019 Form 10-K for additional information on these capital measures.

Effective January 1, 2020, the Firm adopted the CECL accounting guidance. Refer to page 29 for further information.

In the first quarter of 2020, the Merchant Services business was realigned from CCB to CIB as part of the Firm's Wholesale Payments business. The prior period amounts were revised to conform with the current presentation. Refer to page 30 for further information.

- (a) In conjunction with the adoption of CECL, the Firm reclassified certain loans from the consumer, excluding credit card portfolio segment to the wholesale portfolio segment. Prior periods have been revised to conform with the current presentation. Refer to page 29 for further information.
- (b) Effective January 1, 2020, the Firm refined the scope of VaR to exclude positions related to the risk management of interest rate exposure from changes in the Firm's own credit spread on fair value option elected liabilities, and included these positions in other-sensitivity based measures. This change was made to more appropriately reflect the risk from changes in the Firm's own credit spread on fair value option elected liabilities in a single market risk measure. In the absence of this refinement, the average Total VaR for the three months ended March 31, 2020 would have been higher by \$6 million.
- (c) Refer to Reconciliation from Reported to Managed Basis on page 7 for a further discussion of managed basis.

**RECONCILIATION FROM REPORTED TO MANAGED BASIS**

(in millions, except ratios)

The Firm prepares its Consolidated Financial Statements using accounting principles generally accepted in the U.S. ("U.S. GAAP"). That presentation, which is referred to as "reported" basis, provides the reader with an understanding of the Firm's results that can be tracked consistently from year-to-year and enables a comparison of the Firm's performance with other companies' U.S. GAAP financial statements. In addition to analyzing the Firm's results on a reported basis, management reviews Firmwide results, including the overhead ratio, on a "managed" basis; these Firmwide managed basis results are non-GAAP financial measures. The Firm also reviews the results of the lines of business on a managed basis. Refer to the notes on Non-GAAP Financial Measures on page 28 for additional information on managed basis.

The following summary table provides a reconciliation from reported U.S. GAAP results to managed basis.

Effective January 1, 2020, the Firm adopted the CECL accounting guidance. Refer to page 29 for further information.

- (a) As of March 31, 2020, the capital measures reflect the revised CECL capital transition provisions and the removal of assets purchased pursuant to a non-recourse loan provided under the MMLF, as provided by the U.S. banking agencies. Refer to page 29 for further information on the revised CECL capital transition provisions and Capital Risk Management on pages 85-92 of the Firm's 2019 Form 10-K for additional information on these capital measures.
- (b) Adjusted average assets, for purposes of calculating leverage ratios, includes total quarterly average assets adjusted for on-balance sheet assets that are subject to deduction from Tier 1 capital, predominantly goodwill and other intangible assets.
- (c) Refer to page 28 for further discussion of TCE.
- (d) Represents deferred tax liabilities related to tax-deductible goodwill and to identifiable intangibles created in nontaxable transactions, which are netted against goodwill and other intangibles when calculating TCE.
- (e) Estimated.

(a) On March 15, 2020, in response to the COVID-19 pandemic, the Firm temporarily suspended repurchases of its common equity through the second quarter of 2020. The current equity repurchase program, which was announced on June 27, 2019, authorized the Firm to repurchase up to \$29.4 billion of common equity between July 1, 2019 and June 30, 2020.

(b) The net impact of employee issuances on stockholders' equity is driven by the cost of equity compensation awards that is recognized over the applicable vesting periods. The cost is partially offset by tax impacts related to the distribution of shares and the exercise of employee stock options and SARs.

In the first quarter of 2020, the Merchant Services business was realigned from CCB to CIB as part of the Firm's Wholesale Payments business. The prior period amounts were revised to conform with the current presentation. Refer to page 30 for further information.

- (a) In the first quarter of 2020, the Firm reclassified certain fees from asset management, administration and commissions to lending- and deposit-related fees. The prior period amounts were revised to conform with the current presentation.
- (b) Net production revenue in the third quarter of 2019 included approximately \$350 million of gains on the sale of certain mortgage loans that were predominantly offset by a charge in net interest income for the unwind of the related internal funding from Treasury and Chief Investment Office ("CIO") associated with these loans. The charge reflects the net present value of that funding and is recognized as interest income in Treasury and CIO. Refer to footnote (a) in Corporate on page 23 and Funds Transfer Pricing ("FTP") on page 61 of the Firm's 2019 Form 10-K for further information.
- (c) Included depreciation expense on leased assets of \$1.1 billion, \$1.1 billion, \$1.0 billion, \$957 million and \$967 million for the three months ended March 31, 2020, December 31, 2019, September 30, 2019, June 30, 2019, and March 31, 2019, respectively.
- (d) Included MSR risk management results of \$(90) million, \$35 million, \$53 million, \$(244) million and \$(9) million for the three months ended March 31, 2020, December 31, 2019, September 30, 2019, June 30, 2019, and March 31, 2019, respectively.

Effective January 1, 2020, the Firm adopted the CECL accounting guidance. The adoption resulted in a change in the accounting for PCI loans, which are considered purchased credit deteriorated ("PCD") loans under CECL. Refer to page 29 for further information.

- (a) At March 31, 2020, nonaccrual loans included \$970 million of PCD loans. Prior to the adoption of CECL, nonaccrual loans excluded PCI loans as the Firm recognized interest income on each pool of PCI loans as each of the pools was performing.
- (b) At March 31, 2020, December 31, 2019, September 30, 2019, June 30, 2019 and March 31, 2019, nonaccrual loans excluded mortgage loans 90 or more days past due and insured by U.S. government agencies of \$616 million, \$961 million, \$1.6 billion, \$1.8 billion and \$2.2 billion, respectively. These amounts have been excluded based upon the government guarantee.
- (c) At March 31, 2020, the 30+ day delinquency rates included PCD loans. The rates prior to January 1, 2020 were revised to include the impact of PCI loans.
- (d) At March 31, 2020, December 31, 2019, September 30, 2019, June 30, 2019 and March 31, 2019, excluded mortgage loans insured by U.S. government agencies of \$1.0 billion, \$1.7 billion, \$2.7 billion, \$2.9 billion and \$3.2 billion, respectively, that are 30 or more days past due. These amounts have been excluded based upon the government guarantee.

In the first quarter of 2020, the Merchant Services business was realigned from CCB to CIB as part of the Firm's Wholesale Payments business. The prior period amounts were revised to conform with the current presentation. Refer to page 30 for further information.

- (a) In the first quarter of 2020, the Firm reclassified certain fees from asset management, administration and commissions to lending- and deposit-related fees. Prior period amounts were revised to conform with the current presentation.
- (b) Includes tax-equivalent adjustments, predominantly due to income tax credits related to alternative energy investments; income tax credits and amortization of the cost of investments in affordable housing projects; as well as tax-exempt income from municipal bonds of \$667 million, \$646 million, \$527 million, \$547 million and \$539 million for the three months ended March 31, 2020, December 31, 2019, September 30, 2019, June 30, 2019, and March 31, 2019, respectively.
- (c) Consists primarily of credit valuation adjustments ("CVA") managed centrally within CIB and funding valuation adjustments ("FVA") on derivatives and certain components of fair value option elected liabilities. Results are presented net of associated hedging activities and net of CVA and FVA amounts allocated to Fixed Income Markets and Equity Markets.

(a) Client deposits and other third-party liabilities pertain to the Wholesale Payments and Securities Services businesses.

(b) Represents total merchant processing volume across CIB, CCB and CB. Refer to page 30 for additional information.

(c) Effective January 1, 2020, the Firm refined the scope of VaR to exclude positions related to the risk management of interest rate exposure from changes in the Firm's own credit spread on fair value option elected liabilities, and included these positions in other-sensitivity based measures. This change was made to more appropriately reflect the risk from changes in the Firm's own credit spread on fair value option elected liabilities in a single market risk measure. In the absence of this refinement, the average VaR for each of the following reported components would have been higher by the following amounts: CIB fixed income of \$4 million, CIB Trading VaR \$5 million and CIB VaR \$6 million for the three months ended March 31, 2019.

(d) CIB trading VaR includes substantially all market-making and client-driven activities, as well as certain risk management activities in CIB, including credit spread sensitivity to CVA. Refer to VaR measurement on pages 121–123 of the Firm's 2019 Form 10-K for further information.

(e) Average portfolio VaR was less than the sum of the VaR of the components described above, which is due to portfolio diversification. The diversification effect reflects the fact that the risks were not perfectly correlated.

(f) Credit portfolio VaR includes the derivative CVA, hedges of the CVA and hedges of the retained loan portfolio, which are reported in principal transactions revenue. This VaR does not include the retained loan portfolio, which is not reported at fair value.

In the first quarter of 2020, the Merchant Services business was realigned from CCB to CIB and the revenue and expense of the business is reported across CCB, CIB and CB based primarily on client relationship. In conjunction with this realignment, treasury services product revenue has been renamed wholesale payments. Prior period revenue and expense amounts were revised to conform with the current presentation. Refer to page 30 for further information.

- (a) In the first quarter of 2020, the Firm reclassified certain fees from asset management, administration and commissions (which are included in all other income) to lending- and deposit-related fees. Prior period amounts were revised to conform with the current presentation.
- (b) Total net revenue included tax-equivalent adjustments from income tax credits related to equity investments in designated community development entities and in entities established for rehabilitation of historic properties, as well as tax-exempt income related to municipal financing activities of \$81 million, \$152 million, \$114 million, \$100 million and \$94 million for the three months ended March 31, 2020, December 31, 2019, September 30, 2019, June 30, 2019, and March 31, 2019, respectively.
- (c) Includes CB's share of revenue from investment banking products sold to CB clients through the CIB.
- (d) Refer to page 60 of the Firm's 2019 Form 10-K for discussion of revenue sharing.

Effective January 1, 2020, the Firm adopted the CECL accounting guidance. The adoption resulted in a change in the accounting for PCI loans, which are considered PCD loans under CECL. In conjunction with the adoption of CECL, the Firm reclassified certain loans and commitments from the consumer, excluding credit card portfolio segment to the wholesale portfolio segment. Prior periods have been revised to conform with the current presentation. Refer to page 29 for further information.

(a) Includes scored loans held in CCB, scored prime mortgage and scored home equity loans held in AWM, and scored prime mortgage loans held in Corporate.

(b) Includes loans held in CIB, CB, AWM, Corporate, as well as risk-rated business banking and auto dealer loans held in CCB for which the wholesale methodology is applied for determining the allowance for loan losses. Excludes scored loans held in CCB, scored prime mortgage and scored home equity loans held in AWM and scored prime mortgage loans held in Corporate.

(c) Primarily represents brokerage-related held-for-investment customer receivables, which are classified in accrued interest and accounts receivable on the Consolidated balance sheets.

(d) Includes commercial card lending-related commitments primarily in CB and CIB.

(e) Represents total consumer loans, lending-related commitments, and receivables from customers and other.

(f) Represents total wholesale loans, lending-related commitments, derivative receivables, and receivables from customers and other.

Refer to Note 12 of the Firm's 2019 Form 10-K for additional information on the Firm's credit card nonaccrual and charge-off policies.

(b) Included nonaccrual loans held-for-sale of \$2 million, \$2 million and \$31 million at December 31, 2019, September 30, 2019, and June 30, 2019, respectively. There were no nonaccrual loans held-for-sale in all other periods presented.

(c) At March 31, 2020, nonaccrual loans included \$970 million of PCD loans. Prior to the adoption of CECL, nonaccrual loans excluded PCI loans as the Firm recognized interest income on each pool of PCI loans as each of the pools was performing.

(d) Represents commitments that are risk rated as nonaccrual.

(e) The prior period amount has been revised to conform with the current period presentation.

(a) Upon the adoption of the CECL accounting guidance on January 1, 2020, the Firm recognized a net increase of \$4.3 billion ("day 1 impact") to the allowance for credit losses, of which \$4.2 billion relates to the allowance for loan losses and \$98 million relates to the allowance for lending-related commitments. Refer to page 29 for further information.

(b) Prior to the adoption of CECL, write-offs of PCI loans were recorded against the allowance for loan losses when actual losses for a pool exceeded estimated losses that were recorded as purchase accounting adjustments at the time of acquisition. A write-off of a PCI loan was recognized when the underlying loan was removed from a pool.

(a) Includes modified PCD loans and loans that have been modified or are reasonably expected to be modified in a troubled debt restructuring ("TDR").

(b) The asset-specific credit card allowance for loan losses relates to loans that have been modified or are reasonably expected to be modified in a TDR; the Firm calculates this allowance based on the loans' original contractual interest rates and does not consider any incremental penalty rates.

(c) Includes risk-rated loans that have been placed on nonaccrual status and loans that have been modified or are reasonably expected to be modified in a TDR.

(d) Management uses allowance for loan losses to period-end loans retained, excluding CIB's trade finance and conduits, a non-GAAP financial measure, to provide a more meaningful assessment of the wholesale allowance coverage ratio.

(e) Refer to footnote (a) on page 25 for information on the Firm's nonaccrual policy for credit card loans.

## Non-GAAP Financial Measures

- (a) In addition to analyzing the Firm's results on a reported basis, management reviews Firmwide results, including the overhead ratio, on a "managed" basis; these Firmwide managed basis results are non-GAAP financial measures. The Firm also reviews the results of the lines of business on a managed basis. The Firm's definition of managed basis starts, in each case, with the reported U.S. GAAP results and includes certain reclassifications to present total net revenue for the Firm and each of the reportable business segments on a FTE basis. Accordingly, revenue from investments that receive tax credits and tax-exempt securities is presented in the managed results on a basis comparable to taxable investments and securities. These financial measures allow management to assess the comparability of revenue arising from both taxable and tax-exempt sources. The corresponding income tax impact related to tax-exempt items is recorded within income tax expense. These adjustments have no impact on net income as reported by the Firm as a whole or by the lines of business.
- (b) **TCE, ROTCE, and TBVPS** are each non-GAAP financial measures. TCE represents the Firm's common stockholders' equity (i.e., total stockholders' equity less preferred stock) less goodwill and identifiable intangible assets (other than MSRs), net of related deferred tax liabilities. ROTCE measures the Firm's net income applicable to common equity as a percentage of average TCE. TBVPS represents the Firm's TCE at period-end divided by common shares at period-end. TCE, ROTCE, and TBVPS are utilized by the Firm, as well as investors and analysts, in assessing the Firm's use of equity.
- (c) The ratio of the wholesale and CIB's **allowance for loan losses to period-end loans retained, excluding trade finance and conduits**, is calculated excluding loans accounted for at fair value, loans held-for-sale, CIB's trade finance loans and consolidated Firm-administered multi-seller conduits, as well as their related allowances, to provide a more meaningful assessment of the respective allowance coverage ratio.
- (d) In addition to reviewing net interest income and the net yield on a managed basis, management also reviews these metrics excluding CIB's Markets businesses to assess the performance of the Firm's lending, investing (including asset-liability management) and deposit-raising activities. The resulting metrics are referred to as non-markets related net interest income and net yield. CIB's Markets businesses are Fixed Income Markets and Equity Markets. Management believes that disclosure of non-markets related net interest income and net yield provide investors and analysts with other measures by which to analyze the non-markets-related business trends of the Firm and provides a comparable measure to other financial institutions that are primarily focused on lending, investing and deposit-raising activities.

**Financial Instruments – Credit Losses (“CECL”)**

Effective January 1, 2020, the Firm adopted the Financial Instruments – Credit Losses (“CECL”) accounting guidance. The adoption of this guidance established a single allowance framework for all financial assets carried at amortized cost and certain off-balance sheet credit exposures. This framework requires that management’s estimate reflects credit losses over the full remaining expected life and considers expected future changes in macroeconomic conditions.

The following table presents the impacts to the allowance for credit losses and retained earnings upon adoption of this guidance on January 1, 2020:

(in billions)	December 31, 2019	CECL adoption impact	January 1, 2020
<b>Allowance for credit losses</b>			
Consumer, excluding credit card (a)	\$ 2.6	\$ 0.4	\$ 3.0
Credit card	5.7	5.5	11.2
Wholesale (a)	6.0	(1.6)	4.4
Firmwide	\$ 14.3	\$ 4.3	\$ 18.6
<b>Retained earnings</b>			
Firmwide allowance increase		\$ 4.3	
Balance sheet reclassification (b)		(0.8)	
Total pre-tax impact		3.5	
Tax effect		(0.8)	
Decrease to retained earnings		\$ 2.7	

(a) In conjunction with the adoption of CECL, the Firm reclassified risk-rated business banking and auto dealer loans and commitments held in CCB from the consumer, excluding credit card portfolio segment to the wholesale portfolio segment, to align with the methodology applied in determining the allowance. Prior periods have been revised to conform with the current presentation. Accordingly, \$0.6 billion of the allowance for credit losses at December 31, 2019 and \$(0.2) billion of the CECL adoption impact were reclassified.

(b) Represents the recognition of the nonaccretible difference on purchased credit deteriorated assets and the Firm’s election to recognize the reserve for uncollectible accrued interest on credit card loans in the allowance, both of which resulted in a corresponding increase to loans.

**Investment Securities**

Upon adoption, held-to-maturity securities are presented net of an allowance for credit losses.

**PCD loans**

Upon adoption, the Firm elected to discontinue the pool-level accounting for PCI loans and to account for these loans on an individual loan basis. PCI loans are considered PCD loans under CECL and are subject to the Firm’s nonaccrual and charge-off policies. As a result, certain credit metrics and ratios which previously excluded PCI loans, now include the impact of PCD loans, prior periods have been revised to conform with the current presentation.

**Changes in credit portfolio segment**

In conjunction with the adoption of CECL, the Firm reclassified risk-rated business banking and auto dealer loans and commitments held in CCB from the consumer, excluding credit card portfolio segment to the wholesale portfolio segment, to align with the methodology applied in determining the allowance. Prior periods have been revised to conform with the current period presentation.

**Capital transition provisions**

As disclosed in the Firm’s 2019 Form 10-K, the Firm had initially elected to phase-in the January 1, 2020 (“day 1”) impact to retained earnings of \$2.7 billion to regulatory capital, over a three-year transition period beginning in 2020. As part of its response to the impact of COVID-19, on March 31, 2020, the Federal Reserve, Federal Deposit Insurance Corporation and Office of the Comptroller of the Currency issued an interim final rule that provided the option to temporarily delay the effects of CECL on regulatory capital for two years, followed by a three-year transition period. The interim final rule provides a uniform approach for estimating the effects of CECL compared to the legacy incurred loss model during the first two years of the transition period by taking 25% of the change in the reported allowance for credit losses (excluding PCD loans). The cumulative amount that is not recognized in regulatory capital, in addition to the \$2.7 billion day 1 impact, will be phased in at 25 percent per year beginning January 1, 2022. As of March 31, 2020, the capital measures of the Firm exclude the \$2.7 billion day 1 impact to retained earnings and 25% of the \$6.8 billion increase in the allowance for credit losses, excluding PCD loans.

MERCHANT SERVICES REALIGNMENT

In the first quarter of 2020, to complete the realignment of the Firm's wholesale payment businesses the Firm established a Wholesale Payments business unit within CIB. The Wholesale Payments business comprises Treasury Services and Merchant Services across CIB, CCB and CB as well as CIB Trade Finance that was previously reported in Lending in CIB. As a result the assets, liabilities and headcount associated with the Merchant Services business were realigned to CIB from CCB. In conjunction with this realignment the revenue and expenses of the Merchant Services business will be reported across CCB, CIB and CB based primarily on client relationship. Prior periods have been revised to reflect this realignment and revised allocation methodology.

The table below represents select data realigned to CIB from CCB.
